## Boyd Sleep NBUL100DBQN

# Boyd Sleep Adjusta Flex Queen Adjustable Bed Kit User Manual

Model: NBUL100DBQN

## INTRODUCTION

---

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Boyd Sleep Adjusta Flex Queen Adjustable Bed Kit. Please read this manual thoroughly before assembly and use to ensure proper function and safety.

## SETUP INSTRUCTIONS

---

### Unpacking and Component Identification

Carefully unpack all components from the box. Ensure all parts are present before beginning assembly. The kit includes the adjustable base, power cord, adapter, wireless remote control, retainer bar, foot holder, and wall brace (optional).

# MULTI-USE INCLINE ADJUSTABLE BASE KIT

Image: Easy 3-step setup process for the Adjusta Flex base.

Image: The Adjusta Flex base is compatible with various bed base types including metal, box spring, and wooden slats.

## Assembly Steps

1. **Remove Mattress:** Carefully remove your existing mattress from the bed frame and set it aside.
2. **Position Base:** Place the adjustable base face down on your bed frame. Cut any orange packaging straps and remove the mattress retainer bar.
3. **Flip Base:** Flip the adjustable base over so the fabric cover is facing up. Position it at the head of the bed frame.
4. **Connect Power:** Connect the adapter plug to the power base control box. Plug the power cord into a nearby electrical outlet.
5. **Secure Straps (for Metal Bases):** Unfasten the straps on the power base and extend them to the same length. Feed them through the foot holders, securing the straps to the Velcro.
6. **Install Retainer Bar & Foot Holder:** Join the foot holders together using the retainer bar. Secure them in place with the provided screws, ensuring they are flush with the end of the bed.
7. **Install Wall Brace (Optional):** If desired, slide the wall braces onto the end of the base and attach the buffers at a desired distance from the wall.
8. **Insert Remote Batteries:** Insert two AAA batteries (not included) into the wireless remote control.
9. **Secure Base to Frame:** Use the remote to raise the head of the base to its highest position. Secure the head of the base to the bed frame using the provided screws.
10. **Adjust Support Bars:** To customize the base to fit your mattress, loosen the four knobs on the back of the base and extend the arms to the necessary width. Tighten the knobs once adjusted.
11. **Place Mattress:** Lower the base to a flat position using the remote. Carefully place your mattress on top of the adjustable base.

## OPERATING INSTRUCTIONS

### Wireless Remote Control

The Adjusta Flex base is operated using a wireless remote control. Ensure batteries are correctly installed (2x AAA, not included).

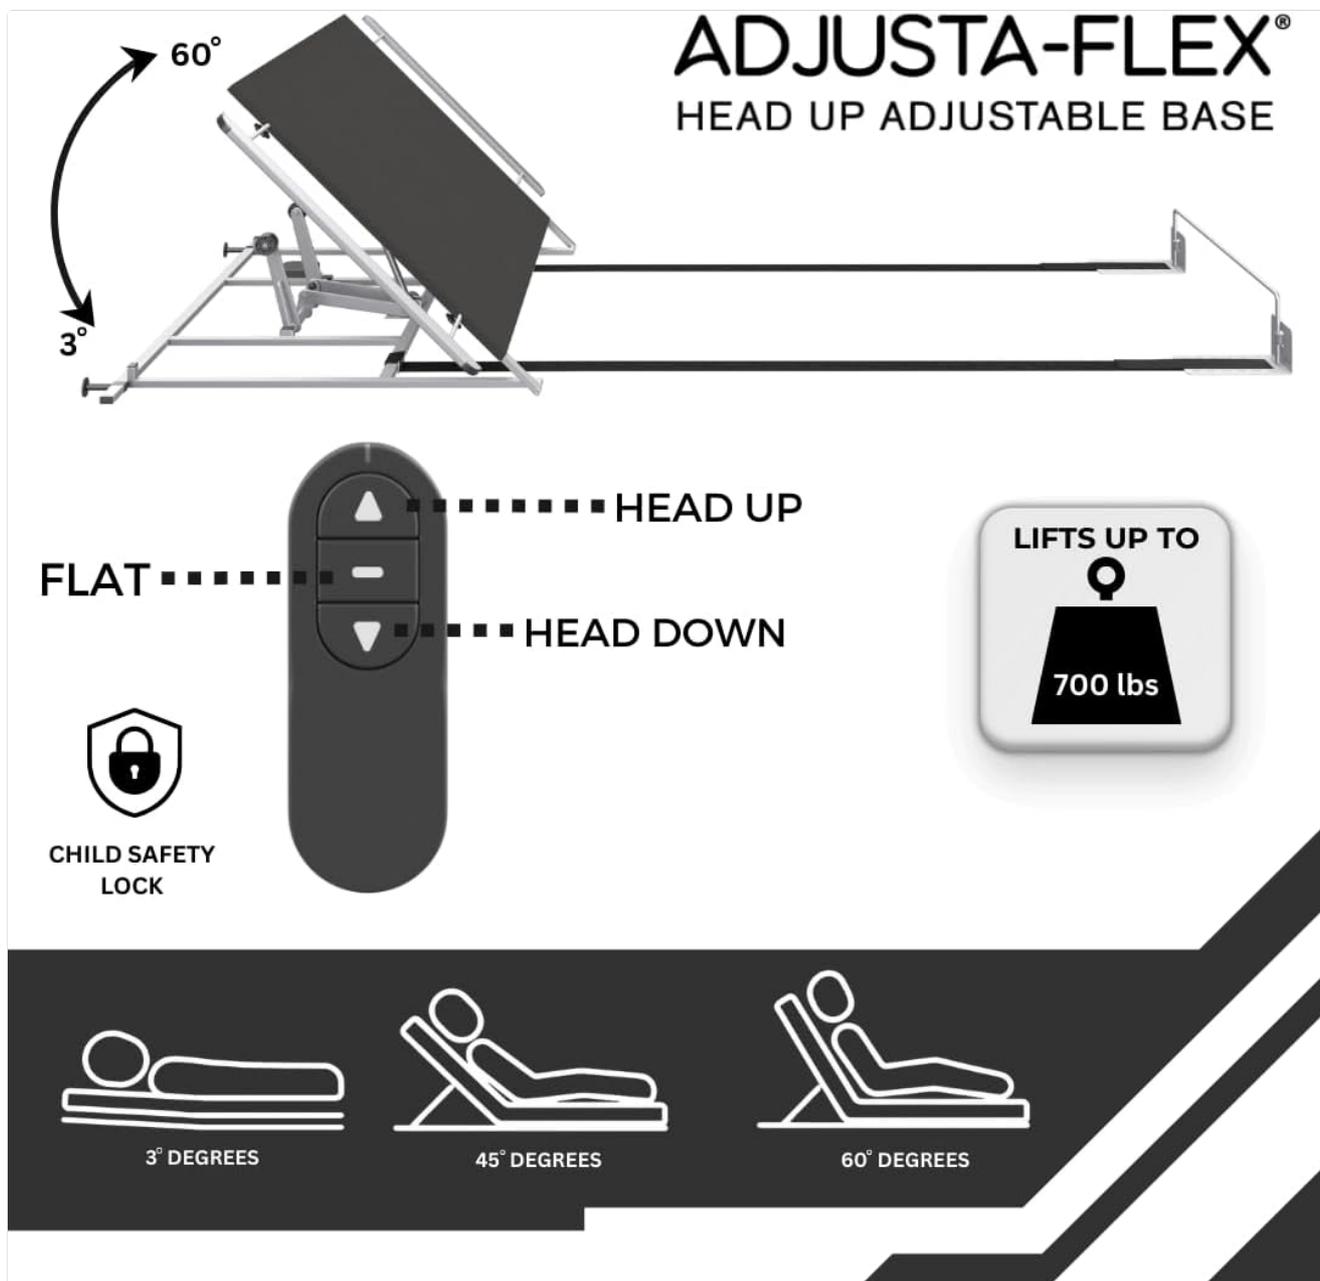

Image: Wireless remote control for adjusting the bed's head incline and activating the child safety lock.

- **Head Up Button (Triangle pointing up):** Press and hold to raise the head section of the bed. The head incline can be adjusted from 3 to 60 degrees.
- **Head Down Button (Triangle pointing down):** Press and hold to lower the head section of the bed.
- **Flat Button (Horizontal line):** Press to return the head section of the bed to a completely flat position.

## Mattress Compatibility

The adjustable frame is compatible with various mattress types, including memory foam, latex, gel, or hybrid mattresses. It is designed to fit directly onto your existing bed frame's slats.

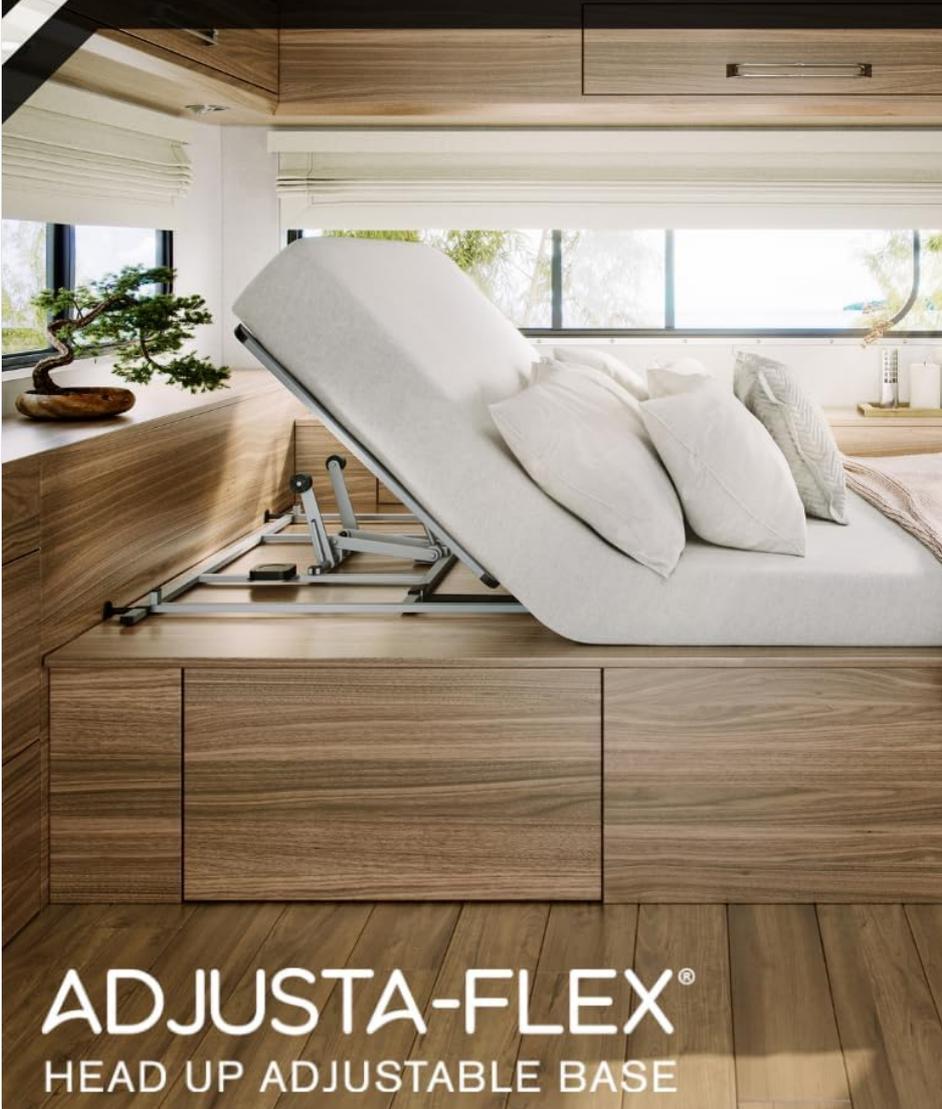

Image: The Adjusta Flex base supports Hybrid, Memory Foam, Innerspring, and Latex mattress types.

## Benefits of Use

The Adjusta Flex adjustable bed frame is designed to enhance your sleep experience and provide comfort for various activities:

- **Improved Sleep:** Helps alleviate common sleep issues like snoring, back pain, swelling, and acid reflux.
- **Comfort for Activities:** Ideal for reading, watching TV, or eating in bed.
- **Versatile Application:** Suitable for standard beds, RVs, and campers.

# EASY SET-UP

## INSTALLS IN UNDER 15 MINUTES

**REMOVE THE MATTRESS  
AND SET IT ASIDE.**

**INSTALL THE ADJUSTA-FLEX BASE  
ON TOP OF THE BED FRAME.**

**RETURN AND CENTER THE MATTRESS ON TOP OF THE  
ADJUSTA-FLEX BASE.**

Image: The Adjusta Flex base is suitable for universal applications, including RVs and campers.

## MAINTENANCE

---

- **Cleaning:** Wipe the base with a damp cloth as needed. Avoid harsh chemicals or abrasive cleaners.
- **Regular Inspection:** Periodically check all connections and fasteners to ensure they are secure.
- **Clearance:** Ensure there are no obstructions under or around the adjustable base that could interfere with its movement.

## TROUBLESHOOTING

---

## Child Safety Lock Feature

The Adjusta Flex base includes a child safety lock to prevent accidental movement. If the base stops functioning, first check the child safety lock status.

# NOTIFICATION

**IF THE BASE STOPS FUNCTIONING, FIRST TRY DISENGAGING THE "CHILD SAFETY LOCK."  
IF THE ISSUE PERSISTS, ATTEMPT TO RECONNECT THE REMOTE CONTROL.**

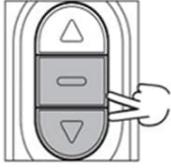

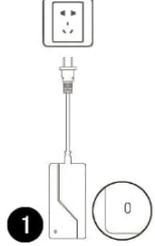

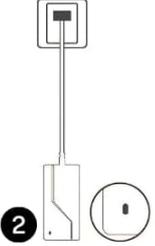

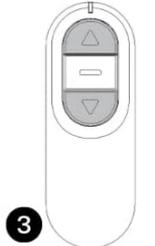

CHILD SAFETY LOCK		RECONNECTING REMOTE
 <p><b>ACTIVATE</b></p> <p>a. To activate the Child lock function, simultaneously press and hold the "▲" and "▼" buttons for 3 seconds. The backlight will flash 3 times and then remain steady indicating that the Child Lock is now enabled.</p>	 <p><b>DEACTIVATE</b></p> <p>b. To deactivate the Child Lock function, simultaneously press and hold the "▲" and "▼" buttons for 3 seconds. The backlight will initially flash 2 times, followed by another flash of 3 times before finally turning off completely. This indicates that the Child Lock is now disabled, and the buttons' functionalities have been restored.</p>	<p>When the product is shipped, the remote control and the electric bed are already paired. If the remote control buttons are not working or a new remote control is needed, please follow the following steps to re-pair:</p> <ol style="list-style-type: none"><li>1. Unplug the power, wait for the adapter indicator to go off, and then turn the power ON. Within 10 seconds after the entire bed is powered on, simultaneously press and hold the "▲" and "▼" buttons.</li><li>2. The backlight of the remote control flashes like to lightening during the pairing status. If it subsequently goes off, it means that pairing was successful. Otherwise, it will keep flashing.</li><li>3. After a successful pairing, click the "○" button to reset the bed: once it is completely flat, the remote control can be used normally.</li></ol> <div style="display: flex; justify-content: space-around; align-items: flex-end;"><div style="text-align: center;"><p><b>1</b></p><p>Unplug the power, make sure the adapter light is off</p></div><div style="text-align: center;"><p><b>2</b></p><p>Plug in the power cord</p></div><div style="text-align: center;"><p><b>3</b></p><p>Press and hold "▲" and "▼" at the same time within 10 seconds</p></div></div>

Image: Instructions for child safety lock and remote control re-pairing.

- **To Activate:** Simultaneously press and hold the "Head Up" (triangle up) and "Head Down" (triangle down) buttons for 3 seconds. The remote's backlight will flash 3 times and then remain steady, indicating the Child Lock is enabled.
- **To Deactivate:** Simultaneously press and hold the "Head Up" (triangle up) and "Head Down" (triangle down) buttons for 3 seconds. The backlight will initially flash 2 times, followed by another flash of 3 times before finally turning off completely. This indicates the Child Lock is disabled, and the remote's functionalities have been restored.

## Reconnecting the Remote Control

If the remote control buttons are not working or a new remote control is needed, follow these steps to re-pair:

1. Unplug the power cord, wait for the adapter indicator light to go off, then plug the power cord back in.
2. Within 10 seconds after the entire bed is powered on, simultaneously press and hold the "Head Up" (triangle up) and "Head Down" (triangle down) buttons on the remote.
3. The backlight of the remote control flashes like lightning during the pairing status. If it subsequently goes off, it means that pairing was successful. Otherwise, it will keep flashing.
4. After a successful pairing, click the "Flat" button to reset the bed. Once it is completely flat, the remote control

can be used normally.
