Doc Johnson Signature Series Bam 13 Inch Realistic FIRMSKYN Dildo Instruction Manual

1. PRODUCT OVERVIEW

The Doc Johnson Signature Series Bam is a 13-inch realistic dildo crafted from FIRMSKYN material. It is designed for intense experiences and features a lifelike look and feel with textured veins. This product includes a removable Vac-U-Lock suction cup for hands-free use and is compatible with Vac-U-Lock harnesses and thrusting machines. It is phthalate-free and body-safe. The product comes with a fabric bag for discreet travel and storage, a care guide, and Vac-U-Lock powder.

3. SETUP

3.1 Attaching the Vac-U-Lock Suction Cup

1. Ensure both the base of the dildo and the suction cup are clean and dry.
2. Align the Vac-U-Lock peg on the suction cup with the corresponding opening at the base of the dildo.
3. Firmly push and twist the suction cup into the dildo's base until it is securely attached.

3.2 Using with Harnesses or F-Machines

With the suction cup removed, this dildo can be attached to any Vac-U-Lock compatible harness or thrusting machine. Ensure the connection is secure before use.

4. OPERATING INSTRUCTIONS

For optimal comfort and safety, always use this product with a water-based lubricant or glide. Apply lubricant generously to the product and any intended area of use.

5. MAINTENANCE

5.1 Cleaning

Clean the product thoroughly before and after each use. Use warm water and a mild soap or a specialized toy cleaner. Rinse thoroughly to remove all soap residue.

5.2 Drying and Storage

After cleaning, dry the product completely with a microfiber towel. Ensure it is entirely dry before storing to prevent mold growth. Store the product in the provided fabric bag in a cool, dry place, away from direct sunlight and extreme temperatures.

6. SAFETY INFORMATION

- Toys used in the anus and rectum should not be used in the vagina to prevent bacterial transfer.
- When using insertion toys, be aware of the size of the toy versus the size and depth of intimate areas. It is possible to overstretch, tear, perforate, or otherwise injure intimate areas. Select products that are not too large or too small. Start with smaller toys and gradually increase size as experience grows.
- **Warning:** Insertion toys that do not have stops, rims, or retrieval devices can become lodged in the body and may require medical assistance for extraction. Injury to the vagina, anus, rectum, colon, and other body parts is possible, particularly with overly vigorous play or improperly sized toys. Users assume all risks of injury.
- Do not attempt to warm this product in a microwave or conventional oven.
- This product is intended for adult use only.

7. SPECIFICATIONS

Item Model Number	8170-01-AX
Material	FIRMSKYN (Polyvinyl Chloride - PVC)
Color	Chocolate
Manufacturer	Doc Johnson

8. TROUBLESHOOTING

8.1 Suction Cup Not Holding

If the Vac-U-Lock suction cup is not adhering properly to a surface, consider the following:

- Ensure the surface is clean, smooth, and non-porous. Rough, textured, or dirty surfaces will prevent proper suction.
- Make sure the suction cup itself is clean and free of debris or lubricant residue.
- Press the suction cup firmly onto the surface, expelling as much air as possible.
- For heavy products, the suction cup may require a very flat, perfectly smooth surface to hold its weight.

9. WARRANTY AND SUPPORT

For information regarding product warranty, returns, or technical support, please contact Doc Johnson directly through their official website or customer service channels. Statements regarding this product have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

ASK A QUESTION ABOUT THIS MANUAL
