Globlazer S68

Globlazer Sturdy Cat Tree S68 Instruction Manual

Model: S68 | Brand: Globlazer

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Globlazer S68 Sturdy Cat Tree. Designed for adult cats up to 20 lbs, this 68-inch multi-level cat tower offers various platforms, scratching posts, and resting areas to enrich your cat's environment. Please read these instructions carefully before assembly and retain for future reference.

SAFETY INFORMATION

- Always ensure all screws and connections are tightened securely.
- **Check the firmness of all screws at least once a month** to maintain stability.
- Place the cat tree on a flat, stable surface to prevent tipping.

- Utilize the included anti-tip kit to anchor the cat tree to a wall, especially for taller models or active cats.
- Regularly inspect the cat tree for any loose or damaged parts. Replace or repair as necessary.
- Keep small children away from the cat tree during assembly and ensure they do not climb on it.
- Remove any dangling toys if they pose a tangling or strangulation hazard to your pets.

PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present in your package:

- Base Plate
- Multiple Platforms (various sizes, including an extra-large sector platform)
- Cat Condos/Caves (2 units)
- Hanging Baskets (2 units)

- Sisal Scratching Posts (5 units)
- Dangling Ball Toys (quantity may vary)
- Assembly Hardware (screws, bolts, Allen wrench)
- Anti-Tip Kit (wall anchor strap and hardware)
- Instruction Manual (this document)

ASSEMBLY INSTRUCTIONS (SETUP)

Follow these step-by-step instructions to assemble your Globlazer S68 Cat Tree. It is recommended to assemble the unit in the desired final location.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Identify each component using the provided parts list (if included separately).
2. **Attach Base Posts:** Secure the lowest scratching posts to the base plate using the appropriate screws. Ensure they are tightened firmly.
3. **Install First Level Platforms and Condos:** Attach the first set of platforms and cat condos to the posts. Follow the diagrams in the separate assembly guide for correct orientation.
4. **Continue Building Upwards:** Progressively add more posts, platforms, and the second cat condo, working your way up. Ensure each connection is stable before proceeding.
5. **Attach Hanging Baskets:** Secure the hanging baskets to their designated posts or platforms.
6. **Install Top Perch:** Mount the removable top perch to the uppermost post.
7. **Attach Dangling Toys:** Secure the dangling ball toys to the designated hooks on the platforms. Consider removing these if your cat is prone to entanglement.
8. **Install Anti-Tip Kit:** For enhanced stability, attach the anti-tip strap to the top of the cat tree and secure it to a wall stud using the provided hardware. This is highly recommended for safety.
9. **Final Check:** Once fully assembled, gently shake the cat tree to ensure all connections are secure and the structure is stable. Retighten any loose screws.

OPERATING INSTRUCTIONS

To encourage your cat to use the Globlazer S68 Cat Tree:

- **Placement:** Position the cat tree in a quiet area where your cat feels safe, or near a window for observation.
- **Introduction:** Gently introduce your cat to the tree. You can use treats, catnip, or their favorite toys to encourage exploration.
- **Scratching:** Demonstrate scratching on the sisal posts. Cats learn by observation.
- **Comfort:** The extra-large platform, spacious condos, and hanging baskets provide comfortable resting spots. Ensure these areas are accessible and appealing to your cat.

Extra-large Platform

Extended and widened platform design allows cats to stretch their bodies freely, providing a spacious platform for them to play and roll around

Image: An extra-large platform on the cat tree, measuring 20.4" x 16.5", providing ample space for a cat to rest.

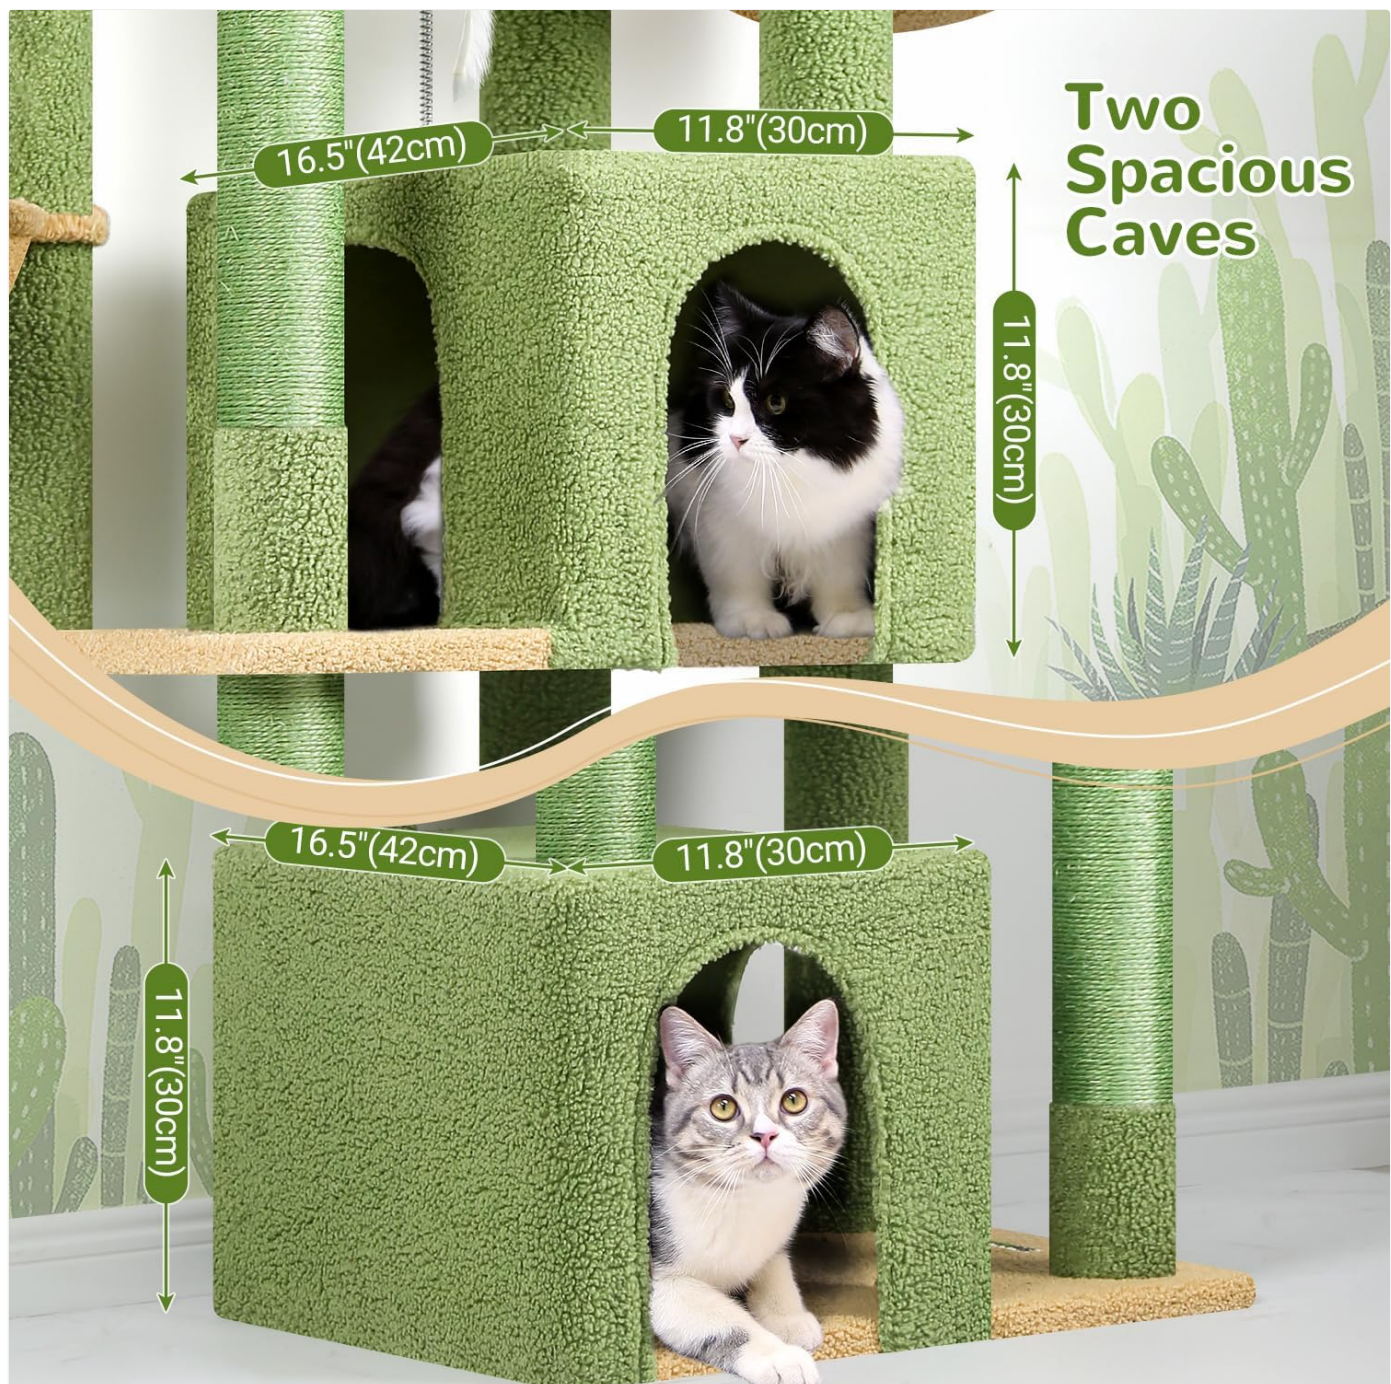

Image: Two spacious cat caves, each 16.5" x 11.8" x 11.8", offering private resting spaces for cats.

Hanging Basket

Provide a warm, soft spot for cats to lie down and rest or observe their surroundings

MAINTENANCE

- **Screw Tightness:** Regularly check and tighten all screws and connections at least once a month to ensure the cat tree remains stable and safe.
- **Cleaning:** The plush material can be spot cleaned. For deeper cleaning, the manufacturer recommends **Hand Wash Only** for removable fabric components. Avoid harsh chemicals that could be harmful to pets.
- **Inspection:** Periodically inspect sisal scratching posts for wear and tear. While durable, sisal may fray over time.
- **Toy Replacement:** If dangling toys become damaged or detached, remove damaged toys to prevent ingestion or entanglement. Replace with new cat-safe toys if desired.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat tree is wobbly.	Loose screws; uneven floor; anti-tip kit not installed.	Tighten all screws. Ensure the tree is on a level surface. Install the anti-tip kit to a wall stud.
Cat is not using the tree.	Unfamiliarity; undesirable location; lack of incentive.	Place catnip or treats on different levels. Use toys to encourage climbing. Relocate the tree to a more appealing spot (e.g., near a window).
Scratching posts are not being used.	Cat prefers other scratching surfaces.	Apply catnip to the sisal posts. Gently guide your cat's paws to the posts to demonstrate.
Dangling toys are damaged.	Normal wear and tear; aggressive play.	Remove damaged toys to prevent ingestion or entanglement. Replace with new cat-safe toys if desired.

SPECIFICATIONS

Model Name: S68
Brand: Globlazer
Dimensions (LxWxH): 21.65" x 17.7" x 68.5" (55cm x 45cm x 174cm)
