Boult Airbass

Boult Astra Truly Wireless Earbuds User Manual

Model: Airbass

INTRODUCTION

Welcome to the user manual for your new Boult Astra Truly Wireless Earbuds. These earbuds are designed to provide a superior audio experience with advanced features such as 48-hour playtime, low latency gaming, and intuitive touch controls. This manual will guide you through the setup, operation, maintenance, and troubleshooting of your device to ensure optimal performance.

What's in the Box

Upon opening your Boult Astra package, you should find the following components:

- Boult Astra Truly Wireless Earbuds (Left and Right)
- Wireless Charging Case
- Type-C Fast Charging Cable
- User Manual
- Warranty Card
- Extra Pair of Eartips

SETUP GUIDE

1. Initial Charging

Before first use, ensure your Boult Astra earbuds and charging case are fully charged. Connect the provided Type-C charging cable to the charging port on the case and plug the other end into a compatible USB power source. The LED indicators on the case will show charging status.

Image: The Boult Astra charging case connected via a Type-C cable, illustrating the fast charging capability that provides 1.5 hours of playtime from a 10-minute charge.

2. Pairing with Your Device

1. Open the charging case. The earbuds will automatically enter pairing mode, indicated by flashing LEDs.
2. On your device (smartphone, tablet, laptop), go to Bluetooth settings.
3. Search for "Boult Astra" in the list of available devices.
4. Select "Boult Astra" to connect. Once connected, a voice prompt will confirm successful pairing.

Thanks to **Blink & Pair™** technology, your earbuds will automatically connect to the last paired device when removed from the case.

KEY FEATURES

Extended Playtime

Enjoy up to 48 hours of total playtime with the charging case, ensuring your music and calls last throughout your day and beyond.

Image: The Boult Astra earbuds and charging case, emphasizing the impressive 48-hour battery life and 120-hour standby time.

Ultra-Low Latency Gaming

Activate Combat™ Gaming Mode with four taps to achieve an ultra-low latency of 45ms, providing synchronized audio for an immersive gaming experience.

Quad Mic ENC for Clear Calls

The integrated Quad Mic Environmental Noise Cancellation (ENC) technology ensures crystal-clear voice calls by effectively filtering out ambient noise.

Breathing LEDs

The charging case and earbuds feature distinctive LED lights that illuminate with various actions, adding a stylish visual element.

Maintenance

To ensure the longevity and optimal performance of your Boult Astra earbuds, follow these maintenance guidelines:

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth. For the eartips, you can gently wipe them with a slightly damp cloth and allow them to air dry completely before reattaching. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, always store the earbuds in their charging case to protect them from dust, dirt, and physical damage.
- **Charging:** Use only the provided Type-C cable and a compatible power adapter. Avoid overcharging by disconnecting once fully charged.
- **Water Exposure:** While IPX5 water-resistant, avoid submerging the earbuds in water or exposing them to high-pressure water jets. Dry them thoroughly if they get wet.

TROUBLESHOOTING

If you encounter any issues with your Boult Astra earbuds, refer to the following common solutions:

Problem	Possible Solution
Earbuds not pairing	- Ensure earbuds are charged. - Place earbuds back in the case, close the lid, wait a few seconds, then open again to re-enter pairing mode. - Forget "Boult Astra" from your device's Bluetooth settings and try pairing again. - Ensure your device's Bluetooth is enabled and within range (10 meters).
No sound from one earbud	- Check if both earbuds are charged. - Place both earbuds back in the charging case, close the lid, and then take them out again. - Try resetting the earbuds (refer to the full user manual for specific reset instructions if available).
Low volume or poor sound quality	- Adjust the volume on both your device and the earbuds. - Clean the eartips and speaker mesh to remove any debris. - Ensure the eartips are properly seated in your ears for a good seal. - Try different sized eartips for a better fit.
Charging case not charging	- Check the Type-C cable and power adapter for damage. - Try a different charging cable or power source. - Ensure the charging port on the case is clean and free of debris.
