VITESSE WJRF-EOC-BLK

VITESSE Heavy Duty Office Chair Instruction Manual

Model: WJRF-EOC-BLK

INTRODUCTION

Thank you for choosing the VITESSE Heavy Duty Office Chair. This manual provides essential information for the proper assembly, operation, maintenance, and troubleshooting of your new chair. Please read these instructions carefully before use to ensure safety and optimal performance.

Important Safety Information

Always follow the assembly instructions carefully to ensure safe use of the chair. Do not exceed the maximum weight recommendation of 500 lbs to prevent potential safety hazards.

SETUP AND ASSEMBLY

The VITESSE Heavy Duty Office Chair is designed for straightforward assembly. No specialized tools are required beyond what is provided. An adult can typically complete the assembly in approximately 20 minutes by following the included instructions.

Assembly Steps:

1. Unpack all components and verify against the parts list in the included manual.
2. Attach the silent rubber wheels to the chair base. These wheels are designed to protect floors and ensure quiet movement.
3. Secure the gas lift cylinder to the chair base.

4. Attach the seat and backrest components, ensuring all screws are tightened securely.
5. Install the armrests. Note that the armrests are padded for comfort.
6. Place the assembled seat onto the gas lift cylinder.

OPERATING INSTRUCTIONS

Your VITESSE office chair offers several adjustable features to customize your seating experience for maximum comfort and ergonomic support.

Adjustable Lumbar Support:

The chair features an adjustable lumbar support system that combines active and passive ergonomics. This allows you to fine-tune the fit to your lower back, encouraging proper posture and reducing pressure buildup. The built-in lumbar pillow conforms to micro-movements for continuous support.

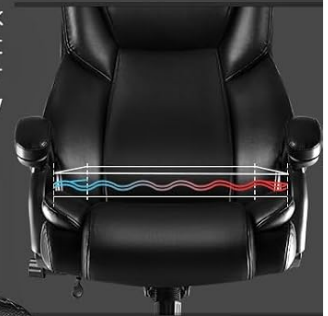

ERGONOMIC LUMBAR SUPPORT

Lumbarfit Adjustment conforms to your spine's unique shape and movements

Designed to accommodate heavier weights while ensuring accurate and consistent ergonomic support

Chair's seat and back distributes your weight evenly, and helps your blood flow

Pellicle also allows air, body heat, and water vapor to pass through

Image: A visual representation of the ergonomic design, highlighting the adjustable lumbar support and its benefits for spinal alignment.

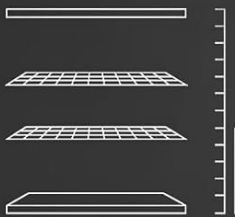

Rocking Function and Tilt Tension:

The chair includes a rocking function for dynamic sitting. You can adjust the tilt tension to your preference. To increase tension, turn the knob forward while seated. To decrease tension, turn the knob backward. This feature allows for a balanced sense of support and freedom of movement.

ADJUST THE ROCKING FUNCTION

Offers a balance of support and the freedom to move

Raises or lowers to the exact height you want

Holds up to 500 pounds

To increase tension:
While seated, turn knob forward

To decrease tension:
While seated, turn knob backward

Image: An illustration detailing the controls for adjusting the chair's rocking function and tilt tension, including directions for increasing or decreasing resistance.

Seat Height Adjustment:

Utilize the lever located under the seat to adjust the chair's height. Pull the lever up to raise the seat, or pull it up while seated to lower the seat to your desired position. Ensure your feet are flat on the floor and your knees are at a 90-degree angle for optimal posture.

Layering System Seat:

The seat is designed with a layering system to accommodate heavier weights while providing consistent ergonomic support. This system creates a sensation of floating while maintaining balance, distributing weight evenly and promoting healthy blood flow.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your VITESSE office chair.

- **Cleaning:** For faux leather surfaces, wipe with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the material.
- **Hardware Check:** Periodically check all screws and bolts to ensure they are tight. Loose hardware can affect stability and safety.
- **Wheel Care:** The quiet rubber wheels are designed for durability. Keep them free of debris to ensure smooth rolling and prevent floor scratches.
- **Weight Limit:** Adhere strictly to the 500 lbs maximum weight recommendation to prevent structural damage and ensure safety.

TROUBLESHOOTING

If you encounter any issues with your VITESSE office chair, refer to the following common troubleshooting tips:

- **Chair Sinks or Won't Stay Up:** This usually indicates an issue with the gas lift cylinder. Ensure it is correctly installed. If the problem persists, the gas lift may need replacement.
- **Squeaking Noises:** Check all bolts and screws for tightness. Lubricating moving parts with a silicone-based spray can also help eliminate squeaks.
- **Difficulty Rolling:** Inspect the wheels for hair, dust, or other debris that might be obstructing movement. Clean the wheels thoroughly.
- **Unstable or Wobbly:** Ensure all assembly connections are secure. Re-tighten any loose bolts. Verify the chair is on a flat, even surface.

WARRANTY AND SUPPORT

VITESSE is committed to customer satisfaction. Our products are backed by quality assurance. If you are not completely satisfied or if anything goes wrong with your chair, please contact our customer service specialists.
