- **Removable Covers:** If applicable, removable covers on platforms or beds can be hand washed or machine washed on a gentle cycle with cold water. Air dry thoroughly.
- **Vacuuming:** Regularly vacuum the cat tree to remove loose fur and dust.
- **Sisal Posts:** The sisal scratching posts can be cleaned with a stiff brush to remove debris. Avoid excessive moisture.
- **Odor Control:** To neutralize odors, sprinkle baking soda on the plush areas, let it sit for 15-20 minutes, then vacuum thoroughly.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Instability:** If the cat tree wobbles, ensure all screws are tightened. Verify it is placed on a level surface. Use the anti-tip kit to secure it to a wall.
- **Cats Not Using It:** Introduce your cat to the tree gradually. Place treats or toys on different levels. Use catnip to attract them. Some cats prefer to explore new items at their own pace.
- **Loose Parts:** Regularly check and tighten any loose screws or connections to maintain structural integrity.
- **Damaged Sisal:** Heavily damaged sisal posts can be replaced. Contact customer support for replacement parts.
