Bruni Screen Protector Instruction Manual

Compatible with Achate Kids Tab Pro

INTRODUCTION

This instruction manual provides detailed guidance for the installation, operation, and maintenance of your Bruni Screen Protector, specifically designed for the Achate Kids Tab Pro. This high-quality protective film offers crystal clear visibility, scratch resistance, and easy application to ensure your device's display remains pristine.

The Bruni screen protector comes in a black package, highlighting its brand, 'Schutzfolie' (protective film), 'Einfache Montage' (easy assembly), 'Schlag- & Kratzfest' (impact & scratch resistant), and 'Hergestellt in Deutschland' (Made in Germany).

SETUP AND INSTALLATION

The Bruni Screen Protector is designed for super easy assembly in just three steps. For optimal results, ensure you are in a dust-free environment.

1. **Prepare the Screen:** Use the included microfiber cloth to thoroughly clean the device's screen. Ensure there are no dust particles, smudges, or fingerprints. A clean screen is crucial for bubble-free application.
2. **Align the Protector:** Carefully peel off the protective layer from the screen protector. Align the protector precisely with the edges of your Achte Kids Tab Pro screen. Take your time to ensure perfect alignment before proceeding.
3. **Apply and Smooth:** Gently lay the screen protector onto the device's screen. Use the assembly aid (if provided) or a soft card to smooth out any air bubbles from the center outwards to the edges. If bubbles persist, gently lift the nearest edge of the protector and re-apply, smoothing as you go.

MAINTENANCE

To maintain the clarity and effectiveness of your Bruni Screen Protector, follow these simple cleaning guidelines:

- Use the provided microfiber cloth or a similar soft, lint-free cloth to gently wipe the screen protector.
- For stubborn smudges or fingerprints, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- Wipe in one direction to avoid streaks and ensure a clear view.

TROUBLESHOOTING

If you encounter issues during or after installation, consider the following:

- **Bubbles:** Most bubbles are caused by dust particles or improper smoothing during application. If bubbles appear, gently lift the nearest edge of the screen protector and use the assembly aid to push the bubble towards the edge, re-applying the film as you go. Ensure the screen is completely clean before re-application.

- **Dust Under Film:** If dust particles are trapped, carefully lift the corner of the film closest to the dust. Use a piece of sticky tape to gently dab the dust off the screen protector or the device screen. Re-apply the film slowly.
- **Misalignment:** If the protector is misaligned, gently peel it off completely and re-apply, ensuring careful alignment from one edge to the other. The film is designed to be repositionable without residue.
