HoneyGuaridan HG-A303DB

HoneyGuaridan 3.5L Automatic Cat Feeder

Model: HG-A303DB
Brand: HoneyGuaridan

1. Product Overview

The HoneyGuaridan 3.5L Automatic Cat Feeder is designed to provide convenient and consistent feeding for your cats, especially suitable for households with two cats. It features a unique dual-side feeding system, programmable meal schedules, and multiple freshness-preserving seals to ensure your pet's food remains fresh and accessible.

Key Features

- **Unique Dual Side Equal Feeding:** Ensures even distribution of food to both bowls, preventing competition between pets.
- **Multiple Sealing for Freshness:** Features a rubber seal on the lid, a desiccant bag compartment, and a sealed revolving door to protect food from air, moisture, and pests.
- **Fixed Time Quantitative Flexible Feeding:** Allows programming of 1-6 meals per day with 0-24 portions per feeding, promoting healthy eating habits.
- **Dual Power Supply:** Operates via USB power adapter or 3 alkaline D-size batteries (not included) for uninterrupted feeding, even during power outages.
- **Easy to Operate, Disassemble, and Clean:** Simple setup and programming, with removable top cover, food bucket, and stainless steel bowls for easy cleaning.
- **Personalized 10-Second Voice Recording:** Record a custom message to call your pets for mealtime.

2. Package Contents

Please check the package contents upon unboxing to ensure all components are present:

- 1 x HoneyGuaridan Automatic Cat Feeder Main Unit
- 2 x Stainless Steel Food Bowls
- 1 x USB Power Adapter
- 1 x Desiccant Bag (pre-installed or separate)
- 1 x Instruction Manual

3. Setup Guide

3.1 Unpacking and Assembly

1. Carefully remove all components from the packaging.
2. Place the main feeder unit on a flat, stable surface.
3. Attach the two stainless steel bowls to the designated slots on either side of the feeder base. Ensure they are securely seated.
4. Open the top lid and ensure the desiccant bag is properly placed in its compartment to maintain food freshness.

3.2 Power Supply

The feeder can be powered by two methods:

- **USB Power Adapter:** Connect the USB cable to the feeder's power port and plug the adapter into a standard wall outlet. This is the primary power source.
- **Battery Backup:** For uninterrupted operation during power outages, insert 3 alkaline D-size batteries (not included) into the battery compartment at the bottom of the unit. Ensure correct polarity. The feeder will

automatically switch to battery power if the main power is lost.

3.3 Filling the Food Container

Open the top lid of the feeder. Pour dry pet food into the transparent food container. The feeder is compatible with kibble sizes between 0.2-15mm. Do not overfill. Close the lid securely to maintain freshness.

4. Operating Instructions

The control panel with soft silicone buttons is located at the front of the feeder. Refer to the display for programming.

4.1 Setting the Current Time

Press the 'SET' button to enter time setting mode. Use the 'UP' and 'DOWN' buttons to adjust the hour and minute. Press 'SET' again to confirm each setting.

4.2 Programming Feeding Schedule

The feeder allows for up to 6 meals per day, with 0-24 portions per meal (approximately 6g per portion).

1. Press the 'PROGRAM' button to enter meal setting mode.
2. Select the meal number (M1-M6) using 'UP'/'DOWN'.
3. Set the desired feeding time for the selected meal.
4. Set the number of portions (0-24) for that meal.
5. Repeat for all desired meals. Press 'PROGRAM' to exit.

4.3 Recording a Meal Call

You can record a 10-second voice message to play during meal times.

1. Press and hold the 'REC' button until the indicator light flashes.
2. Speak your message clearly into the microphone.
3. Release the 'REC' button to save the recording.

4. Press the 'PLAY' button to test your recording.

4.4 Manual Feeding

To dispense food manually, press the 'MANUAL' button. Each press will dispense one portion of food.

4.5 Freshness Features

The feeder incorporates several features to keep food fresh and prevent contamination:

- **360° Sealing Top Cover:** A silicone sealing strip prevents air ingress, reducing oxidation.
- **Desiccant Box:** The integrated desiccant bag absorbs moisture, preventing mold and keeping food dry.
- **Sealed Food Outlet:** A unique sealed revolving door automatically closes after each feeding, preventing ants and other insects from entering, and deterring pets from accessing food outside of scheduled times.

5. Maintenance and Cleaning

Regular cleaning ensures hygiene and extends the life of your feeder. The top cover, clear food bucket, and stainless steel bowls are removable and washable.

1. Unplug the feeder from the power source and remove any batteries.
2. Empty any remaining food from the container.
3. Remove the top cover, food bucket, and stainless steel bowls.
4. Wash these removable parts with water and a mild detergent. Rinse thoroughly.
5. Dry all parts completely before reassembling to prevent moisture buildup.
6. Wipe the main unit with a damp cloth. Do not submerge the main unit in water.
7. Replace the desiccant bag periodically (e.g., every 1-2 months) for optimal freshness.

6. Troubleshooting

If you encounter issues with your HoneyGuaridan feeder, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Food not dispensing or unevenly dispensed.	Kibble size too large; food jammed; low food level; dispenser mechanism obstruction.	Ensure kibble is within 0.2-15mm. Check for food jams and clear any blockages. Refill food container. Clean the dispenser mechanism.
Feeder not powering on.	Power adapter not connected; batteries drained or incorrectly inserted.	Check USB power connection. Replace batteries or ensure correct polarity.
Squeaking or loud noise during dispensing.	Normal operation sound; internal mechanism friction.	A slight sound is normal. If excessively loud, ensure no food is stuck in the mechanism. If persistent, contact customer support.
Clock time drifts or is inaccurate.	Internal clock deviation.	Periodically check and reset the current time as needed.
Voice recording not playing or low volume.	Recording error; speaker obstruction.	Re-record the message. Ensure speaker is not blocked.
Pets accessing food outside of scheduled times.	Lid not secured; sealed food outlet not closing properly.	Ensure the top lid is firmly closed. Check if the sealed revolving door is obstructed and closes completely after dispensing.

7. Specifications

Attribute	Detail
Model Number	HG-A303DB
Capacity	3.5 Liters
Dimensions (LxWxH)	7.87 x 7.09 x 11.81 inches (20 x 18 x 30 cm)
Item Weight	3.88 Pounds (1.76 kg)
Power Supply	USB Power Adapter (included), 3 x D-size Alkaline Batteries (not included)
Number of Meals	1-6 meals per day
Portions per Meal	0-24 portions (approx. 6g per portion)
