1. INTRODUCTION

Thank you for choosing the TITISKIN 6-Layer Vintage Wooden Jewelry Box. This elegant organizer is designed to protect and display your valuable jewelry. Constructed from natural wood with an anti-tarnish beaded flannel interior, it offers durability and protection against dust, fingerprints, scratches, and damage. This manual provides essential information for the proper setup, operation, and maintenance of your jewelry box.

2. SETUP

2.1 Unpacking

- Carefully remove the jewelry box from its packaging.
- Inspect the box for any signs of damage during transit.
- Remove all protective films or inserts.

2.2 Placement

Place the jewelry box on a stable, flat surface such as a dresser, nightstand, or vanity. Ensure the location is free from direct sunlight and excessive moisture to preserve the wood finish and interior lining.

2.3 Using the Lock

3.3 Compartment Organization

Each of the six layers offers different configurations for various jewelry types:

- **Top Layer:** Features ring grooves, small compartments for earrings, and a larger section.
- **Drawers 1-5:** Varying sizes of compartments suitable for earrings, bracelets, brooches, and other small accessories.
- **Drawer 6 (Bottom):** A single large, open compartment for larger items or watches.

4. MAINTENANCE

4.1 Cleaning the Exterior

- Wipe the wooden exterior with a soft, dry, lint-free cloth.
- For stubborn marks, lightly dampen the cloth with water and wipe gently, then immediately dry with a clean cloth.
- Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the wood finish.

4.2 Cleaning the Interior

- The anti-tarnish beaded flannel interior can be gently vacuumed with a brush attachment to remove dust and debris.
- Do not use liquid cleaners on the interior fabric.

4.3 General Care

- Keep the jewelry box away from extreme temperature changes and high humidity.
- Avoid placing heavy objects on top of the box.
- Ensure the lid is closed when not in use to protect contents from dust.

5. TROUBLESHOOTING

5.1 Drawers Are Sticking or Difficult to Open

- **Ensure Lid is Open:** The design often requires the top lid to be fully open for drawers to slide smoothly.
- **Check for Obstructions:** Verify that no jewelry or internal dividers are jammed against the sides or top of the drawer. Gently re-seat any shifted dividers.
- **Inspect Locking Mechanism:** If a plastic strip is present at the back, ensure it is not obstructing the drawer movement. This strip can be removed if independent drawer access is desired.

5.2 Key Not Turning in Lock

- **Proper Insertion:** Ensure the key is fully inserted into the keyhole.
- **Gentle Turn:** Apply gentle pressure while turning the key. Do not force it.
- **Check for Debris:** Inspect the keyhole for any foreign objects that might be blocking the mechanism.

5.3 Internal Dividers Have Shifted

- **Re-seat Dividers:** Gently push the dividers back into their designated slots. They are designed to be removable for customization but should fit snugly.
