WUUK Y0910A

WUUK Security Camera User Manual

Model: Y0910A

Brand: WUUK

1. SETUP

1.1 What's in the Box

Verify that all components are included in your package:

- 1 x Wired Security Camera
- 1 x Magnetic Base
- 1 x USB Power Adapter
- 1 x Type-C USB Cable
- 1 x Mounting Screw Pack
- 1 x 3M Sticker
- 1 x Metallic Plate
- 1 x User Manual

1.2 Physical Installation

The WUUK Security Camera offers flexible installation options for both indoor and outdoor use, primarily utilizing a magnetic mount system.

- **Magnetic Mounting:** The camera comes with a magnetic base and a metallic plate. You can attach the metallic plate to a desired surface using the provided 3M sticker or mounting screws, then simply attach the camera magnetically. This allows for easy adjustment of the camera's angle.
- **Surface Placement:** The camera can also be placed directly on any flat surface, such as a desk or shelf, without needing to use the magnetic base.
- **Cable Management:** Use the included small nails to secure the power cable along walls or surfaces for a neat installation.

Magnetic Installation
Install the camera anywhere, outdoors or indoors

Plug-in Power

The magnetic base allows for easy installation on various surfaces, indoors or outdoors.

1.3 Powering On

The WUUK Security Camera is a wired device and requires a constant power supply.

- Connect the provided Type-C USB Cable to the camera's port.
- Plug the USB Power Adapter into a standard electrical outlet.
- The camera will power on automatically.

1.4 App Setup & Connectivity

To set up and manage your camera, download the WUUK app on your smartphone.

- Download the WUUK app from your device's app store (compatible with Android 5.1+ and iOS 12.0+).
- Create an account or log in.
- Follow the in-app instructions to add your new camera. Ensure your smartphone is connected to a 2.4 GHz WiFi network, as the camera only supports this frequency.
- The app will guide you through the pairing process, which may involve scanning a QR code displayed on your phone with the camera.

The WUUK app facilitates seamless integration with popular smart home ecosystems.

2. OPERATING THE CAMERA

2.1 Image Quality & Resolution

The WUUK Security Camera delivers high-definition video quality.

- **Resolution:** 4MP (2560x1440P) provides clearer images than standard 1080p or 2K cameras.
- **Frame Rate:** Records at 20 frames per second for smooth video capture.
- **Digital Zoom:** Features a 15x digital zoom to focus on details.

Experience superior clarity with 4MP QHD image quality, capturing every detail.

2.2 Night Vision & Spotlight

The camera ensures clear visibility even in low-light conditions.

- **Color Night Vision:** Captures full-color video at night, ensuring all details are visible.
- **Spotlight:** A motion-activated spotlight deters intruders and enhances night vision.
- **Night Vision Range:** Effective up to 33 feet.

The camera offers both color and black & white night vision modes for optimal clarity.

2.3 Storage Options

The WUUK Security Camera provides flexible and secure storage solutions without mandatory monthly fees.

- **Local Storage:** Supports Micro SD cards up to 256GB (not included) for continuous 24/7 recording or event-based recording.
- **Cloud Storage:** Optional cloud service is available for extended video history and off-site backup.

2 Storage Modes

Up to 256G   US Based

Choose between local SD card storage or optional cloud storage for your video recordings.

2.4 Motion Detection & Alerts

Stay informed with intelligent motion detection features.

- **Motion Detection:** The camera detects motion and can trigger the spotlight and alarm.
- **Customizable Detection Zones:** Define specific areas within the camera's view for motion detection to reduce false alerts.
- **Human Detection:** Advanced AI distinguishes human figures from other moving objects.
- **Instant Notifications:** Receive real-time alerts on your smartphone when motion is detected.

The camera's motion-activated spotlight and siren are designed to deter potential intruders.

2.5 Face Recognition

Enhance your security with personalized face recognition.

- The camera can recognize stored faces and send personalized greetings.

- All face profiles are encrypted and stored locally for privacy.
- If an unrecognized person is detected, the camera can sound an alarm.

The camera's face recognition feature allows it to identify familiar individuals and send specific alerts.

2.6 Two-Way Audio

Communicate directly through the camera.

- The built-in microphone and speaker allow for two-way communication.
- You can speak through the app and hear responses from the camera's location.
- Pre-set replies are available in the app for quick responses.

2.7 Smart Home Integration

Integrate your WUUK camera with your existing smart home ecosystem.

- Compatible with Amazon Alexa, Google Home, and IFTTT.
- Control camera functions and view live feeds through your preferred smart assistant.
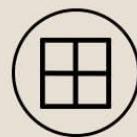

2.8 Multi-Camera View

Monitor multiple areas simultaneously with ease.

- The WUUK app allows you to view feeds from up to four cameras at once, providing comprehensive security coverage.

3. MAINTENANCE

3.1 Cleaning

To ensure optimal performance and longevity of your camera:

- Gently wipe the camera lens and body with a soft, dry cloth.
- Avoid using harsh chemicals or abrasive materials that could damage the device.

3.2 Firmware Updates

Keep your camera's software up-to-date for the best performance and security.

- Check for firmware updates regularly through the WUUK app.
- Follow the in-app instructions to download and install any available updates.

4. TROUBLESHOOTING

If you encounter issues with your WUUK Security Camera, try the following:

- **No Power:** Ensure the USB-C cable is securely connected to both the camera and the power adapter, and that the adapter is plugged into a working outlet.
- **Offline Status:** Check your 2.4 GHz WiFi network connection. Ensure the camera is within range of your router. Restart your router and the camera.
- **Poor Video Quality:** Verify your WiFi signal strength. If streaming quality is low, try adjusting the quality settings in the app from HD to SD if your network is slow.
- **Motion Detection Issues:** Check the detection zone settings in the app. Adjust sensitivity levels as needed. Ensure human detection is enabled if desired.
- **SD Card Not Recording:** Ensure the Micro SD card is properly inserted and formatted within the app. Check if the card has sufficient free space.
- **App Not Responding:** Close and reopen the WUUK app. If the issue persists, restart your smartphone.
