ATTACK SHARK 75% TKL with Rotary Knob

ATTACK SHARK Ajazz 75% Mechanical Keyboard

MODEL: 75% TKL WITH ROTARY KNOB

Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your ATTACK SHARK Ajazz 75% Mechanical Keyboard. Please read this manual thoroughly before using the product to ensure proper functionality and longevity.

Package Contents

Verify that all items are present in the package:

- ATTACK SHARK Ajazz 75% Mechanical Keyboard
- Keycap Puller
- USB Cable (Type-C to Type-A)
- User Manual (this document)

Product Overview

The ATTACK SHARK Ajazz 75% Mechanical Keyboard is designed for both gaming and everyday use, featuring a compact layout, hot-swappable switches, and customizable RGB backlighting.

Image: The ATTACK SHARK Ajazz 75% Mechanical Keyboard, showcasing its 82-key layout, rotary knob, gasket mount, PBT keycaps, RGB lighting, 75% layout, N-key rollover, and compatibility with Windows/Mac.

75% Layout

This keyboard features an 82-key 75% layout, which retains essential arrow and function keys while optimizing desk space. This compact design is ideal for users who require a balance between functionality and a smaller footprint.

Multi-Function Rotary Knob

MULTIMEDIA KNOB DESIGN

CNC Aluminum-metal Integrated Material

Image: A close-up view of the CNC aluminum-metal rotary knob, indicating its function to adjust volume by turning and mute/unmute by pressing.

The integrated metal rotary knob allows for independent control of volume levels. Turn the knob to adjust the volume (Min to Max) and press it to mute or unmute audio. This feature is compatible with both Mac and Windows operating systems.

RGB Backlighting

RGB BACKLIT

RGB 18+ EFFECTS

16.8million
South-facing RGB Leds

Turn ON/OFF RGB

Change RGB Modes

Image: The keyboard illuminated with various RGB backlighting effects, showing the FN key combinations for controlling lighting.

The keyboard features vibrant RGB backlighting with over 18 effects, 5 brightness levels, and 5 lighting speeds. The PBT keycaps are designed for high light transmittance, ensuring clear visibility of characters in backlit mode. The keyboard uses 16.8 million south-facing RGB LEDs.

Gasket Mounted Design

GASKET DESIGN

Multi Layer Noise Reduction Installation

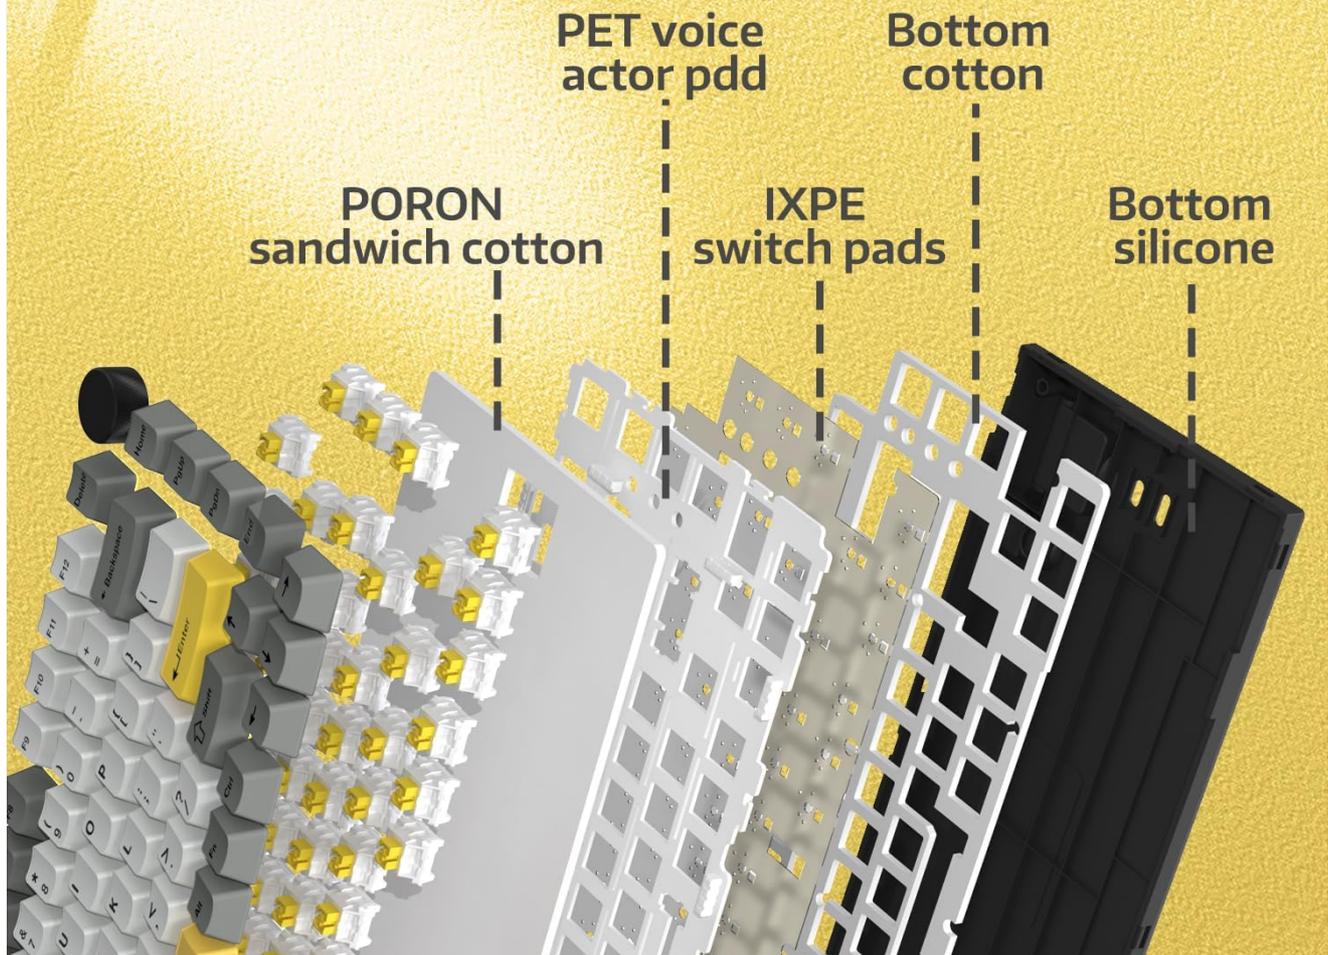

Image: An exploded view diagram detailing the internal layers of the gasket-mounted keyboard, including PET voice actor pdd, Poron sandwich cotton, IXPE switch pads, bottom cotton, and bottom silicone, designed for noise reduction.

The gasket-mounted design, coupled with a Flex-cut PC plate and five layers of sound insulation (Poron sandwich cotton, IXPE under-axis pad, PET premium sound pad, and bottom cotton/silicone), significantly reduces noise. The 1.2 mm PCB board slot and PC positioning board slot optimize resilience and stability, providing a softer and more elastic typing feel.

Hot-Swappable Switches

UPGRADED TTC HOT-SWAP SOCKET

Moon Yellow Switch

37g

Actuation
Force

3.5mm

Travel
Distacen

50M

Clicky
Lifespan

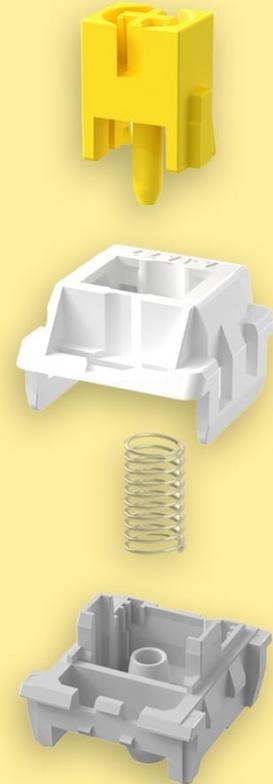

Image: A close-up of the keyboard's hot-swappable sockets with Moon Yellow Linear Switches installed, alongside a disassembled switch showing its components and specifications (37g actuation force, 3.5mm travel distance, 50M lifespan).

The high-quality PCB supports 3/5-pin hot-swappable switches, allowing you to easily change switches without soldering. The pre-lubed Moon Yellow Linear Switches offer a fast response, improved accuracy, and strong stability, effectively preventing false touches.

Durable PBT Keycaps

DURABLE PBT KEYCAPS

High Quality with Its Oil-resistant, Wear-resistant

Image: A close-up of the keyboard's PBT keycaps, highlighting their oil-resistant and wear-resistant properties.

The keyboard is equipped with durable PBT keycaps, known for their oil-resistant and wear-resistant properties. These keycaps maintain their texture and appearance over time, ensuring longevity and a consistent typing experience.

N-Key Rollover (NKRO)

82 KEYS ANTI-GHOSTING

Image: The keyboard with a visual representation of multiple keys being pressed simultaneously, demonstrating its 82-key anti-ghosting feature.

With N-key rollover (NKRO), the keyboard can accurately register simultaneous presses of multiple keys. This is crucial for fast typing, complex hotkey combinations, and intense gaming scenarios, preventing any missed inputs.

Setup

Connecting the Keyboard

1. Locate the USB-C port on the keyboard and the USB-A port on your computer.
2. Connect the USB-C end of the provided cable to the keyboard.
3. Connect the USB-A end of the cable to an available USB port on your computer.
4. The keyboard is plug-and-play and should be recognized automatically by your operating system.

Compatibility

Image: The keyboard shown connected and compatible with both Apple Mac and Microsoft Windows operating systems.

The keyboard is compatible with both Windows and Mac operating systems. No additional drivers are typically required for basic functionality.

Operating Instructions

Basic Key Functions

- **Standard Typing:** Use the alphanumeric keys for text input.
- **Function Keys (F1-F12):** Access these keys directly.
- **Arrow Keys:** Located on the bottom right for navigation.
- **Home/PgUp/PgDn/End:** Dedicated keys for navigation.

Multimedia Knob Usage

- **Turn Knob:** Adjusts system volume up or down.
- **Press Knob:** Toggles mute/unmute for system audio.

RGB Lighting Control

- **FN + | (Backslash key):** Cycles through 20 different lighting effects.
- **FN + X:** Toggles RGB backlighting ON/OFF.
- **FN + Arrow Up/Down:** Adjusts brightness levels (5 levels).
- **FN + Arrow Left/Right:** Adjusts lighting speed (5 speeds).
- **FN + 1! / 2@ / 3#:** Customizes 3 sets of gaming lighting effects. Press FN + (1, 2, or 3) to enter custom recording mode, select keys to light up, then press FN + (1, 2, or 3) again to save.

Maintenance

Cleaning the Keyboard

- Disconnect the keyboard from your computer before cleaning.
- Use a soft brush or compressed air to remove dust and debris from between the keycaps.
- For stubborn dirt, gently wipe the keycaps and surface with a slightly damp, lint-free cloth. Avoid excessive moisture.
- Do not use harsh chemicals or abrasive cleaners.

Replacing Switches and Keycaps

- Use the provided keycap puller to carefully remove keycaps by gripping them firmly and pulling straight up.
- Use a switch puller (not included, but often comes with replacement switches) to remove switches. Gently press the clips on the top and bottom of the switch and pull straight up.
- When inserting new switches, ensure the pins are straight and align with the hot-swap sockets. Press down gently until the switch clicks into place.
- Place new keycaps onto the switch stems and press down firmly.

Troubleshooting

- **Keyboard Not Responding:**
 1. Ensure the USB cable is securely connected to both the keyboard and the computer.
 2. Try connecting the keyboard to a different USB port on your computer.
 3. Test the keyboard on another computer to rule out system-specific issues.
 4. Restart your computer.
- **RGB Lights Not Working:**
 1. Ensure the RGB is not turned off (press FN + X).
 2. Check brightness levels (press FN + Arrow Up).
 3. If specific keys are not lighting up, ensure the switches are properly seated in their sockets.
- **Keys Not Registering:**
 1. Remove the keycap and switch for the affected key.
 2. Inspect the hot-swap socket for any debris or bent pins.
 3. Reinsert the switch, ensuring it is fully seated. If the issue persists, try a different switch in that socket or test the problematic switch in another socket.
- **Multimedia Knob Not Functioning:**
 1. Ensure the keyboard is properly connected.
 2. Check if other keyboard functions are working. If not, refer to 'Keyboard Not Responding'.

Specifications

Feature	Specification
Brand	ATTACK SHARK
Model Number	769310904902
Layout	75% (82 Keys)
Connectivity	Wired (USB-C)
Switches	Hot-Swappable (3/5-pin), Moon Yellow Linear Switch
Keycaps	PBT
Backlighting	RGB (18+ effects, 5 brightness, 5 speed)
Special Features	Gasket Mount, Rotary Knob, N-Key Rollover, Ergonomic
Compatible Devices	Laptop, PC
Product Dimensions	12.87 x 5.35 x 1.57 inches

Item Weight	2.07 pounds
