## RASTAR 39000

# RASTAR 39000 1/24 Lamborghini RC Car Instruction Manual

Model: 39000

## INTRODUCTION

This manual provides essential instructions for the safe operation, setup, and maintenance of your RASTAR 39000 1/24 scale Lamborghini remote control car. Please read this manual thoroughly before use to ensure proper function and longevity of the product.

## SAFETY INFORMATION

- **Age Recommendation:** This product is recommended for users aged 6 years and up.
- **Battery Safety:**
  - Do not mix old and new batteries.
  - Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
  - Insert batteries with correct polarity (+ and -).
  - Remove exhausted batteries from the product.
  - Remove batteries if the product is not used for an extended period.
  - Non-rechargeable batteries are not to be recharged.
  - Rechargeable batteries are only to be charged under adult supervision.
  - Only batteries of the same or equivalent type as recommended are to be used.
- **Operating Environment:** Operate the RC car on flat, dry surfaces. Avoid water, sand, or rough terrain to prevent damage.
- **Supervision:** Adult supervision is recommended, especially for younger users.
- **Choking Hazard:** This product contains small parts and is not suitable for children under 3 years due to choking hazards.

## PACKAGE CONTENTS

Upon opening the package, please verify that all components are present and undamaged:

- 1 x RASTAR 1/24 Lamborghini RC Car (Model 39000)
- 1 x Remote Controller
- 1 x Instruction Manual

**Note:** 5 AA batteries are required for operation (3 for the car, 2 for the controller) and are not included in the box.

## SETUP GUIDE

### 1. Battery Installation for the RC Car

1. Locate the battery compartment on the underside of the RC car.
2. Use a screwdriver to open the battery compartment cover.
3. Insert 3 AA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the battery compartment cover and secure it with the screw.

### 2. Battery Installation for the Remote Controller

1. Locate the battery compartment on the back of the remote controller.
2. Use a screwdriver to open the battery compartment cover.
3. Insert 2 AA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the battery compartment cover and secure it with the screw.

### 3. Pairing the Car and Remote

Once batteries are installed in both the car and the remote, turn on the car's power switch (usually on the underside). Then, turn on the remote control. The car and remote should automatically pair. If not, turn both off and on again.

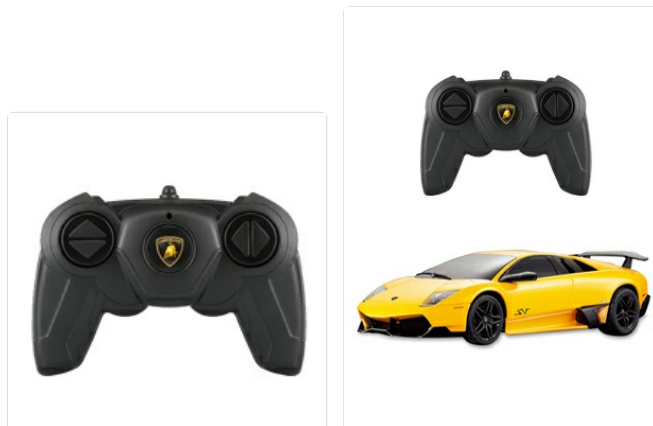

Image: Left: A detailed view of the remote control. Right: The RC car and remote control together, illustrating the components requiring battery installation.

## OPERATING INSTRUCTIONS

Familiarize yourself with the remote control functions before operating the vehicle.

### Remote Control Functions:

- **Forward/Reverse:** Use the left joystick (or designated button) to move the car forward or backward.
- **Turn Left/Right:** Use the right joystick (or designated button) to steer the car left or right.
- **Stop:** Release the joysticks to bring the car to a stop.

The RASTAR 39000 operates at a low speed of approximately 4 MPH, making it suitable for both indoor and outdoor play on smooth surfaces.

# RECOMMEND

Image: A user's hands demonstrating the operation of the remote control, with the Lamborghini RC car visible in the background on a simulated race track.

## Steering Trim Adjustment:

If the car does not drive straight when the steering control is centered, locate the steering trim adjustment switch on the underside of the car (or on the remote, if applicable). Adjust it incrementally until the car maintains a straight path.

Image: A close-up view of the steering trim adjustment dial, typically found on the chassis of the RC car, used to fine-tune straight-line driving.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the car and remote control. Avoid using water or chemical cleaners, as these can damage electronic components.
- **Storage:** When not in use, store the RC car and remote in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Removal:** Always remove batteries from both the car and the remote control if they will not be used for an extended period to prevent leakage and damage.
- **Inspection:** Periodically check for loose screws, damaged parts, or worn tires. Replace any damaged components as necessary.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Car does not move or responds intermittently.	<ul style="list-style-type: none"><li>• Low or dead batteries in car or remote.</li><li>• Incorrect battery polarity.</li><li>• Car and remote not paired.</li><li>• Interference from other RC devices.</li></ul>	<ul style="list-style-type: none"><li>• Replace all batteries with fresh ones, ensuring correct polarity.</li><li>• Turn both car and remote off, then on again to re-establish connection.</li><li>• Move to an area with less interference.</li></ul>
Car does not drive straight.	Steering trim is misaligned.	Adjust the steering trim switch on the underside of the car until it drives straight.
Short control range.	<ul style="list-style-type: none"><li>• Low batteries in remote.</li><li>• Environmental interference.</li></ul>	<ul style="list-style-type: none"><li>• Replace remote batteries.</li><li>• Operate in an open area away from obstacles or other electronic devices.</li></ul>

## SPECIFICATIONS

- **Brand:** RASTAR
- **Model:** 39000
- **Scale:** 1:24
- **Product Dimensions:** 7.72 x 3.62 x 1.97 inches (Length x Width x Height)
- **Item Weight:** 15.2 ounces
- **Power Source (Car):** 3 x AA batteries (not included)
- **Power Source (Remote):** 2 x AA batteries (not included)
- **Recommended Age:** 6 years and up
- **Functions:** Forward, Reverse, Turn Left, Turn Right, Stop
- **Speed:** Approximately 4 MPH (low speed)
- **Official Licensing:** Officially licensed by Lamborghini
