

COMFYGO Z-4

COMFYGO Z-4 Electric Mobility Scooter User Manual

Model: Z-4

1. INTRODUCTION

This manual provides essential information for the safe operation, assembly, maintenance, and troubleshooting of your COMFYGO Z-4 Electric Mobility Scooter. Please read this manual thoroughly before using the scooter to ensure proper function and safety.

Image: The COMFYGO Z-4 Electric Mobility Scooter, highlighting its 350 lbs load capacity and 3-year frame warranty.

2. SAFETY INFORMATION

The COMFYGO Z-4 scooter is designed with user safety in mind. Adhere to the following guidelines to prevent injury or damage.

- Always operate the scooter on stable, level surfaces.
- Ensure all components are securely fastened before each use.
- The scooter features anti-roll technology for enhanced stability.
- Front and rear brake lights are integrated to improve visibility and safety during operation.
- A speed control device is included to regulate maximum speed, which is set to a maximum of 5 mph.
- Do not exceed the maximum weight capacity of 350 lbs.

PRECISION IN EVERY DIMENSION

Compact, Powerful, Defined by Design

Image: Overview of Z-4 features including speed control and anti-roll technology.

3. PACKAGE CONTENTS

Upon unpacking, verify that all the following components are present:

- Main Frame (approx. 30 lbs)
- Rear Frame (approx. 26 lbs)
- Tiller Bar (approx. 8.5 lbs)
- Lithium-Ion Battery (approx. 8 lbs)
- Super Seat (approx. 17 lbs)
- Front Basket (approx. 2.5 lbs)
- Assembly Manual/Guide
- Charger

4. SETUP AND ASSEMBLY

The Z-4 Electric Mobility Scooter features a detachable frame for ease of transport and storage. Follow these steps for assembly:

1. **Secure the Main Frame:** Place the main frame on a stable surface.
2. **Connect the Rear Frame:** Attach the rear frame to the main frame at its designated connection points.
3. **Lower the Tiller Bar:** Insert the tiller bar into its mounting points and secure it.
4. **Insert Battery:** Place the lithium-ion battery into its compartment.
5. **Install Super Seat:** Mount the super seat onto the main frame.
6. **Attach Basket:** Secure the lightweight front basket to the tiller bar.

5. OPERATING INSTRUCTIONS

5.1 Controls

The scooter is operated via controls located on the tiller bar. Familiarize yourself with the throttle, brake levers, and speed adjustment dial before operating.

5.2 Driving

To move forward, gently engage the throttle. Release the throttle to slow down, and use the brake levers for immediate stopping. The scooter has a maximum speed of 5 mph and can handle inclines up to 12 degrees.

5.3 Travel Considerations

The Z-4 scooter is designed for convenient travel. Its foldable and detachable sections allow it to fit into most standard car trunks. The 12AH battery version is authorized for airline and cruise travel. Always confirm specific travel regulations with your airline or cruise line prior to travel.

EFFORTLESS TRAVEL

From Airports to City Streets

AIRLINE APPROVED

CRUISE APPROVED

STANDARD CAR TRUNK FIT

*Acceptable on cruises and airlines with up to 12AH battery version.

Image: The Z-4 scooter demonstrating its suitability for various travel methods, including airline, cruise, and car trunk transport.

6. BATTERY INFORMATION

The Z-4 scooter is powered by a lithium-ion battery. Two battery options are available, offering different ranges:

- **12 AH Battery:** Provides a range of up to 13 miles, suitable for standard usage and shorter trips.
- **30 AH Battery:** Provides a range of up to 30 miles, suitable for longer trips and increased usage between charges.

6.1 Charging the Battery

Connect the charger to the scooter's charging port and then to a standard electrical outlet. The charging indicator light will show the charging status. Disconnect the charger once the battery is fully charged. Avoid overcharging.

POWER YOUR ADVENTURE

Choose Your Range With Different Battery Options

12 AH BATTERY LITHIUM-ION	30 AH BATTERY LITHIUM-ION
  Up to 13 miles*  Suitable for standard usage and shorter trips.	  Up to 30 miles*  Suitable for long trips and increased usage between charges.

Image: Comparison of the 12 AH and 30 AH lithium-ion battery options and their respective ranges.

7. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your scooter.

- **Cleaning:** Wipe down the scooter with a damp cloth. Avoid using abrasive cleaners or direct water spray.
- **Battery Care:** Store the battery in a cool, dry place. Charge the battery regularly, even if the scooter is not in frequent use, to maintain its health.
- **Tire Pressure:** Periodically check tire pressure and inflate to the recommended levels.
- **Inspections:** Regularly inspect all nuts, bolts, and connections for tightness.

8. TROUBLESHOOTING

If you encounter issues with your Z-4 scooter, refer to the following common problems and solutions:

- **Scooter does not power on:** Ensure the battery is properly installed and charged. Check all electrical connections.
- **Reduced range:** The battery may not be fully charged, or its capacity may be diminishing over time. Ensure proper charging cycles.
- **Unusual noises:** Inspect for loose components or obstructions in the wheels or motor area.
- **Difficulty steering:** Check tire pressure and ensure the tiller bar is securely fastened.

For persistent issues, contact customer support.

9. SPECIFICATIONS

Feature	Detail
