Operating Instructions

This platform bed is designed to support a mattress directly on its wooden slats, eliminating the need for a box spring.

- **Mattress Placement:** Place your mattress directly onto the wooden slats. The recommended mattress thickness is 6 inches.
- **Weight Distribution:** Distribute weight evenly across the bed surface. Avoid concentrating heavy loads in one area.
- **Intended Use:** This bed is intended for sleeping and resting purposes only.

Maintenance and Care

Proper care will extend the life and appearance of your P PURLOVE platform bed.

- **Cleaning the Fabric:** For general cleaning, gently vacuum the teddy fleece fabric with an upholstery attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first. Do not rub vigorously.
- **Avoid Harsh Chemicals:** Do not use harsh detergents, abrasive cleaners, or solvents, as these can damage the fabric and finish.
- **Frame Care:** Wipe the wooden or metal components with a soft, damp cloth. Avoid excessive moisture.
- **Regular Checks:** Periodically check all bolts and screws to ensure they are tight. Retighten if necessary to maintain stability.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading of the fabric.

Troubleshooting

If you encounter any issues with your bed frame, refer to the following common solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose connections or uneven floor.	Ensure all bolts and screws are securely tightened. If the floor is uneven, consider using furniture glides or shims under the legs.
Squeaking noises	Loose connections, friction between parts, or mattress movement.	Retighten all hardware. Apply a small amount of lubricant (e.g., silicone spray) to contact points if necessary. Ensure the mattress is properly seated.
Slats falling out or shifting	Improper installation or excessive force.	Re-position slats correctly and ensure they are secured as per the assembly manual. Avoid jumping on the bed.
