Hetoy ride on car G

Hetoy 24V Ride On Truck Instruction Manual

Model: ride on car G

Product Overview

The Hetoy 24V Ride On Truck is an electric UTV vehicle designed for children aged 3-8 years. It features a two-seater design, powerful motors, and various functionalities for an engaging and safe driving experience. This manual provides essential information for setup, operation, maintenance, and troubleshooting.

Setup

Assembly is required before first use. Please follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Refer to the "What's in the Box" section to confirm all parts are present.
2. **Install Handrails and Steering Mechanism:** Attach the handrails to the designated slots on the vehicle's chassis. Ensure the steering mechanism is correctly oriented (facing forward) and securely fastened.
3. **Attach Wheels and Motors:** Install the wheels onto their respective axles. The rear wheels are connected to the motors; ensure correct left (L) and right (R) motor placement as indicated. The 4-wheel drive system ensures robust performance.
4. **Connect Electrical Components:** Connect all electrical wires according to the color-coded system. Ensure all connections are secure to prevent power interruptions.
5. **Secure Battery and Seat:** Place the 24V 7AH battery securely in its compartment. The battery compartment is designed to prevent children from accessing the electrical components. Install the seat over the battery compartment, ensuring it is firmly attached.
6. **Initial Charge:** Before the first use, fully charge the vehicle's battery for 8-12 hours. The charging port is located conveniently for easy access.

Operating Instructions

The Hetoy 24V Ride On Truck offers both manual and remote control operation modes.

Manual Operation (for children):

- **Start/Stop:** Press the "Start/Stop" button on the multi-function control console to power on/off the vehicle.
- **Acceleration:** Press the foot pedal to accelerate. Release the pedal to slow down.
- **Steering:** Use the steering wheel to control the direction of the vehicle.
- **Speed Selection:** Children can select between high/low speed settings on the console.
- **Music and Lights:** The console includes controls for built-in music, USB/AUX input for external music, and LED headlights for enhanced visibility and fun.

Remote Control Operation (for parents):

The remote control allows parents to safely supervise and control the vehicle, especially for younger children.

- **Pairing:** Follow the remote control's specific instructions for pairing with the vehicle.
- **Directional Control:** Use the joystick or directional buttons to move the vehicle forward, backward, left, and right.
- **Emergency Brake:** The remote control features an emergency brake button, allowing immediate stopping of the vehicle for safety.
- **Speed Adjustment:** Adjust the vehicle's speed settings directly from the remote control.

Maintenance

Regular maintenance ensures the longevity and safe operation of your Hetoy 24V Ride On Truck.

- **Battery Care:**
  - Always fully charge the battery after each use.
  - If storing for extended periods, charge the battery once a month to maintain its life.
  - Do not overcharge the battery (do not exceed 12 hours).
- **Cleaning:** Wipe the vehicle with a damp cloth. Avoid using harsh chemicals or abrasive cleaners. Do not spray water directly onto electrical components.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight and moisture.
- **Inspection:** Periodically check all screws, nuts, and electrical connections to ensure they are tight and secure. Inspect tires for wear and tear.

Troubleshooting

If you encounter any issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vehicle does not move	Low battery; Loose electrical connection; Overload	Charge battery fully; Check all connections; Reduce weight on vehicle
Vehicle moves slowly	Low battery; Overload; Driving on uneven terrain	Charge battery fully; Reduce weight; Drive on smoother surfaces
Remote control not working	Remote battery low; Not paired correctly	Replace remote batteries; Re-pair remote control with vehicle
No sound/lights	Loose connection; Feature not activated	Check wiring to speakers/lights; Ensure buttons are pressed for activation
