Lapcare LLP-006

Lapcare Laplay LLP-006 Projector User Manual

Model: LLP-006 | Brand: Lapcare

1. INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your Lapcare Laplay LLP-006 Projector. Please read this manual thoroughly before using the product and retain it for future reference.

The Lapcare Laplay LLP-006 is an 85W LED projector featuring 6500 lumens brightness, 1920x1080 Full HD native resolution with 4K support, auto-focus, dual-band WiFi (2.5GHz+5GHz), a quad-core processor, and built-in 5W x 2 speakers. Its dust-proof design and LED lamp ensure long-lasting performance.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- Lapcare Laplay LLP-006 Projector
- Remote Control
- Power Adapter (not explicitly listed but implied)
- User Manual (this document)

Figure 2: The projector features an easy carry-on handle for portability.

3. SETUP INSTRUCTIONS

3.1 Placement

Place the projector on a stable, flat surface. Ensure adequate ventilation around the device. For optimal viewing, position the projector between 1.5 to 5 meters from the projection surface to achieve screen sizes up to 200 inches. The projector can also be ceiling-mounted.

Figure 3: Projection distances and corresponding screen sizes.

3.2 Power Connection

1. Connect the power adapter to the DC IN port on the projector.
2. Plug the power adapter into a suitable electrical outlet.
3. Press the power button on the projector or remote control to turn on the device.

3.3 Connectivity

The projector offers multiple connectivity options:

- **HDMI 1.4 Input:** Connect external devices like laptops, gaming consoles, or Blu-ray players.
- **USB 2.0 Type-A:** For media playback from USB drives.
- **Audio Output Port:** Connect external speakers or headphones.
- **Dual Band WiFi (2.5GHz + 5GHz):** For wireless network connectivity and streaming.
- **Bluetooth V5.0:** For wireless audio connections.

Recommended Uses	Business, Education, Home
Display Resolution	1920 x 1080 (Native)
Maximum Display Resolution	1920 x 1080 Pixels (4K Supported)
Display Type	LED
Lumens	6500 lumen
Contrast Ratio	5000:1
Light Source Operating Life	50000 Hours
Wattage	85 Watts
Form Factor	Portable
Mounting Type	Ceiling Mount
Minimum Throw Distance	1.5 Metres
Maximum Throw Distance	5 Metres
Item Weight	2500 Grams
Item Dimensions L x W x H	5L x 5W x 8H Centimeters

6. MAINTENANCE

To ensure the longevity and optimal performance of your projector, follow these maintenance guidelines:

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. Avoid abrasive materials or harsh chemicals.
- **Dust Prevention:** The projector features a 4" LCD fully-sealed optical engine to prevent dust entry. However, regularly clean the exterior with a soft, dry cloth.
- **Ventilation:** Ensure the ventilation ports are clear of obstructions to prevent overheating.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, protected from dust and direct sunlight.

7. TROUBLESHOOTING

If you encounter issues with your projector, refer to the following common solutions:

- **No Power:**
 - Ensure the power cable is securely connected to both the projector and the power outlet.
 - Verify the power outlet is functional.
- **No Image:**
 - Check if the correct input source (HDMI, USB) is selected.
 - Ensure the connected device is powered on and sending a signal.
 - Verify the lens cap is removed.
- **Blurry Image:**
 - Allow the auto-focus feature to adjust. If needed, manually adjust focus using the remote control.
 - Ensure the projection surface is flat and the projector is stable.
- **No Sound:**
 - Check the volume settings on both the projector and the connected source device.
 - Ensure external speakers or headphones are properly connected or Bluetooth is paired correctly.
- **Remote Control Not Working:**
 - Check and replace the batteries in the remote control.
 - Ensure there are no obstructions between the remote and the projector's IR receiver.
