comeic M8white

Portable Dual Mode Bluetooth Wireless Mouse User Manual

Model: M8white | Brand: comeic

INTRODUCTION

Thank you for choosing the comeic Portable Dual Mode Bluetooth Wireless Mouse. This mouse is designed for versatility and convenience, offering both Bluetooth and 2.4G wireless connectivity. It features a durable metal scroll wheel, silent click buttons, and adjustable DPI settings for precise control. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance.

WHAT'S IN THE BOX

- 1 x comeic Portable Dual Mode Bluetooth Wireless Mouse
- 1 x USB Receiver (stored inside the mouse)
- 1 x USB-C Charging Cable
- 1 x USB-A to USB-C Adapter (for charging or connecting the receiver)
- User Manual (this document)

SETUP INSTRUCTIONS

Charging the Mouse

The mouse comes with a built-in lithium-ion battery. Before first use, or if the mouse is not responding, please charge it fully. A full charge typically takes 2-4 hours and provides approximately 3-4 weeks of usage.

1. Locate the USB-C charging port on the front of the mouse.
2. Connect the provided USB-C charging cable to the mouse and a USB power source (e.g., computer USB port, wall adapter).

3. The indicator light will show charging status (refer to LED indicator section for details).

Connecting via 2.4G Wireless Mode

This mode uses the included USB receiver for a stable wireless connection.

1. Open the magnetic top cover of the mouse to access the USB receiver.
2. Remove the USB receiver from its storage slot.
3. Plug the USB receiver into an available USB port on your computer or device.
4. Locate the switch on the underside of the mouse and slide it to the "2.4G" position.
5. The mouse should automatically connect to your device.

Connecting via Bluetooth Mode

The mouse supports Bluetooth 5.0/3.0 for easy pairing with compatible devices.

1. Locate the switch on the underside of the mouse and slide it to the "BT" position.
2. Press and hold the DPI button (usually located near the scroll wheel or on the underside) for 2 seconds until the blue light on the mouse flashes, indicating it is in pairing mode.
3. On your device (laptop, tablet, phone), go to Bluetooth settings and ensure Bluetooth is enabled.
4. Search for available devices. The mouse should appear as "BT5.2 Mouse" or "BT3.0 Mouse".

5. Select the mouse to pair and connect. Once connected, the blue light will stop flashing and remain solid or turn off.

Your browser does not support the video tag.

Video: A demonstration of connecting the comeic mouse via Bluetooth to various devices, including Android phones, iPhones, iPads, and laptops.

Note: If you experience connection issues, try disconnecting other Bluetooth devices before attempting to pair the mouse. For iOS devices, ensure your iOS version is 13.1.2 or later.

OPERATING THE MOUSE

Adjusting DPI (Sensitivity)

The mouse features 3 adjustable DPI settings (800/1200/1600) to suit your preference for cursor speed and precision.

- To change the DPI, simply press the DPI button (usually located on the underside or near the scroll wheel).
- Each press will cycle through the available DPI settings.

Silent Click Feature

The mouse is designed with silent click buttons, reducing noise by up to 90% compared to traditional mice, making it ideal for quiet environments.

Multi-Device Usage

Thanks to its dual-mode connectivity, you can easily switch between devices connected via Bluetooth and 2.4G wireless.

- To switch between Bluetooth and 2.4G mode, simply slide the switch on the underside of the mouse to the desired position ("BT" or "2.4G").
- This allows seamless transition between, for example, a tablet connected via Bluetooth and a laptop connected via 2.4G wireless.

MAINTENANCE

Battery Care

- The mouse has a built-in rechargeable lithium-ion battery.
- Charge the mouse when the indicator light signals low battery or when performance degrades.
- Avoid prolonged exposure to extreme temperatures, which can affect battery life.
- If the mouse enters sleep mode after five minutes, ensure power-saving mode is not enabled on your device, or allow the device to wake up the mouse.

Cleaning

- Use a soft, dry cloth to clean the mouse surface.
- For stubborn dirt, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive cleaners.

Storage

- When not in use for extended periods, turn off the mouse to conserve battery life.
- Store the USB receiver inside the mouse's magnetic compartment to prevent loss.

TROUBLESHOOTING

Mouse Not Responding

- **Check Battery:** Ensure the mouse is charged. Connect it to a power source using the USB-C cable.

- **Power Switch:** Verify the mouse is turned ON and the mode switch is set correctly (BT or 2.4G).
- **USB Receiver (2.4G Mode):** Ensure the USB receiver is securely plugged into a working USB port on your device. Try a different USB port.
- **Bluetooth Connection:**
 - Make sure Bluetooth is enabled on your device.
 - Re-enter pairing mode on the mouse by holding the DPI button for 2 seconds until the blue light flashes.
 - Forget the device in your Bluetooth settings and attempt to re-pair.
 - Ensure no other Bluetooth devices are interfering with the connection.

Cursor Movement is Erratic or Slow

- **Surface:** Use the mouse on a clean, non-reflective, and uniform surface. A mouse pad is recommended.
- **DPI Setting:** Adjust the DPI setting by pressing the DPI button to find a suitable speed.
- **Interference:** Move the mouse closer to the USB receiver (for 2.4G) or the Bluetooth-enabled device to minimize interference.

Mouse Enters Sleep Mode Too Quickly

- The mouse has an automatic sleep function to conserve power. To wake it up, simply click any button or move the mouse.
- If it requires re-connection every time it wakes, ensure your device's power-saving settings are not configured to disconnect Bluetooth devices during sleep. Allow the device to wake up the mouse.

SPECIFICATIONS

Brand	comeic
Model Number	M8white
Connectivity Technology	Bluetooth 5.0/3.0, 2.4G Hz Wireless USB
Movement Detection Technology	Optical
Adjustable DPI	800/1200/1600
Special Features	Portable, Metal Wheel scroller, Dual mode Wireless, Soundless, Rechargeable
Battery	1 Lithium Ion battery (included)
Item Weight	0.068 ounces
Package Dimensions	5.2 x 3.03 x 1.42 inches
Country of Origin	China
