

SUPVAN T50M Pro/T50M Plus Label Tapes (φ 30 mm, White)

SUPVAN KATASYMBOL T50M Pro/T50M Plus Label Tapes User Manual

Model: T50M Pro/T50M Plus Label Tapes (φ 30 mm, White)

1. INTRODUCTION

Thank you for choosing SUPVAN KATASYMBOL Label Tapes. These high-quality thermal labels are designed to work seamlessly with your SUPVAN T50M Pro and T50M Plus label makers, providing durable and versatile labeling solutions for various applications. This manual will guide you through the features, setup, operation, and maintenance of your label tapes.

2. SAFETY INFORMATION

While SUPVAN label tapes are designed for general use and meet baby product standards, please observe the following safety guidelines:

- Keep out of reach of small children to prevent accidental ingestion.
- Do not expose labels to extreme heat or open flames.
- Ensure proper ventilation when using the label maker in conjunction with the tapes.
- Avoid direct contact with the adhesive side for prolonged periods if you have sensitive skin.

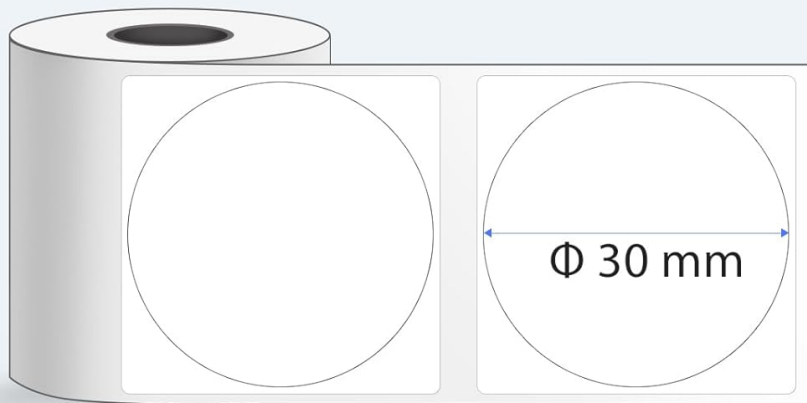

3. PRODUCT OVERVIEW

SUPVAN KATASYMBOL Label Tapes are engineered for superior performance and durability. Key features include:

- **Compatibility:** Specifically designed for SUPVAN T50M Pro and T50M Plus label makers.
- **Dimensions:** ϕ 30 mm, with 220 pieces per roll.
- **Durability:** Multi-layer synthetic material ensures a lifespan of over 5 years.
- **Resistance:** Waterproof, oil-proof, and resistant to high and low temperatures.
- **Adhesion:** Features strong adhesive for reliable attachment.
- **Thermal Printing:** Utilizes thermal technology, requiring no ink or toner, which saves costs and ensures clear prints.
- **Safety:** BPA-free, suitable for various applications including those involving food and baby products.

4. SETUP

To begin using your SUPVAN label tapes, follow these steps:

1. **Install the Label Tape:** Open the cover of your SUPVAN T50M Pro or T50M Plus label maker. Carefully insert the label tape roll into the designated slot, ensuring the label feeds correctly through the printer mechanism. Close the cover securely.
2. **Download the App:** Download the "Katasymbol" application from your device's app store (available for iOS and Android).
3. **Connect to Printer:** Turn on your label maker. Open the Katasymbol app and follow the on-screen instructions to connect your device to the label maker via Bluetooth.

5. OPERATING INSTRUCTIONS

The Katasymbol app makes designing and printing labels intuitive:

1. **Automatic Recognition:** The Katasymbol app will automatically identify the type and size of the label tape you have installed. **Important Note:** Do not remove the small sticker on the back of the label tape roll. This sticker contains a smart chip that the app needs to identify the label type and size correctly.
2. **Design Your Label:** Use the app's extensive features to create your desired label. You can choose from over 150 templates, select from more than 40 fonts, and add from over 700 icons to personalize your labels.
3. **Print:** Once your design is complete, send the print command from the app to your label maker. The thermal printing technology will quickly produce clear and crisp labels.

6. APPLICATIONS

SUPVAN KATASYMBOL label tapes are incredibly versatile and can be used in a multitude of settings:

- **Home Organization:** Label spice jars, food containers, storage boxes, and organize cables.
- **Office Use:** Create labels for files, folders, office supplies, and equipment.
- **School & Study:** Label books, notebooks, and school supplies.
- **Retail & Business:** Generate price tags, barcodes, QR codes, product information labels, and address labels for shipping.
- **Personalization:** Design custom labels for gifts, crafts, and personal items.

7. MAINTENANCE

To ensure the longevity and optimal performance of your SUPVAN label tapes:

- **Storage:** Store unused label rolls in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid touching the adhesive side of the labels unnecessarily to maintain stickiness.
- **Printer Maintenance:** Regularly clean the print head of your SUPVAN label maker as per its instruction manual to ensure clear and consistent print quality.

8. TROUBLESHOOTING

If you encounter any issues with your label tapes, consider the following:

- **App Not Recognizing Label:** Ensure that the small sticker with the smart chip on the back of the label roll has not been removed. This sticker is crucial for the Katasymbol app to identify the label type and size.
- **Poor Print Quality:** Check if the label tape is correctly installed and aligned in the printer. Ensure the printer's print head is clean.
- **Labels Not Sticking:** Ensure the surface you are applying the label to is clean, dry, and smooth. Avoid applying labels to textured or oily surfaces.
- **Labels Difficult to Remove:** While designed for easy removal, some surfaces or prolonged adhesion might make removal challenging. For best results, peel slowly from one corner.
