## weelye SD24C288080E

# weelye 28.8V 800mA Kids Ride On Car Charger Instruction Manual

Model: SD24C288080E

## 1. INTRODUCTION

---

This manual provides essential instructions for the safe and effective use of your weelye 28.8V 800mA Charger, model SD24C288080E. This charger is designed specifically for 24V children's electric ride-on car batteries. Please read this manual thoroughly before use and retain it for future reference.

Image 1: The weelye 28.8V 800mA Kids Ride On Car Charger. This image shows the charger unit with its attached power cord and round hole connector, ready for use.

## 2. SAFETY INFORMATION

---

- **Indoor Use Only:** This charger is designed for indoor use. Do not expose it to rain, moisture, or extreme temperatures.
- **Voltage Compatibility:** Ensure the charger's output voltage (28.8V DC) and current (800mA) match the requirements of your 24V ride-on car battery. **This charger is NOT for 6V or 12V systems.**
- **Connector Type:** Verify that the charger's round hole connector (OD/ID: 5.5/2.5mm) is compatible with your ride-on car's charging port.
- **Adult Supervision:** Charging should always be performed under adult supervision.
- **Inspect Before Use:** Before each use, inspect the charger, cord, and connector for any signs of damage. Do not use if damaged.
- **Ventilation:** Ensure adequate ventilation around the charger during operation to prevent overheating.
- **Unplug When Not In Use:** Disconnect the charger from the power outlet and the ride-on car when not in use.

## 3. SETUP

---

1. **Unpack the Charger:** Carefully remove the charger from its packaging.
2. **Inspect for Damage:** Before connecting, visually inspect the charger unit, power cord, and the round hole connector for any physical damage. If any damage is observed, do not proceed with use.
3. **Prepare the Ride-On Car:** Ensure the ride-on car is turned off and in a safe, stable location. Locate the charging port on the ride-on car.
4. **Connect to Ride-On Car:** Insert the round hole connector of the charger firmly into the charging port of the 24V electric ride-on car.
5. **Connect to Power Outlet:** Plug the charger's AC input plug into a standard 100-240VAC 50/60Hz wall outlet.

Image 2: Rear view of the weelye charger showing the specification label. This label details the model number (SD24C288080E), input voltage (100-240VAC), and output (28.8VDC 800mA), along with safety certifications.

## 4. OPERATING INSTRUCTIONS

---

Once the charger is properly connected to both the ride-on car and the power outlet, the charging process will begin automatically.

### Charging Indicator Light:

- **Red Light:** Indicates that the battery is currently charging.
- **Green Light:** Indicates that the battery is fully charged.

Allow the battery to charge until the indicator light turns green. Once fully charged, disconnect the charger from the wall outlet first, then from the ride-on car.

Image 3: Top view of the weelye charger showing the LED indicator light. This light changes color to indicate the charging status of the battery.

## 5. MAINTENANCE

---

- **Cleaning:** Clean the charger with a dry, soft cloth. Do not use liquid cleaners or solvents.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and moisture when not in use.
- **Cord Care:** Avoid bending or crimping the power cord excessively. Do not wrap the cord tightly around the charger.

## 6. TROUBLESHOOTING

---

If the ride-on car is not charging or the charger indicator light does not behave as expected, consider the following:

- **No Indicator Light / Not Charging:**
  - Ensure the charger is securely plugged into both the wall outlet and the ride-on car's charging

port.

- Check if the wall outlet is functional by plugging in another device.
- Inspect the charger's cord and connector for any visible damage.

- **Ride-On Car Not Working After Charging:**

- Verify that the ride-on car itself is functioning properly (e.g., check its power switch, internal wiring).
- Check the ride-on car's battery for damage or if the battery cable is properly connected. A damaged battery may not accept a charge.

- **Charger Overheating:**

- Disconnect the charger immediately.
- Ensure the charger is in a well-ventilated area and not covered.
- If overheating persists, discontinue use and contact support.

## 7. SPECIFICATIONS

---

Feature	Detail
Model	SD24C288080E
AC Input	100-240VAC, 50/60Hz, 0.56A
DC Output	28.8V DC, 800mA
Connector Type	Round Hole (OD/ID: 5.5/2.5mm)
Compatible Devices	24V Kids Ride On Cars
Product Dimensions	3.9 x 2.9 x 2.8 inches
Item Weight	4.8 ounces
Material	Plastic
Color	Black
Safety Certification	FCC Tested, ETL Certified (Conforms to UL Std.1310, Certified to CSA Std.C22.2 NO.223)

## 8. WARRANTY AND SUPPORT

---

### Warranty:

This product comes with a **90-day manufacturer money-back guarantee**. If you encounter any issues within this period, please contact the seller for assistance.

### Customer Support:

For technical support, warranty claims, or any questions regarding your weelye charger, please contact the seller directly through the platform where the purchase was made. Ensure you have your purchase details readily available.
