PANAMALAR US-AL-2040

PANAMALAR Electric Bubble Wand Instruction Manual

Model: US-AL-2040

1. Product Overview

The PANAMALAR Electric Bubble Wand is an automatic bubble machine designed to produce a continuous stream of bubbles. Featuring a flower design with colorful flashing lights, it operates with a rechargeable battery and is activated by a single button. This device is suitable for outdoor and indoor activities, providing entertainment through bubble generation.

2. What's Included

Please verify that all components are present in the package:

- Flower Bubble Wand (x1)
- Rechargeable Battery (x1)
- Bubble Solution (120ml) (x1)
- Tool (x1) - *Note: The 'Tool' is likely a USB charging cable or a small screwdriver for the battery compartment.*

Image 2.1: Detailed view of the bubble wand components, including the blooming flower design, 10 bubble holes, glow lights, on/off slide button, rechargeable battery, and 120ml bubble solution.

3. Safety Information

This product is designed for children aged 36 months and older. Adult supervision is recommended during use. The bubble wand is constructed from high-quality ABS material, ensuring durability and a smooth, burr-free surface for safe handling. The design incorporates double leak-proof features for the bubble pipes and spiral bottle to prevent spills. Do not ingest bubble solution. Avoid direct contact of bubble solution with eyes. In case of contact, rinse thoroughly with water.

4. Setup Guide

Follow these steps to prepare your bubble wand for use:

1. **Charge the Battery:** If the rechargeable battery is not already charged, connect it using the provided USB cable.

The battery compartment may require a small tool (screwdriver) to open. Ensure the battery is fully charged before first use.

2. **Install the Battery:** Once charged, insert the battery into the designated compartment within the bubble wand handle. Secure the compartment cover.
3. **Fill with Bubble Solution:** Unscrew the bubble solution bottle from the bottom of the wand. Fill it with the supplied 120ml bubble solution. Reattach the bottle securely to the wand, ensuring it is tightly sealed to prevent leaks.

Image 4.1: Visual guide for connecting the battery, installing bubble solution, and activating the bubble wand.

5. Operating Instructions

Once assembled and filled, operating the bubble wand is straightforward:

1. **Power On:** Locate the slide button on the handle of the bubble wand. Slide the button to the 'ON' position. The machine will begin to produce bubbles automatically.
2. **Light Feature:** The bubble wand includes built-in colorful lights that illuminate as it operates, enhancing the visual

effect of the bubbles, especially in low-light conditions.

3. **Bubble Output:** The wand is designed to produce over 10,000 bubbles per minute. Some models may feature multiple 'gears' or settings to adjust bubble output. Refer to the product details for specific models.
4. **Power Off:** To stop the bubble production, slide the button back to the 'OFF' position.

6. Maintenance

Proper maintenance ensures the longevity and optimal performance of your bubble wand:

- **Cleaning:** After each use, especially if using different bubble solutions, wipe the exterior of the bubble wand with a dry cloth. Avoid submerging the electronic components in water.

- **Solution Management:** If the bubble wand will not be used for an extended period, empty any remaining bubble solution from the reservoir to prevent residue buildup.
- **Battery Care:** Recharge the battery as needed. If storing for a long time, ensure the battery is partially charged (around 50%) and store in a cool, dry place.
- **Storage:** Store the bubble wand in a clean, dry environment away from direct sunlight and extreme temperatures.

Image 6.1: The leak-proof design, featuring an upgraded bubble pipe and spiral bottle, minimizes spills during use and handling.

7. Troubleshooting

If you encounter issues with your bubble wand, consider the following:

- **No Bubbles:**
  - Check if the battery is charged and correctly installed.
  - Ensure there is sufficient bubble solution in the reservoir.

- Verify the solution bottle is securely attached and the internal pipe is submerged in the solution.
- Confirm the power switch is in the 'ON' position.

- **Weak Bubble Output:**
  - The battery might be low; recharge it.
  - The bubble solution might be diluted or of poor quality. Use the provided solution or a high-quality bubble solution.
  - Ensure the bubble holes are not clogged. Gently wipe them clean if necessary.
- **Lights Not Working:**
  - Check battery charge.
  - Ensure the wand is powered on.

8. Product Specifications

Feature	Detail
Brand Name	PANAMALAR
Model Number	US-AL-2040
Age Range Description	Kid (Manufacturer Minimum Age: 36 Months)
Included Components	Bubble Solution, Bubble Wand Machine
Item Dimensions (L x W x H)	3.93" x 3.93" x 13.38"
Color	Blue
Style	Portable Bubble Machine
