SETUP AND ASSEMBLY

The CSZZD Full Bed Frame is designed for straightforward assembly. All parts are labeled, and the necessary tools are included. It is recommended to assemble the bed frame with two adults.

- Unpack Components:** Carefully unpack all components and verify against the parts list in the included installation manual. Ensure no parts are missing or damaged.
- Assemble Bed Frame:** Follow the step-by-step instructions in the provided manual to connect the metal slats and frame components. Ensure all connections are secure. The frame features 13 heavy-duty metal slats and 11 metal legs (5 central supporting adjustable legs) for stability.
- Attach Headboard:** Assemble the bookcase headboard according to the manual. This includes attaching the 3-tier open storage shelves and 2 private storage doors.
- Install LED Lights:** Carefully install the RGB LED light strips into the designated channels on the headboard and footboard.

Refer to the manual for specific routing and adhesive application.

5. **Install Charging Station:** Integrate the built-in 2 AC outlets, 1 USB port, and 1 Type-C port into the headboard as instructed.
6. **Assemble Storage Drawers:** Assemble the 4 under-bed storage drawers. Attach the smooth rollers (casters) to the bottom of each drawer. The drawers are designed to attach to the bed frame to prevent sliding.
7. **Place Mattress:** Once the frame is fully assembled, place your mattress directly onto the slats. A box spring is not required. The frame includes a fixed drawer board to prevent the mattress from sliding.

OPERATING INSTRUCTIONS

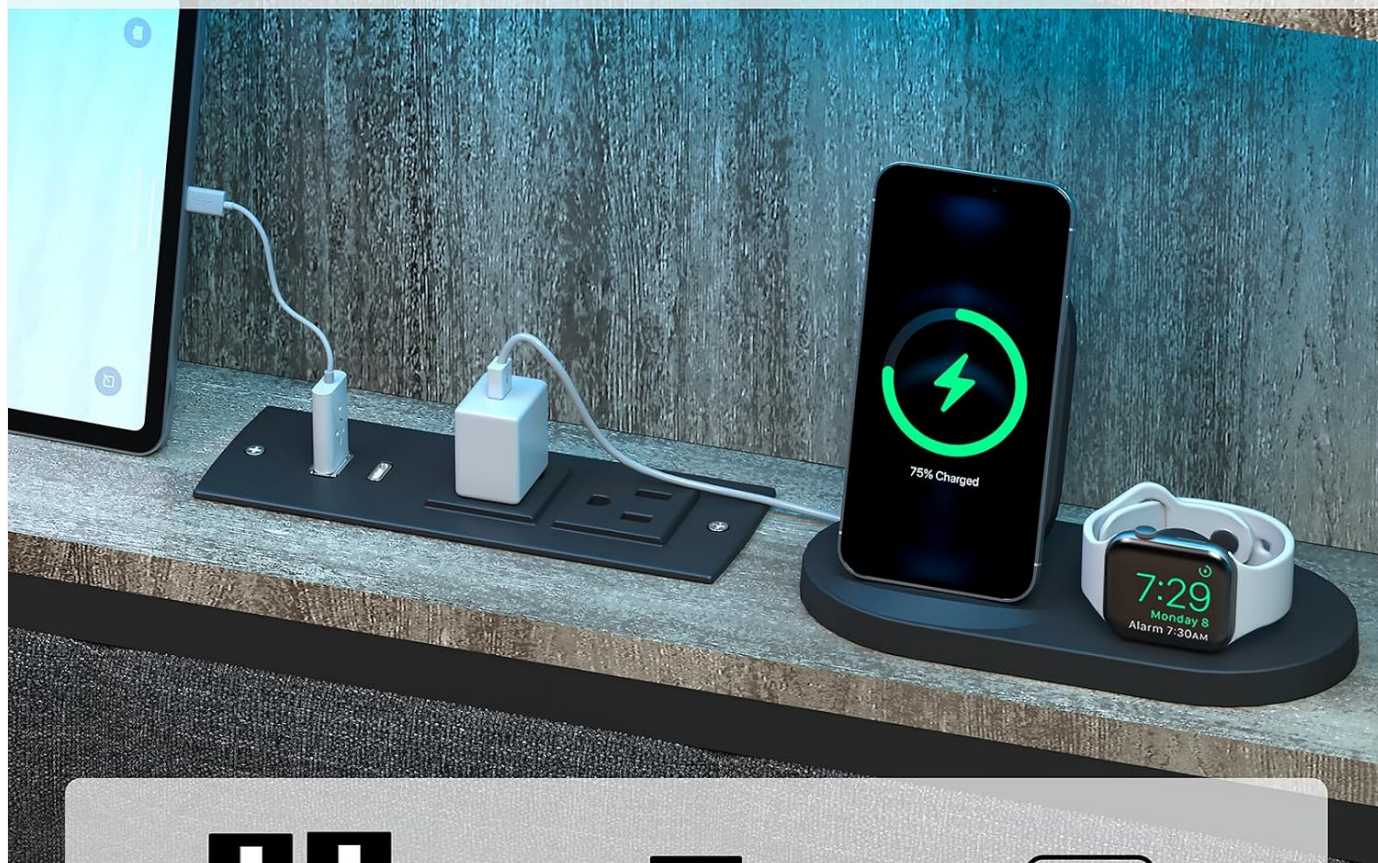

1. RGB LED Lights

The bed frame features integrated RGB LED lights in the headboard and footboard, controllable via a remote or a dedicated mobile application.

- **Power On/Off:** Use the remote control or app to turn the LED lights on or off.
- **Color Selection:** Choose from over 60,000 colors to customize your lighting ambiance.
- **Brightness Adjustment:** Adjust the light intensity to your preference.
- **Modes:** Select various dynamic modes for different lighting effects.

- **Music Sync:** Activate the music sync mode to make the LED lights flash in rhythm with your audio.
- **Timing Function:** Set a timer for the lights to automatically turn off.

4. Bookcase Headboard Storage

The headboard offers various storage options for convenience.

- **Open Shelves:** Utilize the 3-tier open storage shelves for easy access to items like books, glasses, or decorative pieces.
- **Private Storage:** The 2 private storage doors provide concealed space for personal items.
- **Side Storage:** Two additional open storage spaces on the sides are suitable for reading materials.

MAINTENANCE

- **Cleaning:** Wipe the bed frame surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish or upholstery.
- **LED Lights:** Ensure the LED strips are free from dust. Do not attempt to clean the LED strips with liquids while they are powered on.
- **Charging Station:** Keep the charging ports free of dust and debris. Do not insert foreign objects into the ports.
- **Drawer Rollers:** Periodically check the drawer rollers for smooth operation. Clean any accumulated dust or hair.
- **Fasteners:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary to maintain structural integrity and prevent noise.

TROUBLESHOOTING

Problem	Possible Cause	Solution
LED lights not working.	Power connection loose; remote/app issue; LED strip damage.	Check all power connections. Ensure the remote has fresh batteries or the app is correctly paired. Inspect LED strips for visible damage.
Charging ports (AC/USB/Type-C) not functioning.	Power cable disconnected; internal wiring issue; port damage.	Verify the main power cable for the charging station is securely plugged into a wall outlet. Ensure the internal wiring connections are secure (refer to assembly manual). If ports remain non-functional, they may require replacement.
Drawers do not slide smoothly or get stuck.	Obstruction in the path; damaged rollers; drawer not aligned.	Clear any objects from the drawer's path. Inspect rollers for damage or debris and clean if necessary. Ensure the drawer is properly aligned with the bed frame's attachment points.
Bed frame makes noise (squeaking/creaking).	Loose fasteners; metal-on-metal friction.	Tighten all screws and bolts on the frame. The frame includes EVA sound-absorbing strips; ensure they are correctly in place. If noise persists, check for any metal parts rubbing together and apply a small amount of lubricant if safe and appropriate.
Mattress slides on the frame.	Fixed drawer board not properly installed or engaged.	Ensure the fixed drawer board is correctly installed and positioned to prevent mattress movement.
