Dpofirs 1300W Portable 2-in-1 Gas Heater and Cooking Stove Instruction Manual

Model: Dpofirs20231221

1. INTRODUCTION

This manual provides essential information for the safe and effective operation of your Dpofirs 1300W Portable 2-in-1 Gas Heater and Cooking Stove. This versatile appliance is designed for outdoor use, offering both heating and cooking capabilities. Please read this manual thoroughly before initial use and retain it for future reference.

2. SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in fire, explosion, serious injury, or death.

- **Outdoor Use Only:** This appliance is designed for outdoor use in well-ventilated areas. Do not use indoors, in tents, vehicles, or any enclosed space, as it produces carbon monoxide, which can be fatal.
- **Gas Leakage Prevention:** The unit is equipped with safety devices to prevent gas leakage. Always ensure connections are secure and check for leaks using a soapy water solution before operation.
- **Overheat Protection:** Features a pressure sensor cylinder ejection system and an automatic shut-off mechanism for butane cylinders, designed to eject the cylinder if it overheats.
- **Fuel Type:** Use only butane gas or liquefied gas as specified. Do not use other fuel types.
- **Clearance:** Maintain adequate clearance from combustible materials. Do not place near flammable liquids or vapors.
- **Children and Pets:** Keep children and pets away from the appliance during operation and when hot.
- **Stable Surface:** Always operate the heater on a firm, level, non-combustible surface.
- **Ventilation:** Ensure proper ventilation even when used outdoors.
- **Storage:** Store gas cylinders in a cool, dry, well-ventilated area, away from direct sunlight and heat sources.

3. PACKAGE CONTENTS

Verify that all items listed below are present in your package:

- 1 x Dpofirs Portable Gas Heater Host

- 1 x Instruction Manual
- 1 x Pipeline Connection Valve (for liquefied gas)
- 1 x Tray (for cooking/heating mode)

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your Dpofirs 2-in-1 Gas Heater and Cooking Stove.

Figure 4.1: Front view of the Dpofirs portable gas heater, showcasing its compact red design with a protective grill over the heating

element and a carrying handle.

Multifunctional portable heater

Not only for heating, but also for warm vegetables and soup in winter

Figure 4.2: The appliance configured for cooking, with a pot placed on top of the heating element, demonstrating its dual functionality.

Multifunctional heating furnace

Two modes can be switched freely for warmth and diversity

Warm mode

Heating mode

Figure 4.3: Illustration of the two operational modes: 'Warm mode' (heater upright) and 'Heating mode' (heater flat with cooking grate).

Safety valve design

Prevent gas forex, safety protection, use more assured

Figure 4.4: View of the internal compartment for the gas cylinder, highlighting the safety valve design for secure fuel connection.

5

Swivel handle

Moderate width, no strangling, no scraping, lightweight and portable, more convenient to take away

Figure 4.5: Detail showing the mechanism for 90-degree rotation, allowing the unit to switch between upright heating and flat cooking configurations.

5. SETUP

5.1. Choosing a Location

Select a flat, stable, non-combustible outdoor area with ample ventilation. Ensure there are no flammable materials within a 1-meter radius of the appliance.

5.2. Connecting the Gas Cylinder (Butane)

1. Open the gas cylinder compartment cover.
2. Align the butane gas cylinder with the connector inside the compartment.
3. Push the cylinder firmly into place until it clicks, ensuring a secure connection.
4. Close the compartment cover.

5.3. Connecting the Gas Cylinder (Liquefied Gas)

1. Ensure the appliance's butane connection is empty and the compartment is closed.
2. Connect the provided pipeline connection valve to the liquefied gas inlet on the side of the appliance.
3. Attach the other end of the pipeline to your liquefied gas cylinder, following the cylinder manufacturer's instructions.
4. Tighten all connections securely.

6. OPERATING INSTRUCTIONS

6.1. Ignition

1. Ensure the gas cylinder is correctly installed and the appliance is on a stable surface.
2. Turn the control knob to the 'ON' position.
3. Press and hold the ignition button (if applicable) or use an external lighter to ignite the burner.
4. Once ignited, release the ignition button. The flame should be visible and stable.

6.2. Adjusting Heat

Rotate the control knob to increase or decrease the heat output as desired. The appliance has a rated power of 1.3KW.

6.3. Switching Between Heating and Cooking Modes

The appliance features a 90-degree rotation mechanism. To switch modes:

1. Ensure the appliance is turned off and cooled down.
2. Locate the lock switch or pivot button (refer to Figure 4.5).
3. Depress the button to pivot the burner head.
4. Rotate the heating element 90 degrees to switch between the upright 'Warm mode' (for heating) and the flat 'Heating mode' (for cooking with the tray).
5. Ensure the unit locks securely into the desired position before re-igniting.

6.4. Turning Off

To turn off the appliance, rotate the control knob fully to the 'OFF' position. Allow the unit to cool completely before handling or storing.

7. MAINTENANCE

7.1. Cleaning

- Ensure the appliance is completely cool and disconnected from the gas supply before cleaning.
- Wipe exterior surfaces with a damp cloth. Do not use abrasive cleaners or solvents.
- Clean the cooking tray and grill with warm soapy water.
- Do not immerse the main unit in water.

7.2. Storage

- Remove the gas cylinder before storing.
- Store the appliance in a cool, dry place, away from direct sunlight and out of reach of children.
- Store gas cylinders separately in a well-ventilated area.

8. TROUBLESHOOTING

- **Appliance does not ignite:**
 - Check if the gas cylinder is correctly installed and has fuel.
 - Ensure the control knob is in the 'ON' position.
 - Verify the ignition mechanism is functioning (if applicable, check for spark).
- **Low heat output:**
 - Ensure the gas cylinder is not running low.
 - Check for any obstructions in the burner or gas line.
- **Gas smell:**
 - Immediately turn off the appliance and gas supply.
 - Move to a well-ventilated area.
 - Check all connections for leaks using a soapy water solution. Do not use an open flame.
 - If a leak is detected and cannot be resolved, do not use the appliance and contact customer support.

9. SPECIFICATIONS

Product Material	Aluminum Alloy
Weight	Approx. 2.625 kg (5.8 lb)
Gas Consumption	90g/h
Rated Power	1.3KW
Gas Source	Butane Gas, Liquefied Gas
Product Dimensions (Approx.)	25cm x 24cm x 20cm (9.8in x 9.4in x 7.9in)
Item Model Number	Dpofirs20231221
Color	Black (unit shown in red for illustrative purposes)

10. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation provided at the time of purchase or contact your retailer. You may also visit the official Dpofirs store on Amazon for further assistance: [Dpofirs Store](#).
