

LONCIN DQ702

Essential Oil Diffuser User Manual

Model: DQ702 | Brand: LONCIN

1. INTRODUCTION

Thank you for purchasing the LONCIN Essential Oil Diffuser. This ultrasonic diffuser combines aromatherapy, humidification, and ambient lighting to create a relaxing and pleasant environment. Please read this manual carefully before use to ensure proper operation and maintenance.

2. SAFETY INFORMATION

- Use only the specified power adapter (DC 5V/1.0A or greater) to avoid affecting performance or causing damage.
- Do not exceed the maximum water level indicated inside the water tank.
- Do not pour water into the mist outlet.
- Keep the diffuser out of reach of children and pets.
- Unplug the device before cleaning or refilling.
- Do not disassemble or attempt to repair the device yourself. Contact customer support if issues arise.
- Ensure the diffuser is placed on a stable, flat surface away from direct sunlight or heat sources.

3. PACKAGE CONTENTS

- Essential Oil Diffuser Unit
- Type-C Power Cable
- User Manual

**Essential oils
Can be added**

Key features of the diffuser including aromatherapy, ultrasonic atomization, quiet operation, simulation candlelight, power-off protection, and essential oil compatibility.

Additional features highlighted: Type-C charging, 150ml capacity, night light function, and ease of cleaning.

5. SETUP

1. **Unpack:** Carefully remove the diffuser and all accessories from the packaging.
2. **Place:** Position the diffuser on a flat, stable surface. Ensure it is not near any heat sources or in direct sunlight.
3. **Remove Cover:** Gently lift the top cover of the diffuser.
4. **Add Water:** Fill the water tank with clean tap water up to the maximum water level line (150ml capacity). Do not overfill.
5. **Add Essential Oils:** Add 2-3 drops of your preferred essential oil directly into the water tank. Adjust the amount based on your preference.
6. **Replace Cover:** Securely place the top cover back onto the diffuser.
7. **Connect Power:** Connect the Type-C power cable to the diffuser's port and plug the other end into a compatible DC 5V/1.0A (or greater) USB power adapter.

Step-by-step image showing how to add water to the diffuser's base.

6. OPERATING INSTRUCTIONS

The diffuser features a single multi-function button for easy control.

- **Mist Function:**

- Short press the button once to turn on the mist.
- Short press the button a second time to turn off the mist.

- **Lighting Function:**

- Long press the button to turn on the ambient candlelight effect.
- Long press the button a second time to turn off the light.

Note:

- The diffuser has a built-in smart chip for water shortage protection. It will automatically shut down when the water level is low to ensure safety and extend device life.
- When first turned on, it may take a few seconds for the ultrasonic diffusion to produce mist. You can feel a faint cool mist by placing your palm over the mist outlet, indicating it is working.

The diffuser in operation, emitting a gentle mist and glowing with its warm candlelight effect.

The diffuser is designed for quiet operation, functions as a night light, and includes an auto shut-off feature for safety.

7. MAINTENANCE

Regular cleaning is essential for optimal performance and longevity of your diffuser.

- **Daily Cleaning:** After each use, empty any remaining water from the tank. Wipe the inside of the tank with a

clean, soft cloth.

- **Weekly Cleaning:**
 - a. Unplug the diffuser and remove the cover.
 - b. Empty the water tank completely.
 - c. Add a small amount of white vinegar (about 1 teaspoon) to the water tank and let it sit for 5-10 minutes to loosen mineral buildup.
 - d. Gently wipe the inside of the tank and the ultrasonic disc with a soft brush or cotton swab. Do not scrub aggressively.
 - e. Rinse the tank thoroughly with clean water, ensuring no vinegar residue remains.
 - f. Wipe the exterior of the diffuser with a soft, damp cloth.
 - g. Allow all parts to air dry completely before reassembling or storing.
- **Important:** Do not use corrosive detergents or harsh chemicals. Do not immerse the base unit in water.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or weak mist	• Insufficient water in tank • Power adapter not meeting specifications (DC 5V/1.0A or greater) • Ultrasonic disc dirty or blocked • Mist outlet blocked	• Add water to the tank. • Ensure you are using a power adapter with an output voltage greater than 5V and an output current greater than 1A. Avoid using computer/tablet USB ports. • Clean the ultrasonic disc as per maintenance instructions. • Check and clear any blockages in the mist outlet.
No power/Light not working	• Power cable not connected properly • No power from outlet • Water shortage protection activated	• Check power cable connection. • Try a different power outlet. • Refill water tank.
Unusual noise	• Water level too low • Diffuser not on a flat surface	• Add water. • Place the diffuser on a stable, flat surface.
