KERDE F30

KERDE F30 Square Electric Bidet Seat User Manual

Model: F30 (US-08A)

Brand: KERDE

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your KERDE F30 Square Electric Bidet Seat. Please read this manual thoroughly before installation and use to ensure proper function and safety. Keep this manual for future reference.

- **Water Connection:** Connect the product to a domestic water supply. Do not use industrial water or other non-potable water sources.
- **Installation:** Installation should be performed according to the instructions provided. If you are unsure, consult a qualified professional.
- **Usage:** Do not immerse the product in water. Do not spray water directly onto the main unit. Keep electrical components dry.
- **Children and Individuals with Reduced Capabilities:** This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

3. PACKAGE CONTENTS

Verify that all components are present in the package:

- KERDE F30 Electric Bidet Seat
- Mounting Hardware
- Bidet Hose
- User Manual (this document)

4. PRODUCT FEATURES

The KERDE F30 Electric Bidet Seat offers a range of features designed for enhanced hygiene and comfort:

- **Warm Water Cleansing:** Provides three temperature settings with adjustable cleansing intensity. Features a front-to-back moving nozzle massage mode for thorough cleaning.
- **Warm Air Drying:** After cleansing, a warm air function helps dry the area, reducing the need for toilet paper.
- **Heated Seat:** The seat maintains a warm and comfortable temperature, especially beneficial in colder environments.
- **Convenient & Hygienic Design:**
 - **LED Lighting:** Integrated LED light for improved visibility during nighttime use.
 - **Self-Cleaning Nozzle:** The stainless steel nozzle automatically rinses itself after each use to maintain cleanliness.
 - **Slow-Closing Lid:** Designed for quiet operation, preventing abrupt noises.

- **Easy Installation:** The square design and included basic water pipe accessories facilitate quick and straightforward installation.

5. INSTALLATION GUIDE

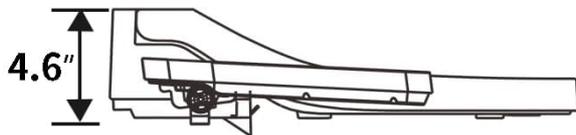

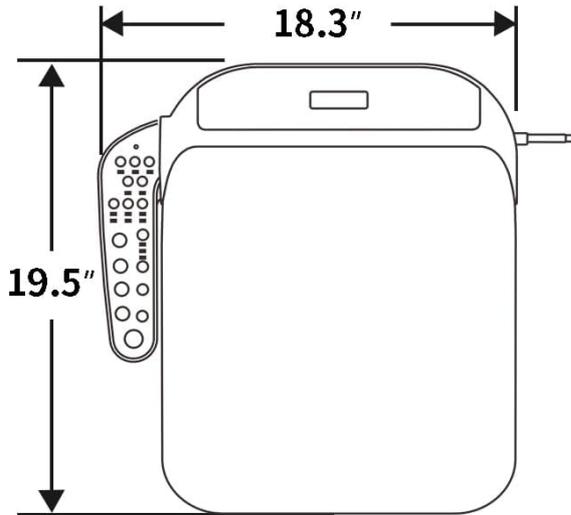

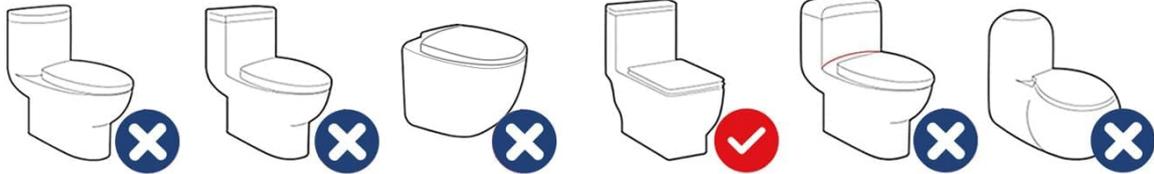

Follow these steps for proper installation of your bidet seat:

5.1. Pre-Installation Checks

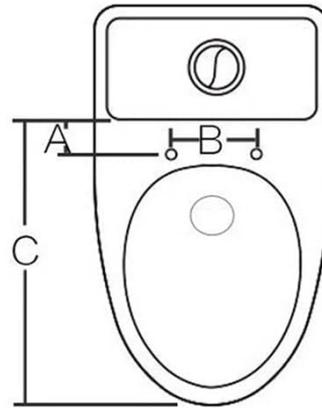

- **Toilet Compatibility:** Ensure your toilet is a square shape and meets the required dimensions.
- **Dimensions:** Refer to the product size diagram for specific measurements. The distance between installation holes (B) should be 3.94"–8.66". The distance between the water tank and the outer end of the toilet (C) should be 18.9"–21.06". The distance between the installation hole and water tank (A) should be >0.787 ".
- **Electrical Outlet:** Confirm a 110V, 3-hole grounded electrical outlet is available near the toilet.
- **Water Supply:** Ensure access to a domestic cold water supply line.

Product size

Toilet Shape Fits Check

Measure if the toilet cover meets installation requirement or not.

- A. The distance between installation hole and water tank $>0.787"$.
- B. The distance between installation holes : $+3.94" - 8.66"$.
- C. The distance between the water tank and the outer end of the toilet: $18.9" - 21.06"$.

Image: Visual guide for compatible toilet bowl shapes (right angle and fillet).

5.2. Installation Steps (General)

1. Remove your existing toilet seat and lid.
2. Install the mounting plate onto the toilet bowl using the provided hardware.
3. Slide the bidet seat onto the mounting plate until it clicks into place.
4. Connect the bidet hose to the toilet's water supply valve and the bidet seat's water inlet. Ensure all connections are tight to prevent leaks.

5. Plug the bidet seat's power cord into the grounded 110V electrical outlet.
6. Turn on the water supply valve.
7. Check for any leaks and test the bidet functions.

- **Energy Saving:** Activates energy-saving mode to reduce power consumption.
- **Be Seated:** The bidet functions will only operate when a user is seated on the seat.

7. MAINTENANCE

Regular maintenance ensures optimal performance and hygiene of your bidet seat.

7.1. Nozzle Cleaning

The stainless steel nozzle features an automatic self-cleaning function after each use. For additional cleaning, you can manually activate the 'Nozzle Self-clean' function on the control panel.

7.2. General Cleaning

- Wipe the exterior of the bidet seat with a soft, damp cloth and a mild, non-abrasive cleaner.
- Do not use harsh chemicals, abrasive pads, or solvents, as these can damage the surface.
- Ensure no water enters the electrical components.
- Periodically check water connections for any signs of leaks.

8. TROUBLESHOOTING

If you encounter issues with your KERDE F30 Bidet Seat, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power / Unit not turning on	Power cord unplugged; circuit breaker tripped; power button not pressed correctly.	Ensure power cord is securely plugged in. Check circuit breaker. Press and hold the power button for 2 seconds.
No water spray / Weak water pressure	Water supply valve closed; water filter clogged; water pressure setting too low.	Open the water supply valve. Clean or replace the water filter. Adjust water pressure using the '+' button.
Water temperature not warm	Water temperature setting too low; heating element issue.	Adjust water temperature using the 'Water Temp' button. If issue persists, contact support.
Seat not heated	Heated seat function off; temperature setting too low.	Ensure heated seat function is active and adjust temperature using the 'Heated Seat' button.
Air dryer not working / not warm	Warm air dry function off; temperature setting too low.	Activate warm air dry function and adjust temperature using the 'Wind Temp' button.
Leaks from connections	Loose connections; damaged seals.	Tighten all water connections. If leaks persist, check seals and contact support.

If the problem persists after attempting these solutions, please contact KERDE customer support for assistance.
