

Cigar Oasis OP-67-69

Cigar Oasis OasisPak 69% RH Two-Way Humidity Control Packs User Manual

Model: OP-67-69

1. INTRODUCTION

The OasisPak 69% RH Two-Way Humidity Control Packs are designed to automatically regulate and maintain a precise 69% relative humidity (RH) level within enclosed storage environments. These packs absorb or release moisture as needed, preserving the freshness, flavors, and aromas of your stored items. They are a salt-free, leak-proof, and non-toxic solution for humidity management.

KEEP YOUR STORED ITEMS FRESH WITH HUMIDITY CONTROL

OasisPak 69% RH Two-Way Humidity Control Packs automatically regulate moisture by absorbing or releasing humidity as needed, preserving freshness, aroma, and quality.

2. PRODUCT FEATURES

- **Precise 69% RH Control:** Automatically maintains optimal humidity levels.
- **Two-Way Humidity Regulation:** Absorbs or releases moisture as required.
- **Safe & Non-Toxic:** Made with clean, salt-free, plant-based ingredients that do not alter taste, smell, or quality.
- **Durable Design:** Tear-resistant and leak-proof construction prevents mess and ensures consistent performance.
- **Individually Wrapped:** Each pack is sealed for extended shelf life and freshness before activation.
- **Replacement Indicator:** Includes a color-coded indicator card for easy monitoring of pack effectiveness.

3. SETUP AND USAGE

Follow these steps to properly set up and use your OasisPak humidity control packs:

1. **Prepare the Pack:** Carefully peel away the transparent outer overwrap from the OasisPak. Ensure the inner moisture control packet remains intact and undamaged.
2. **Placement:** Position the activated OasisPak within your storage container, travel case, jar, or accessory box. For optimal humidity control, place it near the items you wish to preserve.
3. **Capacity Guidelines:**
 - One 67-gram pack treats approximately 20-count capacity.
 - A 4-pack set can manage up to 75-count storage setups.
 - A 12-pack set is suitable for 150–300-count storage setups.

1

Peel away the transparent overwrap (note: ensure that the inner moisture control packet remains intact).

2

Position the Oasis Pak within your storage containers for optimal humidity control.

3

Replace it every 3 months or when the dot turns blue on the included humidity indicator card.

Image 3.2: Capacity recommendations for OasisPak usage.

4. OPERATING INSTRUCTIONS

Once placed, the OasisPak will automatically begin its two-way humidity control process. It continuously monitors the ambient humidity within your container and either releases or absorbs moisture to maintain the target 69% RH level. No manual adjustments or power sources are required for its operation.

Image 4.1: Examples of ideal applications for OasisPak humidity control.

5. MAINTENANCE AND REPLACEMENT

The OasisPak is designed for long-lasting performance. Each pack includes a color-coded indicator card for easy monitoring of its effectiveness. When the small dot on the indicator card turns a bright blue color, it signifies that the pack has reached its absorption capacity and needs to be replaced with a fresh OasisPak to ensure continuous humidity control.

It is recommended to check the indicator card periodically, typically every 3 months, or whenever you notice a change in the humidity levels of your stored items.

Image 5.1: The indicator card shows when the OasisPak needs replacement.

6. TROUBLESHOOTING

- **Humidity Not Maintained:** If the desired 69% RH level is not being maintained, first check the seal of your storage container. An airtight seal is crucial for the OasisPak to function effectively.
- **Indicator Dot Not Changing:** Ensure the indicator card is exposed to the same environment as the OasisPak. If the dot remains unchanged after an extended period and you suspect the pack is depleted, consider replacing it.
- **Pack Feels Hard/Crispy:** A hard or crispy texture indicates that the pack has absorbed its maximum moisture and needs replacement.
- **Pack Feels Soft/Gel-like:** A soft or gel-like texture indicates the pack has released its maximum moisture and needs replacement.

7. SPECIFICATIONS

Brand	Cigar Oasis
Model Name	Oasis Pak - 67g - 69%
Model Number	OP-67-69
Capacity	67 Grams
Item Weight	67 Grams
Product Dimensions	6"D x 4"W x 1"H
Material	Proprietary plant-based formula (outer packaging is tear-resistant)
Operation Mode	Passive (two-way humidity control)

UPC

743407221318
