PawGiant PGDP-1640

PawGiant Dog Fence Playpen Instruction Manual

MODEL: PGDP-1640

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your PawGiant Dog Fence Playpen. Designed for both indoor and outdoor use, this versatile playpen offers a secure and spacious environment for your pets.

Please read this manual thoroughly before setting up and using the playpen to ensure safe and proper operation.

Features

- **Stable & Safe:** The PawGiant dog fence is constructed from heavy metal with thickened iron tubes, ensuring stability and preventing collapse. The metal surface is smooth, free from rough or sharp spots, and the metal stakes feature rounded ball heads to prevent harm if a pet attempts to jump over the fence.

Multiple Uses

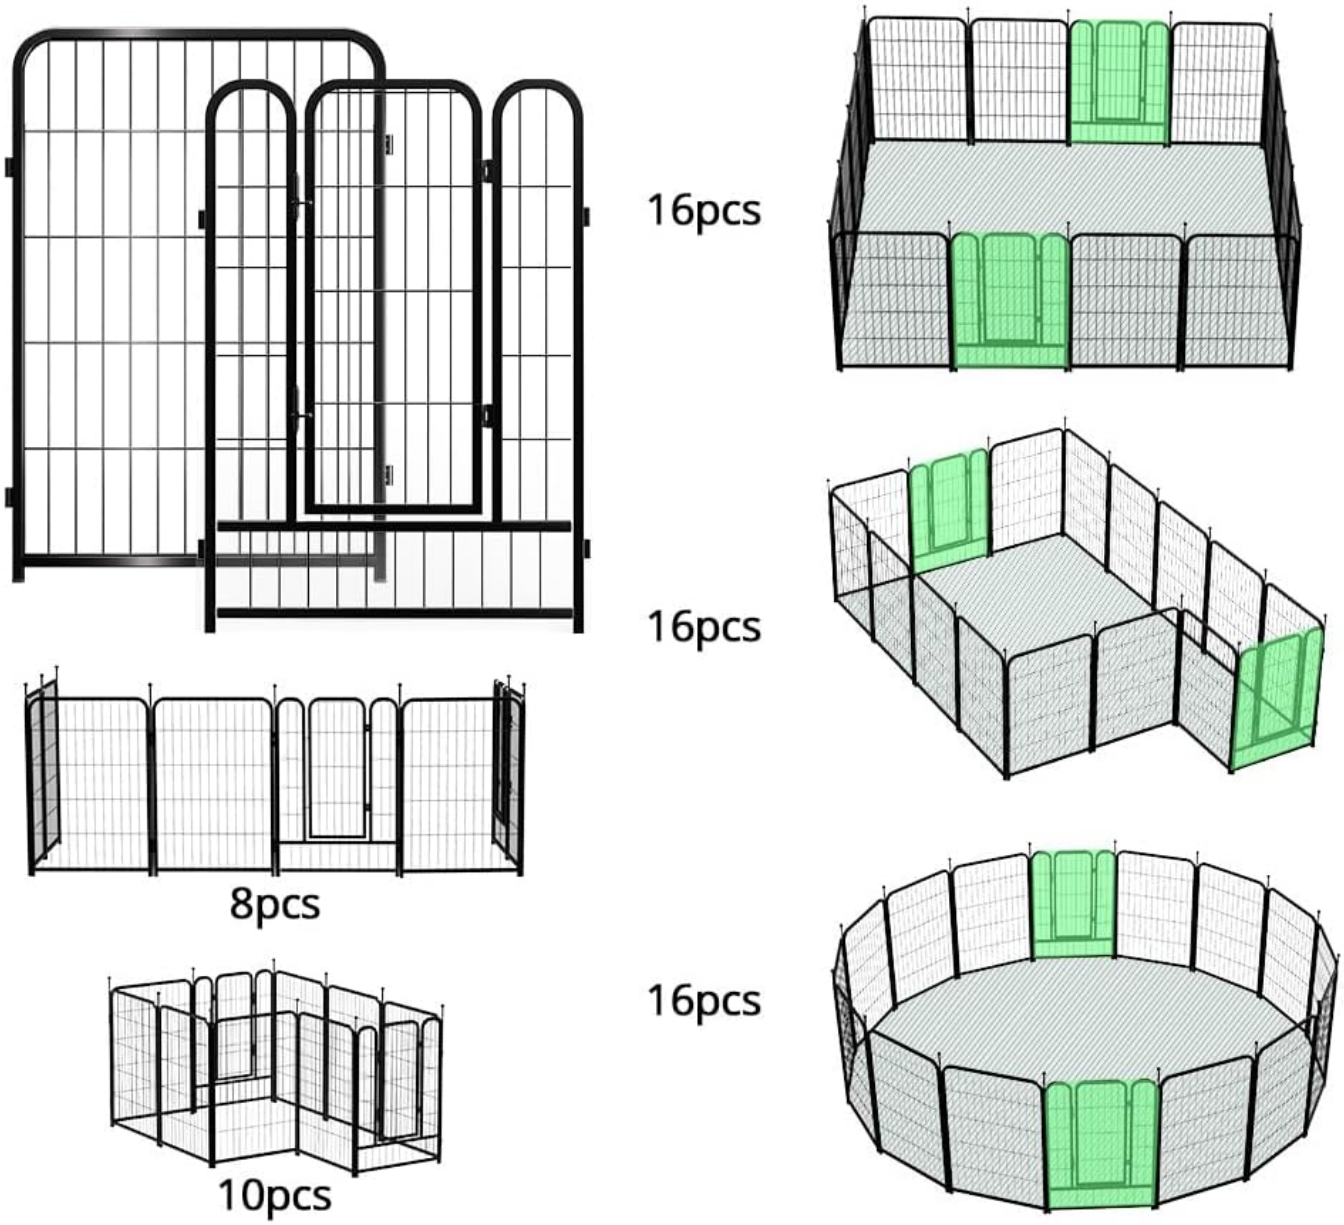

Image showing the safe ball top on the stakes and floor protectors for indoor use, along with stable stakes for outdoor ground insertion.

Details Presentation

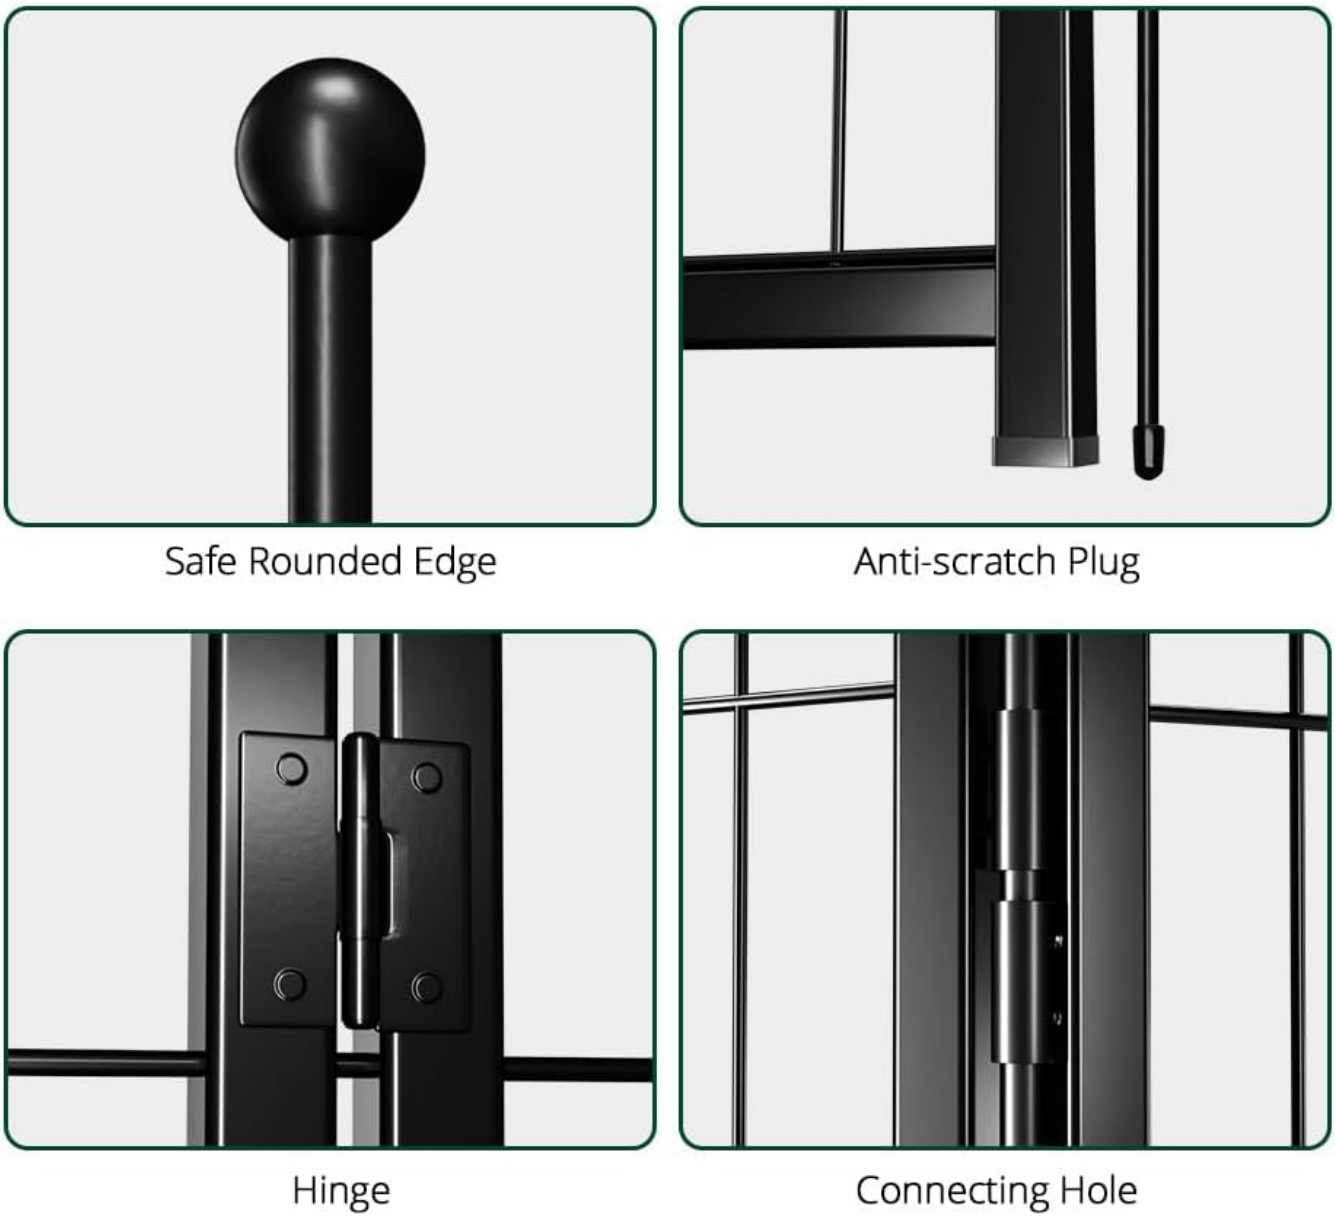

Image detailing the safe rounded edge, anti-scratch plug, hinge, and connecting hole of the playpen panels.

- **Prevention of Escape:** This dog pen features a 40-inch height to deter escapes. It includes a gravity automatic invisible door lock system that prevents pets from opening the door independently, ensuring your furry friends remain safely contained.

Secure Double Lock to Prevent Escape

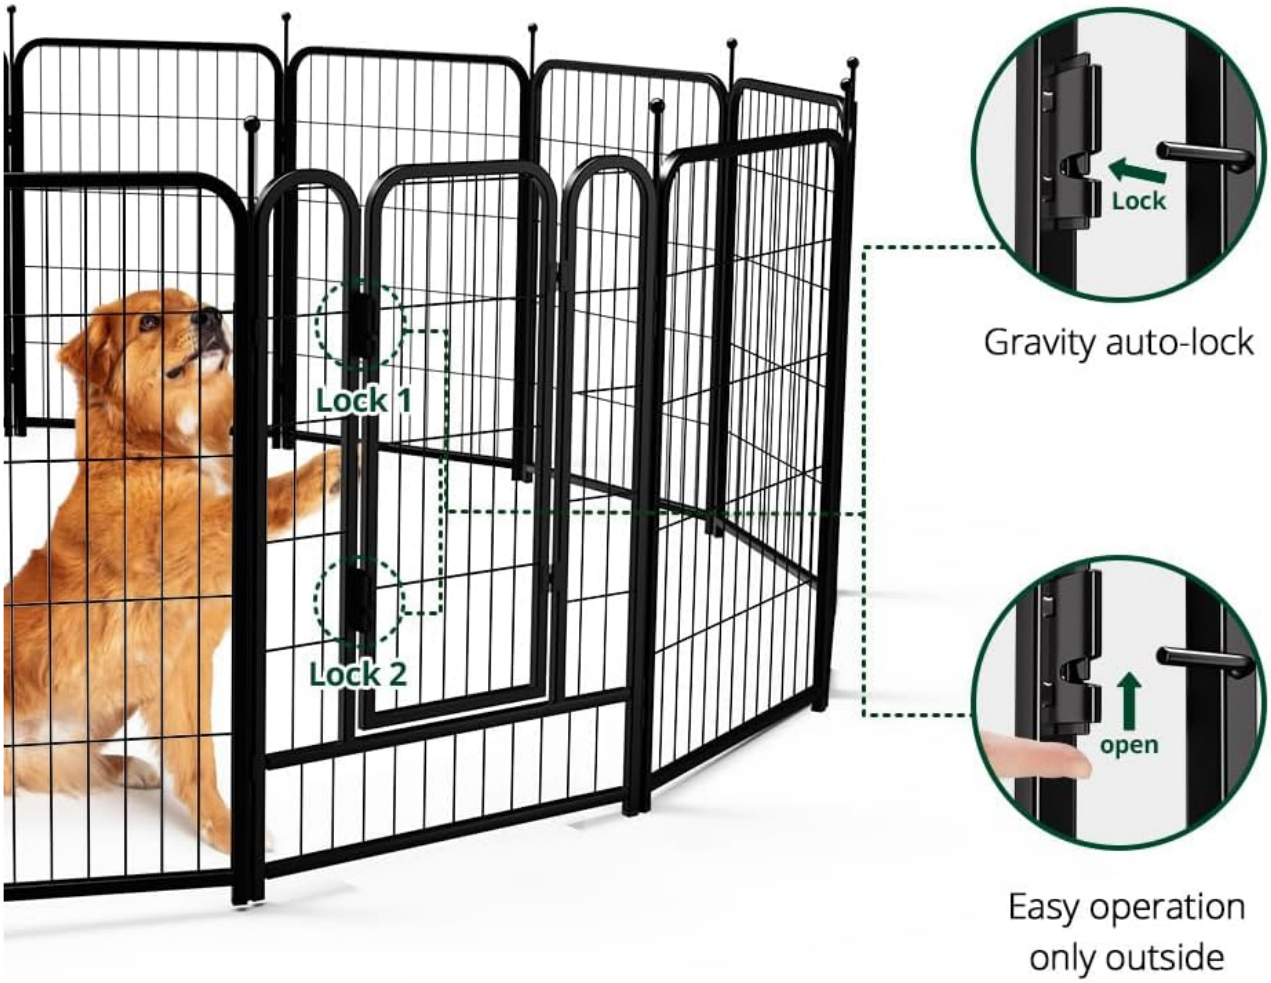

Image illustrating the double-lock mechanism on the gate, showing both gravity auto-lock and easy operation from outside.

- **Suitable for Indoor and Outdoor:** The temporary dog fence is designed for versatile use, both indoors and outdoors. It comes with rubber gaskets to prevent slipping and scratching on indoor surfaces, while the poles can be inserted into the mud outdoors for added immobilization.

Indoor Use

Anti-scratch plugs avoid damaging your floor

Image showing the playpen used indoors with a dog, emphasizing the anti-scratch plugs that protect floors.

- **Meet Various Spaces:** The playpen's design allows for multiple shape configurations, including rectangular, square,

or octagonal, to fit various spaces. Additional fences can be connected to cover larger areas, or individual panels can be used to divide space.

Image displaying various configurations of the playpen, including rectangular, square, and octagonal shapes, using 8, 10, or 16 panels.

- **Easy Setup & Sizing:** The camping dog fence can be set up easily in minutes. The 40-inch height is suitable for medium or large-sized dogs less than 35 inches tall. Confirm your pet's height and jumping ability before purchase.

Package Contents

Please verify that all components are present before beginning assembly:

- 16 x Steel Panels (including 2 panels with gates)
- 16 x Steel Bars (for connecting panels)
- 16 x Anti-Scratch Plugs (for indoor use)

Setup & Assembly

1. **Unpack Components:** Carefully remove all steel panels, steel bars, and anti-scratch plugs from the packaging.
2. **Connect Panels:** Align the connecting holes of two adjacent panels. Insert a steel bar through the aligned holes from top to bottom. The steel bar acts as both a hinge and a connector. Repeat this process for all panels to form your desired enclosure.
3. **Secure to Ground (Outdoor Use):** For outdoor installation, push the pointed end of the steel bars firmly into the ground to immobilize the fence. Ensure the ground is soft enough for easy insertion.

4. **Protect Floors (Indoor Use):** For indoor use, attach the anti-scratch plugs to the bottom of each panel to prevent any damage or scratching to your flooring.
5. **Configure Shape:** Arrange the connected panels into your preferred shape (e.g., octagonal, square, rectangular). The flexible design allows for various layouts to suit your space.
6. **Secure Gates:** Ensure all gate locks are properly engaged to prevent pets from opening them. The gates feature a gravity automatic invisible door lock system.

Operating Instructions

- **Opening the Gate:** To open the gate, disengage both the top and bottom gravity automatic locks. The gate is designed for easy operation from the outside.
- **Reconfiguring the Playpen:** To change the shape or size of the playpen, carefully remove the steel bars connecting the panels you wish to adjust. Reinsert the bars once the new configuration is set.

Maintenance

The PawGiant Dog Fence Playpen is designed with rust-proof materials for durability. To maintain its condition and extend its lifespan:

- **Regular Inspection:** Periodically inspect all panels and connecting bars for any signs of wear, damage, or loose connections.
- **Cleaning:** Clean the playpen with a damp cloth and mild soap as needed. Avoid using harsh chemicals or abrasive cleaners that may damage the finish.
- **Outdoor Care:** For outdoor use, ensure proper drainage around the base to prevent prolonged exposure to standing water, which can contribute to wear over time.

Troubleshooting

- **Playpen feels unstable:** Ensure all steel bars are fully inserted through the connecting holes of adjacent panels. For outdoor use, make sure the steel bars are firmly pushed into the ground. For indoor use, verify anti-scratch plugs are securely attached to the bottom of the panels.
- **Gate not locking properly:** Check that both the top and bottom gravity automatic locks are aligned and engaging correctly. Clear any debris that might obstruct the locking mechanism.
- **Panels appear warped or damaged:** While designed for durability, extreme force or improper handling can cause damage. Inspect for bent sections and contact customer support if significant damage affects functionality.
- **Rusting:** The playpen is designed to be rust-proof. If rust appears, clean the affected area immediately with a rust remover and apply a protective coating if necessary. Ensure the playpen is not left in standing water for extended periods.

Specifications

Attribute	Detail
Model Number	PGDP-1640

Item Weight	65.9 pounds
Item Package Dimensions (L x W x H)	41 x 28.5 x 10.5 inches
