## NSXAYIWE B0CQTDBJV5

# NSXAYIWE Hair Diffuser Instruction Manual

Model: B0CQTDBJV5

## PRODUCT OVERVIEW

The NSXAYIWE Hair Diffuser is an essential accessory designed to enhance your hair drying experience, particularly for those with curly or wavy hair. Crafted from durable ABS material, this universal diffuser attachment ensures even heat distribution, protecting your hair from damage while helping to define natural curls and waves.

The NSXAYIWE Hair Diffuser shown attached to a hair dryer, alongside detailed views of the diffuser's design.

## KEY FEATURES

- **Universal Compatibility:** Suitable for hair dryers with a nozzle diameter of approximately 2.17 inches (5.5cm), making it compatible with a wide range of hair dryer models for both home and salon use.
- **Even Heat Distribution:** Features a design with finger-like prongs that spread hot air uniformly, preventing heat damage and promoting healthier hair drying.
- **Enhanced Hair Styling:** Helps to create richer, more layered hairstyles by defining natural curls and waves, reducing frizz, and adding volume.
- **Easy Installation:** Designed for quick and straightforward attachment and removal, requiring no special tools.
- **Durable Construction:** Made from high-quality, safe, and environmentally friendly ABS material, ensuring long-lasting performance and resistance to wear and tear.
- **Time-Saving:** Facilitates more efficient hair drying, especially beneficial for users with curly or wavy hair, speeding up the styling process.

## SETUP AND INSTALLATION

To install the hair diffuser, ensure your hair dryer's nozzle diameter is approximately 2.17 inches (5.5cm). The diffuser is designed for a snug fit to prevent it from detaching during use.

1. Ensure your hair dryer is unplugged and cool.
2. Align the opening of the diffuser with the nozzle of your hair dryer.
3. Gently push the diffuser onto the hair dryer nozzle until it is securely in place. The flexible material will adapt to create a firm grip.
4. To remove, simply pull the diffuser off the nozzle.

The diffuser's opening is designed to fit hair dryer nozzles with a diameter of approximately 2.17 inches (5.5cm).

## OPERATING INSTRUCTIONS

Using the NSXAYIWE Hair Diffuser helps to dry hair gently and effectively, especially for enhancing natural curls and waves.

1. After washing your hair, gently towel-dry to remove excess water.
2. Apply your preferred styling products (e.g., curl cream, mousse) evenly through your hair.
3. Attach the diffuser securely to your hair dryer.
4. Set your hair dryer to a low to medium heat setting and a low fan speed. High heat and strong airflow can still cause frizz.
5. Gently cup sections of your hair with the diffuser, bringing it up towards your scalp. Hold it in place for a few seconds to allow the warm air to circulate through your curls.
6. Move the diffuser around your head, working in sections, until your hair is mostly dry. Avoid excessive movement to

prevent frizz.

7. For added volume, you can flip your head upside down while diffusing.

8. Once dry, gently scrunch your hair to break any cast from styling products, revealing soft, defined curls.

## **prevent damage to your hair**

diffuses the air from the hairdryer to evenly dry your hair

The diffuser helps to prevent hair damage by evenly distributing air from the hair dryer.

**very suitable for curly hair and wavy hair.**

This diffuser is highly suitable for enhancing and drying curly and wavy hair.

## MAINTENANCE AND CARE

Proper care of your hair diffuser will ensure its longevity and optimal performance.

- **Cleaning:** Periodically wipe the diffuser with a damp cloth to remove any dust or product residue. Ensure it is completely dry before storing or reattaching to a hair dryer.
- **Storage:** Store the diffuser in a clean, dry place away from direct sunlight and extreme temperatures.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these can damage the ABS material.

## TROUBLESHOOTING

### Diffuser does not fit my hair dryer:

Ensure your hair dryer's nozzle diameter is within the compatible range of approximately 2.17 inches (5.5cm). The diffuser is designed for a universal fit within this range, but some hair dryer models may have unique nozzle shapes that

prevent a secure fit.

**Hair is still frizzy after diffusing:**

Ensure you are using a low to medium heat setting and a low fan speed on your hair dryer. High heat and strong airflow can disrupt the curl pattern and cause frizz. Also, avoid excessive movement of the diffuser while drying.

**Diffuser feels loose or falls off:**

Verify that the diffuser is pushed firmly onto the hair dryer nozzle. If the fit remains loose, your hair dryer's nozzle may be slightly smaller than the diffuser's intended range. Consider adding a thin, heat-resistant band around the hair dryer nozzle for a tighter grip, if safe to do so.

## SPECIFICATIONS

Property	Value
Model Number	B0CQTDBJV5
Material	ABS
Applicable Nozzle Diameter	Approx. 2.17 inches (5.5cm)
Application	Home and Hair Salon Use
Manufacturer	NSXAYIWE

## WARRANTY AND SUPPORT
