Setup and Assembly

Assembly typically takes approximately 30 minutes per nightstand. It is recommended to assemble on a soft, clean surface to prevent scratches.

Step 1: Unpack and Identify Parts

Carefully remove all components from the packaging. Lay them out and compare them against the parts list provided in your physical manual to ensure everything is present.

Step 2: Assemble the Frame

Follow the step-by-step diagrams in your manual to connect the metal frame components and particleboard shelves using the provided screws and tools. Ensure all connections are secure but do not overtighten until the frame is fully assembled.

Step 3: Install the Fabric Drawer

Once the frame is complete, insert the fabric drawer into its designated slot. Ensure it slides smoothly.

Step 4: Install the Charging Station and LED Light Strip

Integrate the power strip into the designated cutout on the top panel. Route the LED light strip along the interior edges of the open shelf as instructed in your manual. Connect the power cord.

Operating Instructions

Using the Charging Station

Plug the nightstand's main power cord into a standard wall outlet. The integrated power strip provides 2 AC outlets and 2 USB ports for charging electronic devices. Ensure devices are compatible with the provided voltage and current specifications.

- **AC Outlets:** 125V/12A
- **USB Ports:** 5V/2A

Controlling the LED Light Strip

The LED light strip can be controlled via a manual key or a smartphone application.

- **Manual Key Control:** Use the inline controller on the LED strip cable to cycle through colors, adjust brightness, and change dynamic modes.
- **Smartphone App Control:** Download the designated app (refer to your physical manual for QR code or app name). Connect the LED strip via Bluetooth. The app allows access to over 6000 colors, mic mode, music mode, and timing functions.

Maintenance

Regular maintenance will help prolong the life of your nightstand.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust the nightstand, especially around the electrical components, to prevent dust buildup.
- **Drawer Care:** The fabric drawer can be spot cleaned with a mild detergent if necessary. Allow to air dry completely.
- **Electrical Components:** Ensure the charging station and LED lights are unplugged before cleaning. Keep them dry.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Charging station not working.	Not plugged in; power outlet issue; overloaded circuit.	Ensure the main power cord is securely plugged into a functional wall outlet. Check if the wall outlet is working by plugging in another device. Reduce the number of devices connected to the charging station.
LED lights not turning on.	Power cord not connected; LED strip not properly plugged into power source; app connection issue.	Verify the nightstand is plugged in. Check the connection between the LED strip and its power source. If using the app, ensure Bluetooth is enabled and the app is correctly paired with the LED strip.
Nightstand is wobbly.	Uneven floor; loose assembly screws.	Adjust the leveling feet at the bottom of the nightstand. Tighten all assembly screws, ensuring not to overtighten.
Fabric drawer does not slide smoothly.	Drawer misalignment; obstruction.	Remove the drawer and reinsert it, ensuring it is properly aligned. Check for any obstructions within the drawer slot.
