› [OEDRO FRP Hard Tri-fold Tonneau Cover Instruction Manual for 2015-2026 Ford F150 5.5ft Bed \(Model MAOEDsn0I5\)](#)

## OEDRO MAOEDsn0I5

# OEDRO FRP Hard Tri-fold Tonneau Cover Instruction Manual

Compatible with 2015-2026 Ford F150 F-150 with 5.5 Feet Bed (Model: MAOEDsn0I5)

## INTRODUCTION

This manual provides detailed instructions for the proper installation, operation, and maintenance of your OEDRO FRP Hard Tri-fold Tonneau Cover. Designed for 2015-2026 Ford F150 F-150 models with a 5.5 feet truck bed, this cover offers enhanced protection and security for your cargo. Constructed with high-strength fiberglass panels, it is built for durability and ease of use. Please read all instructions carefully before proceeding with installation or operation.

## SETUP AND INSTALLATION

The OEDRO FRP Hard Tri-fold Tonneau Cover is designed for effortless installation without the need for drilling. Follow these steps for a secure setup:

### 1. Verify Bed Size

Before installation, accurately measure your truck bed from the bulkhead (front of the bed) to the tailgate (with it closed) to confirm it is a 5.5 feet bed. This cover is specifically designed for this bed length.

# Measure Your Truck Bed Before Purchasing

Compatible with Ford F-150

**ONLY FIT 5.5FT**

## How to Measure Your Bed Size

Figure 2: Guide for measuring your truck bed to ensure compatibility.

### 2. Prepare the Truck Bed

Ensure the truck bed rails are clean and free of debris. If your vehicle has cargo racks or a cargo box, they must be removed before installing the tonneau cover.

Please remove the back racks or cargo box before installing the tonneau cover.

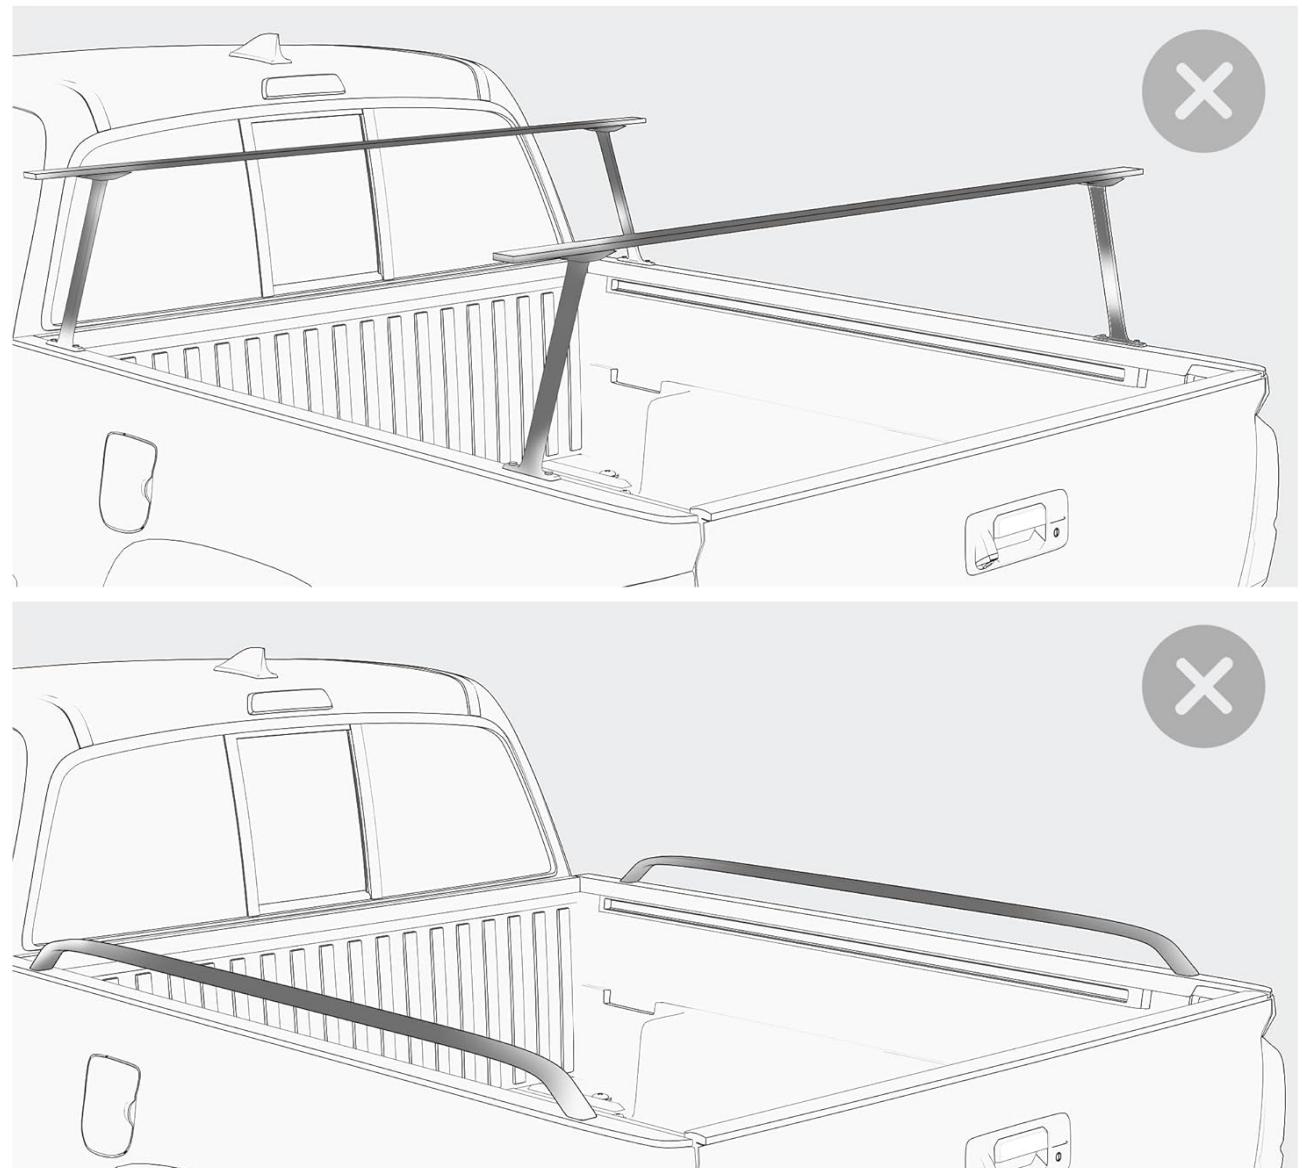

Figure 3: Remove any existing cargo racks or boxes from the truck bed.

### 3. Install Weather Strips

Apply the provided weather strips along the edges of the truck bed rails to ensure a tight seal and prevent water intrusion.

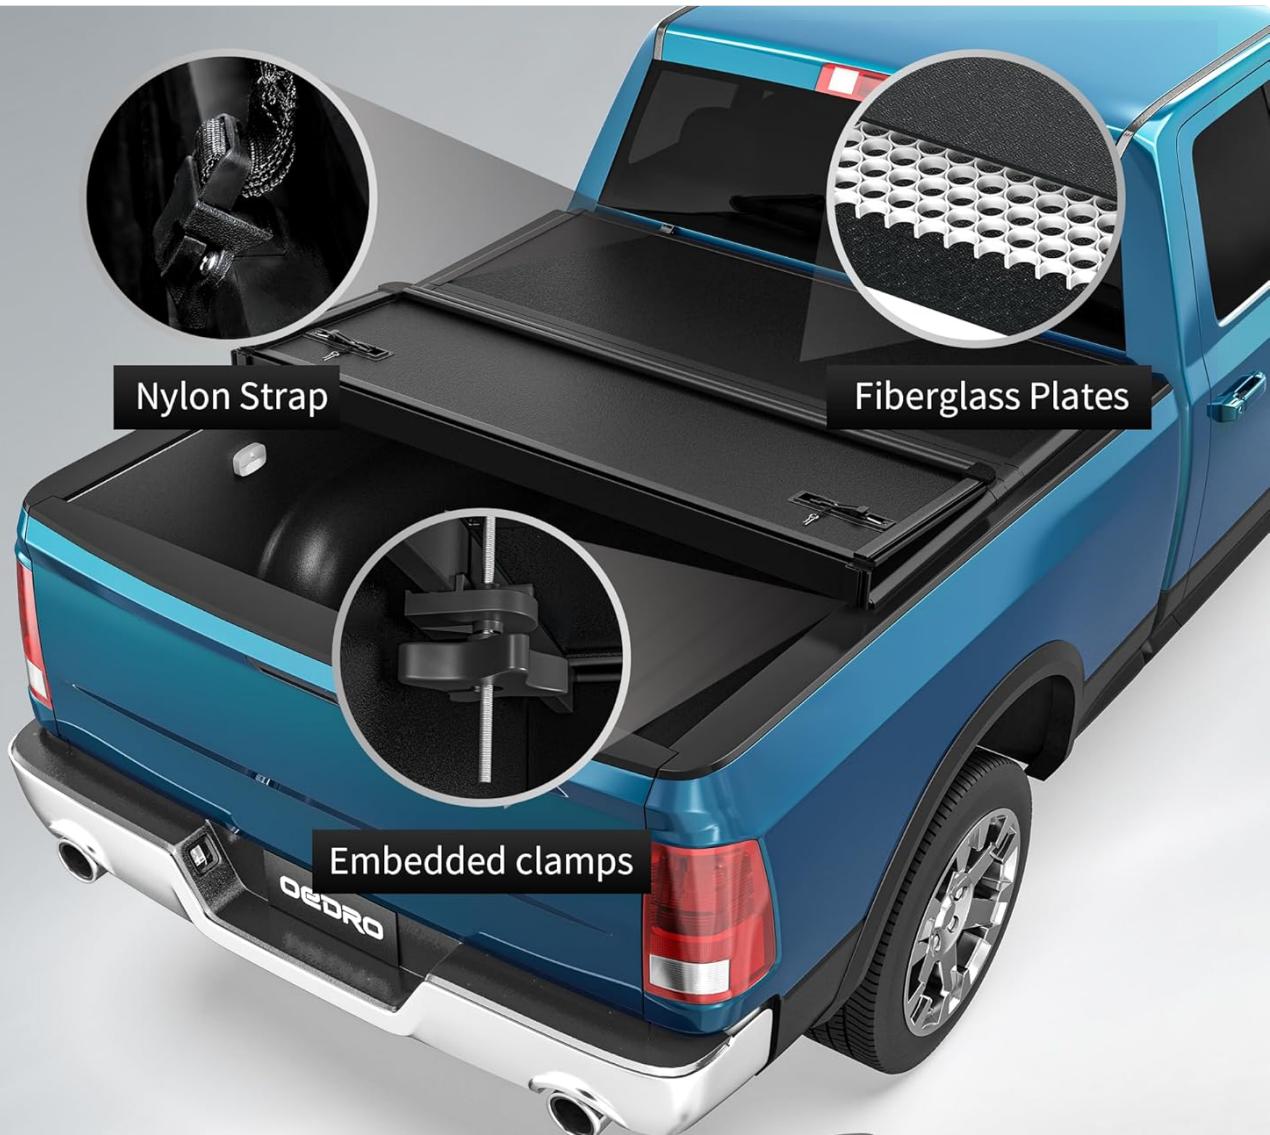

# Include Weather Strips for Sealing

Figure 4: Weather strips are included for enhanced sealing against the elements.

## 4. Position and Secure the Cover

Carefully place the folded tonneau cover onto the truck bed, aligning the front section with the bulkhead. Unfold the first section and secure it using the embedded clamps. Ensure all clamps are tightened before driving.

## Superior Details for Your Pickup

Figure 5: The cover features nylon straps, embedded clamps, and fiberglass plates for secure fitment.

## UPGRADED WITH A NEW IRON RING RELEASE STRUCTURE, OEDRO'S REAR CLAMP ENSURES SECURE AND SAFE DRIVING

Video 2: OEDRO Hard Top FRP Bed Cover for Pickup Trucks Overview.

### OPERATING INSTRUCTIONS

The tri-fold design allows for flexible access to your truck bed.

## Folding the Cover

To access your truck bed, release the rear clamps and fold the cover sections towards the cab. Secure the folded sections using the integrated nylon straps to prevent movement while driving. Avoid driving with the cover partially opened without securing it.

Figure 7: The tri-fold cover can be easily folded back to access the truck bed.

## Unfolding and Securing the Cover

To close the cover, release the nylon straps and carefully unfold each section towards the tailgate. Ensure each section lays flat and the clamps engage securely. The reinforced locking mechanism keeps the cover closed during travel.

Figure 8: The cover provides a secure and sleek appearance when fully closed.

## Cargo Security

When properly closed and the tailgate is locked, your cargo is securely protected under the cover.

# Enhanced Security & Enough Space

Items are securely locked in place under the cover

Video 3: OEDRO Hard Tri-fold Bed Cover Operation.

## MAINTENANCE

Regular maintenance will prolong the life and appearance of your tonneau cover.

- **Cleaning:** Wash the cover regularly with mild soap and water. Avoid harsh chemicals or abrasive cleaners that could damage the FRP panels.
- **Seal Inspection:** Periodically check the bed seals for wear and tear. Replace if necessary to maintain water resistance.
- **Clamp Check:** Ensure all clamps and locking mechanisms are functioning correctly and remain tight. Adjust as needed.

# SAFEGUARD IN SEVERE WEATHER

Blazing

Hurricane

Downpour

Hailstorm

Freezing

Figure 10: The cover is designed to safeguard your cargo in severe weather conditions.

## TROUBLESHOOTING

If you encounter issues with your tonneau cover, refer to the following common solutions:

- **Water Leakage:** Check the weather strips along the bed rails and ensure they are properly seated. Verify that all clamps are securely tightened. Some minor leaking may occur in extreme conditions like a carwash.
- **Cover Not Closing Properly:** Ensure no obstructions are preventing the panels from laying flat. Check that the bed rails are not warped or damaged.
- **Loose Clamps:** Re-tighten any loose clamps. If clamps repeatedly loosen, inspect for wear or damage.
- **Difficulty Folding:** Ensure the release mechanisms are fully disengaged. Check for any debris or foreign objects hindering the folding action.
