Carrera GO!!! Max Competition Slot Car Race Track Set - Instruction Manual

Model: 20062574

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Carrera GO!!! Max Competition Slot Car Race Track Set. This 1:43 scale electric-powered racing system features a track stretching over 20 feet, including straightaways, a flyover, junction track, and a loop. The set includes two 1:43 scale cars: a Red Bull Racing RB19 and a Mercedes-AMG F1 W14 E Performance, along with two speed controllers. This system is designed for competitive slot car racing and can be expanded with additional accessories and track pieces.

SAFETY INFORMATION

Caution: Electric Toy - Not recommended for children under 8 years of age.

As with all electric products, precautions should be observed during handling and use to prevent electric shock. Always supervise children during play. Ensure the power adapter is disconnected from the mains before assembly, disassembly, or cleaning. Do not operate the set near water or in wet conditions. Only use the power adapter supplied with the set.

WHAT'S IN THE Box

Your Carrera GO!!! Max Competition set includes the following components:

- Two 1:43 Scale Slot Cars: Red Bull Racing RB19 ("M. Verstappen, No.1") and Mercedes-AMG F1 W14 E Performance ("L. Hamilton, No.44")
- 1:43 Scale Track Pieces (totaling over 20 feet in length), including straights, curves, junction track, and a loop.
- Two Speed Controllers with Turbo Boost buttons.
- One Power Adapter.
- Lap Counter.
- Control Unit.
- Guardrails.
- Supports for elevated track sections.
- Instruction Manual.

SETUP AND ASSEMBLY

Follow these steps to assemble your race track:

- Unpack Components:** Carefully remove all track pieces, cars, controllers, and accessories from the packaging.
- Choose a Flat Surface:** Select a large, flat, and stable surface for assembly. The assembled track dimensions are approximately 5.74 ft x 4.00 ft (175 cm x 122 cm).
- Connect Track Pieces:**
 - Align the connectors of each track piece and press them firmly together until they click into place.
 - Ensure the electrical contacts on the track pieces are clean and properly aligned.
 - Assemble the loop and flyover sections according to the diagrams. Use the provided supports for elevated sections.
- Integrate Control Unit and Lap Counter:** Place the control unit and lap counter into their designated track sections.
- Attach Guardrails:** Secure the guardrails to the outer edges of curves and other critical sections to prevent cars from flying off the track.
- Connect Speed Controllers:** Plug the two speed controllers into the control unit.
- Connect Power Adapter:** Plug the power adapter into the control unit, then into a suitable electrical outlet. Ensure the power is off before connecting.
- Place Cars on Track:** Carefully place the slot cars onto the track, ensuring the guide pins are correctly seated in

the track slot and the power contacts are touching the track rails.

OPERATING INSTRUCTIONS

Once the track is assembled and cars are in place, you are ready to race:

- **Power On:** Ensure the power adapter is securely plugged in and turn on the power switch, if present on the control unit.
- **Speed Control:** Use the handheld speed controllers to regulate the speed of your car. Press the trigger to accelerate.
- **Turbo Boost:** Each controller features a turbo boost button. Press this button for a temporary burst of speed, useful for overtaking or navigating challenging sections. Use judiciously to avoid derailing.
- **Lap Counting:** The integrated lap counter will automatically record the number of laps completed by each car.
- **Driving Technique:** Practice is key to mastering the track. Learn to slow down slightly before curves to prevent cars from flying off, and use the turbo boost strategically on straights.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your slot car set:

- **Track Cleaning:** Periodically wipe down the track rails with a clean, dry, lint-free cloth to remove dust and debris. Ensure no moisture remains.
- **Car Maintenance:**
 - Check the guide pins on the cars for wear and tear. Replace if damaged.
 - Ensure the power contacts (braids) on the underside of the cars are clean and make good contact with the

track rails. Gently adjust if bent.

- Remove any hair or lint that may have wrapped around the car axles.
- **Storage:** When not in use, store the track and cars in a clean, dry place, away from direct sunlight and extreme temperatures. Disassemble the track if storing for extended periods.

TROUBLESHOOTING

If you encounter issues with your slot car set, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Car not moving or moving slowly	No power to track Poor contact between car and track Guide pin not seated Debris on track or car contacts	Check power adapter connection and outlet Ensure track pieces are fully connected Clean car braids and track rails Reseat car guide pin in track slot
Car frequently derails	Excessive speed in curves Damaged guide pin or braids Track not flat or stable	Reduce speed before entering curves Inspect and replace damaged car parts Ensure track is on a firm, level surface
Lap counter not working	Lap counter not properly connected Sensor blocked or dirty	Check connections of the lap counter piece Clean the sensor area on the lap counter track piece

SPECIFICATIONS

- **Model Number:** 20062574
- **Scale:** 1:43
- **Track Length:** Over 20.67 feet (6.3 meters)
- **Assembled Dimensions:** Approximately 5.74 ft x 4.00 ft (175 cm x 122 cm)
- **Power Source:** Electric (via included power adapter)
- **Recommended Age:** 6 years and up
- **Included Cars:** Red Bull Racing RB19 ("M. Verstappen, No.1") and Mercedes-AMG F1 W14 E Performance ("L. Hamilton, No.44")
- **Features:** Turbo Boost controllers, Lap Counter, Loop, Flyover, Junction Track
