Setup & Assembly

The BLOKEES Bumblebee Model Kit is designed for snap-together assembly, requiring no glue, brushes, or cutters. Follow the detailed illustrations in the included instruction manual for step-by-step guidance.

1. **Prepare Your Workspace:** Ensure a clean, well-lit area. Lay out the instruction manual and the plastic runners containing the parts.
2. **Identify Parts:** Refer to the manual's part identification section. Each part is labeled on the plastic runners.
3. **Detach Parts:** Carefully detach each part from its runner. Twist or gently pull to remove. Avoid using excessive force to prevent damage.

4. **Assemble Sections:** Follow the manual's sequence to assemble individual sections (e.g., head, arms, legs, torso). Parts are designed to snap together securely.
5. **Install Battery (for glowing features):** Locate the designated battery compartment, typically in the head or chest. Insert the provided battery, ensuring correct polarity. Refer to the specific battery replacement instructions included.
6. **Attach Accessories:** Connect the weapon accessory and any replaceable gesture parts as desired.
7. **Final Assembly:** Join all assembled sections to form the complete Bumblebee figure.
8. **Apply Stickers:** Use the provided stickers to enhance the display base or figure details as shown in the manual.

Operating Instructions

Your BLOKEES Bumblebee Model Kit features over 20 points of articulation and glowing elements for dynamic display and

interaction.

- **Poseability:** Gently manipulate the joints to position your Bumblebee figure in various stances. The 20+ points of articulation allow for a wide range of dynamic poses.
- **Activating Glowing Features:** The figure's eyes and chest are designed to emit light. Activate these features by pressing the designated button or switch, typically located on the back of the head or torso. Refer to the specific instructions for exact location and operation.
- **Weapon and Accessories:** Attach and detach the hand cannon and other interchangeable parts as desired to customize your figure's appearance and pose.
- **Display Base:** Use the provided display base to securely hold your figure in an upright position, enhancing its presentation.

Maintenance

Proper care will ensure the longevity and appearance of your Bumblebee model kit.

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the figure. For stubborn dirt, lightly dampen the cloth with water and mild soap, then wipe dry immediately. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the figure in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation or discoloration.
- **Battery Replacement:** When the glowing features dim or stop working, replace the battery according to the specific instructions provided with your kit. Ensure proper disposal of used batteries.

Troubleshooting

If you encounter any issues with your model kit, refer to the following common solutions:

Problem	Possible Cause	Solution
Parts do not snap together easily.	Incorrect part orientation or excess plastic on connection points.	Verify part orientation with the manual. Gently remove any excess plastic from the connection points. Do not force parts.
Glowing features do not activate.	Battery incorrectly installed, depleted, or switch is off.	Check battery polarity. Replace battery if depleted. Ensure the activation switch is in the "ON" position.
Figure is unstable on the display base.	Figure not properly seated on the base or an uneven surface.	Ensure the figure's feet are firmly attached to the pegs on the display base. Place the base on a flat, stable surface.
