ASSEMBLY INSTRUCTIONS

It is recommended that two adults assemble this bed. Clear a spacious area for assembly. Do not overtighten screws during initial assembly; tighten fully once the entire structure is aligned.

Step 1: Assemble the Bed Frame Sides

Attach the side rails to the headboard and footboard using the provided hardware. Ensure the guardrail attachment points are facing upwards.

Step 2: Install Bed Slats

Evenly space and secure the 14 bed slats across the side rails. Use the designated screw holes to attach each slat firmly. This provides the mattress foundation.
