Cousopo T90

Cousopo T90 Wireless Gaming Mouse User Manual

Model: T90

INTRODUCTION

The Cousopo T90 is a versatile wireless gaming mouse designed for optimal performance and comfort. Featuring three connectivity modes (2.4G, Bluetooth 1, and Bluetooth 2), adjustable DPI settings, and a long-lasting rechargeable battery, it offers a seamless experience across various devices. Its ergonomic and lightweight design ensures comfortable use for extended periods, while the customizable RGB backlight enhances your gaming setup.

SETUP

Charging the Mouse

Before first use, it is recommended to fully charge the mouse. Connect the supplied USB-C charging cable to the mouse's charging port and the other end to a USB power source (e.g., computer USB port, USB wall adapter). The LED indicator on the mouse will show charging status and turn off when fully charged. A full charge provides up to 30 days of use.

Connecting the Mouse

The Cousopo T90 supports three connection modes: 2.4G Wireless, Bluetooth 1 (BT1), and Bluetooth 2 (BT2). You can switch between modes using the switch on the bottom of the mouse.

Image: The underside of the Cousopo T90 mouse, showing the mode switch for 2.4G, BT3.0, and BT5.0 connections.

2.4G Wireless Mode:

1. Locate the USB receiver stored in the compartment on the bottom of the mouse.
2. Plug the USB receiver into an available USB port on your computer.
3. Switch the mode selector on the bottom of the mouse to the "2.4G" position.
4. The mouse will automatically connect to your computer.

Bluetooth Mode (BT1 / BT2):

1. Switch the mode selector on the bottom of the mouse to either "BT1" or "BT2" position.
2. The mouse's indicator light will start blinking, indicating it's in pairing mode.
3. On your device (computer, tablet, smartphone), go to Bluetooth settings.

4. Search for new devices and select "Cousopo T90" (or similar name) from the list.
5. Once paired, the indicator light will become solid.
6. Repeat for the other Bluetooth channel (BT2) if you wish to connect to a second Bluetooth device.

THREE-MODES WIRELESS MOUSE

OPERATING THE MOUSE

DPI Adjustment

The mouse features 5 adjustable DPI settings to suit your precision needs. Press the DPI button (usually located behind the scroll wheel) to cycle through the following settings: 800, 1200, 1600, 2400, and 3600 DPI. Each press will change the sensitivity, allowing for quick adjustments during gaming or general use.

5 DPI & 125HZ POLLING RATE

Polling Rate:

BT 1 125HZ >> BT 2 125HZ >> 2.4G 125HZ

Image: A visual representation of the 5 DPI settings (800-3600) and the 125Hz polling rate available on the Cousopo T90 mouse.

Polling Rate

The mouse operates at a 125Hz polling rate across all three modes (2.4G, BT1, BT2), ensuring responsive and smooth cursor movement.

Backlight Modes

The Cousopo T90 features an RGB backlight with 11 different modes. You can cycle through these modes using a dedicated button (refer to the mouse diagram in the physical manual for exact button location, often near the scroll wheel or on the side). This allows you to customize the aesthetic of your gaming setup.

Silent Click Design

The mouse is designed with silent left and right click buttons, reducing noise during use, which is ideal for quiet environments or late-night gaming sessions.

10 MILLION KEYSTROKE LIFETIME

TESTED MORE THAN 10 MILLION KEYSTROKES

Silent Mouse

MAINTENANCE

Cleaning

To clean the mouse, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the mouse's internal components. Avoid using harsh chemicals or abrasive cleaners.

Battery Care

To prolong battery life, avoid fully discharging the mouse frequently. Charge it when the battery indicator is low. If storing the mouse for an extended period, charge it to about 50% and store it in a cool, dry place.

LONG TERM STANDBY AUTOMATIC ALEEP IN 5 SECONDS

High-capacity Polymer lithium battery

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding	Low battery; Incorrect mode selected; USB receiver not connected (2.4G); Bluetooth not paired.	Charge the mouse; Ensure correct mode (2.4G/BT1/BT2) is selected; Re-insert USB receiver; Re-pair Bluetooth.
Lagging or choppy movement	Interference; Distance from receiver/device; Low battery.	Move closer to the receiver/device; Ensure no major obstructions; Charge the mouse; Try a different USB port.

Problem	Possible Cause	Solution
DPI not changing	DPI button not pressed correctly; Mouse frozen.	Press the DPI button firmly; Turn the mouse off and on again.
Backlight not working	Backlight mode off; Low battery.	Press the backlight mode button to cycle through modes; Charge the mouse.
