Model: A1257

1. INTRODUCTION

Thank you for choosing the Anker Power Bank (10000mAh, 22.5W). This portable charger is designed to provide reliable and fast power to your devices on the go. It features a compact design, high capacity, and multiple safety protections.

Image: Anker Power Bank (10000mAh, 22.5W) in various colors, highlighting its next-generation design.

Key Features:

- **Compact and High Capacity:** Despite its small size, it offers 10000mAh, capable of charging an iPhone 17 approximately 1.8 times or a Galaxy S25 approximately 1.7 times.
- **Ultra-Thin Design:** At approximately 16mm thick, it is thinner than a 1-yen coin's diameter, making it easy to carry in small pockets.
- **Integrated Strap Cable:** The included USB-C to USB-C cable can be stored and used as a convenient strap, eliminating the need for an extra cable.

- **22.5W Fast Charging:** Delivers up to 22.5W output for rapid charging of compatible smartphones and other devices.
- **Multi-Device Charging:** Equipped with two USB-C ports and one USB-A port, allowing simultaneous charging of up to three devices.
- **Enhanced Safety Features:** Incorporates temperature management, short-circuit prevention, and current/voltage control for safe operation, complying with PSE technical standards.

3. SETUP

Initial Charging of the Power Bank

Before first use, fully charge your Anker Power Bank. This ensures optimal performance and battery longevity.

1. Connect the included USB-C to USB-C cable to one of the USB-C ports on the power bank.
2. Connect the other end of the cable to a compatible USB wall charger (not included). For fastest charging, use a charger that supports 20W Power Delivery.
3. The digital display on the power bank will show the charging progress. It is fully charged when the display shows 100%.

5. MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your power bank.

- **Cleaning:** Use a dry, soft cloth to clean the surface of the power bank. Do not use corrosive cleaners or sprays.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Health:** For optimal battery health, fully charge and discharge the power bank at least once every three months if not in regular use.

6. TROUBLESHOOTING

Common Issues and Solutions:

- **Power Bank Not Charging:**
 - Ensure the charging cable is securely connected to both the power bank and the wall charger.
 - Try a different wall charger and cable to rule out faulty accessories.
 - Verify the wall charger is functioning correctly.
- **Device Not Charging from Power Bank:**
 - Ensure the power bank has sufficient charge.
 - Check if the charging cable connecting the device to the power bank is working correctly.
 - Try a different port on the power bank.
 - Some devices may require a specific charging protocol; ensure compatibility.
- **Slow Charging:**
 - Ensure you are using a fast-charging compatible cable and wall adapter for the power bank itself.
 - For device charging, ensure your device and cable support fast charging protocols (e.g., Power Delivery).

When to Stop Use Immediately:

Discontinue use and contact customer support if you observe any of the following:
