BoyKeep K11

BoyKeep Ease Life 1080P Indoor Security Camera (Model K11) Instruction Manual

INTRODUCTION

Thank you for choosing the BoyKeep Ease Life 1080P Indoor Security Camera, Model K11. This manual provides essential information for setting up, operating, and maintaining your camera to ensure optimal performance and security for your home. This camera features 1080P resolution, 2.4G Wi-Fi connectivity, motion detection, two-way audio, and night vision capabilities.

WHAT'S IN THE BOX

- BoyKeep Ease Life 1080P Indoor Security Camera (Model K11)
- Power Adapter
- Instruction Manual

SETUP GUIDE

1. Powering On

Connect the camera to the power adapter and plug it into a power outlet. The camera will initiate a self-calibration sequence.

Video Description: This video demonstrates the unboxing and initial power-on process of the BoyKeep K11 camera. It shows connecting the power cable and the camera performing its self-calibration, rotating to scan its environment.

2. App Download and Installation

Download the 'BoyKeep' app from the App Store (iOS) or Google Play Store (Android). Scan the QR code provided in the user manual or search directly for 'BoyKeep'.

| 1.Download APP | 2.Press and hold the reset button until it sounds | 3.Scan the QR Code | 4.Connect Successfully |

Image Description: A visual guide showing four steps to connect the camera: 1. Download the app, 2. Press and hold the reset button, 3. Scan the QR code, 4. Connect successfully.

3. Device Pairing

1. Open the BoyKeep app and register an account if you haven't already.
2. Select 'Add Device' and choose the K11 model (Lightbulb Cam).
3. Follow the in-app instructions to connect to your 2.4G Wi-Fi network. Ensure your Wi-Fi password is correct.
4. The app will generate a QR code. Present this QR code to the camera lens (4 to 12 inches away) until you hear a 'beep-beep' sound, indicating successful pairing.

4. Mounting Options

The camera can be placed on a flat surface or mounted on a wall or ceiling. Ensure the camera is positioned to cover the desired surveillance area. For outdoor use, place the camera in a sheltered area to protect it from direct weather exposure.

Image Description: This image displays various mounting options for the BoyKeep K11 camera, including tabletop, ceiling, and wall mounting, demonstrating its versatile placement.

Weather Protection: Sheltered Operation Required

To extend your Bulb Camera's life, keep it sheltered. It's meant for dry areas, so avoid placing it where it could get rained on. Using a lampshade or putting it under an eave will help maintain its performance and durability. Protect your investment by ensuring the camera stays dry.

Image Description: A notice illustrating the importance of sheltered operation for the camera. It shows correct placement under an eave and incorrect placement directly exposed to rain, emphasizing durability and performance.

OPERATING INSTRUCTIONS
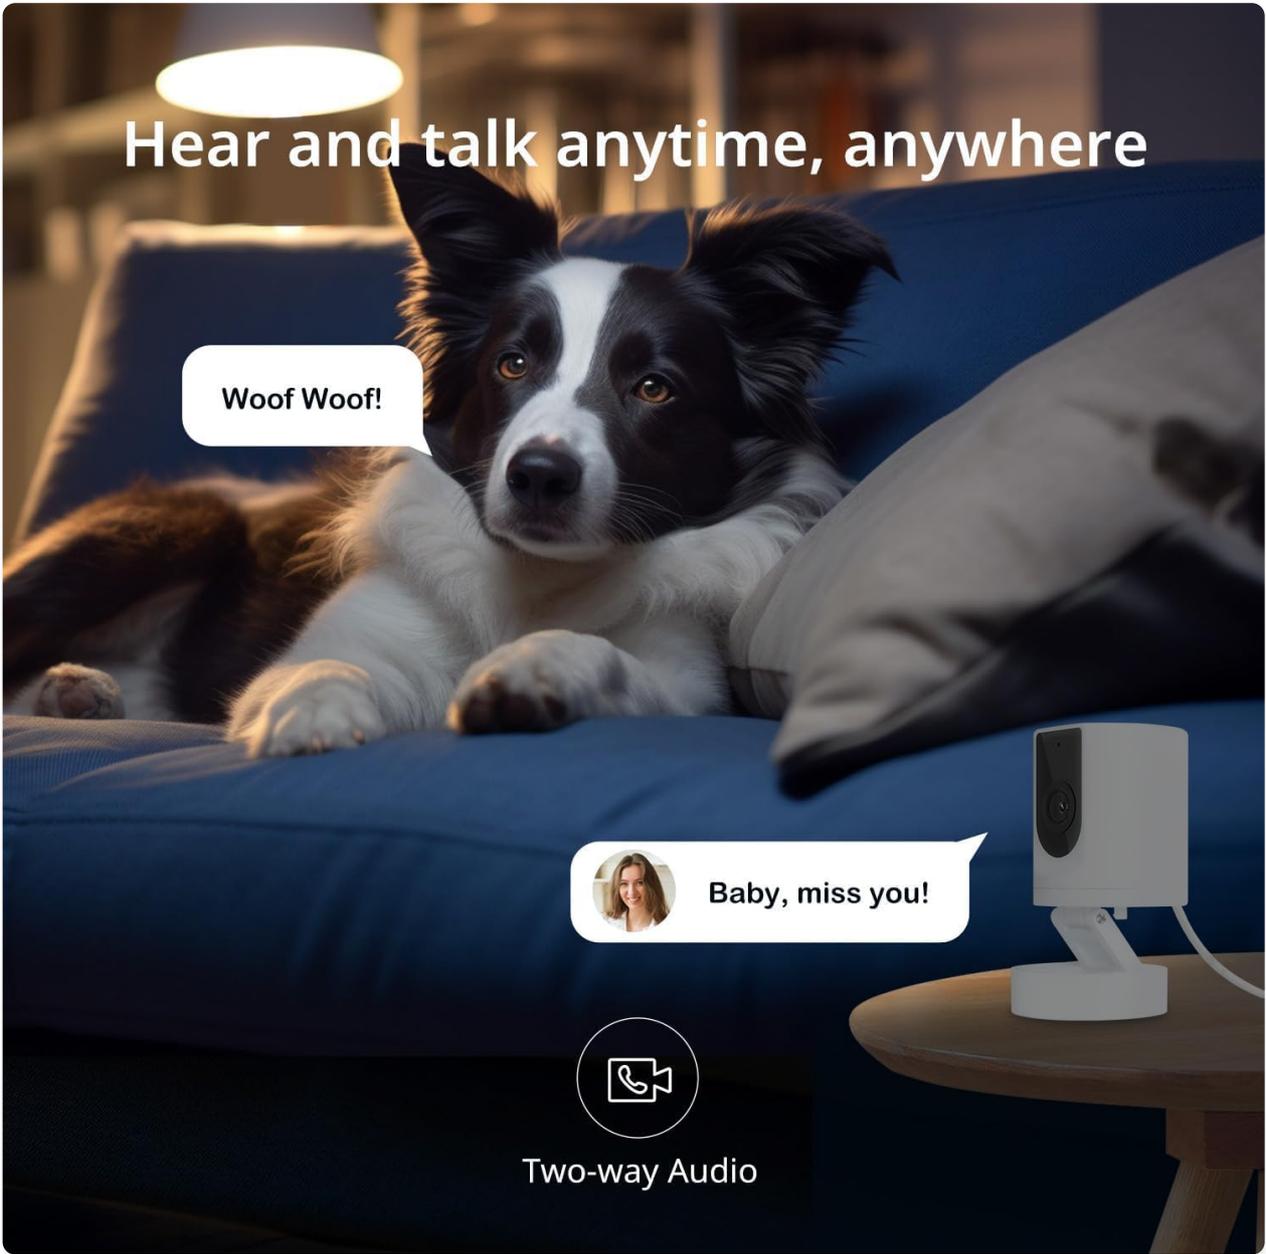

1. Live View and PTZ Control

Once connected, access the live feed through the BoyKeep app. Use the on-screen controls to pan (355° horizontal) and tilt (60° vertical) the camera for a comprehensive view of your space. Digital zoom is also available.

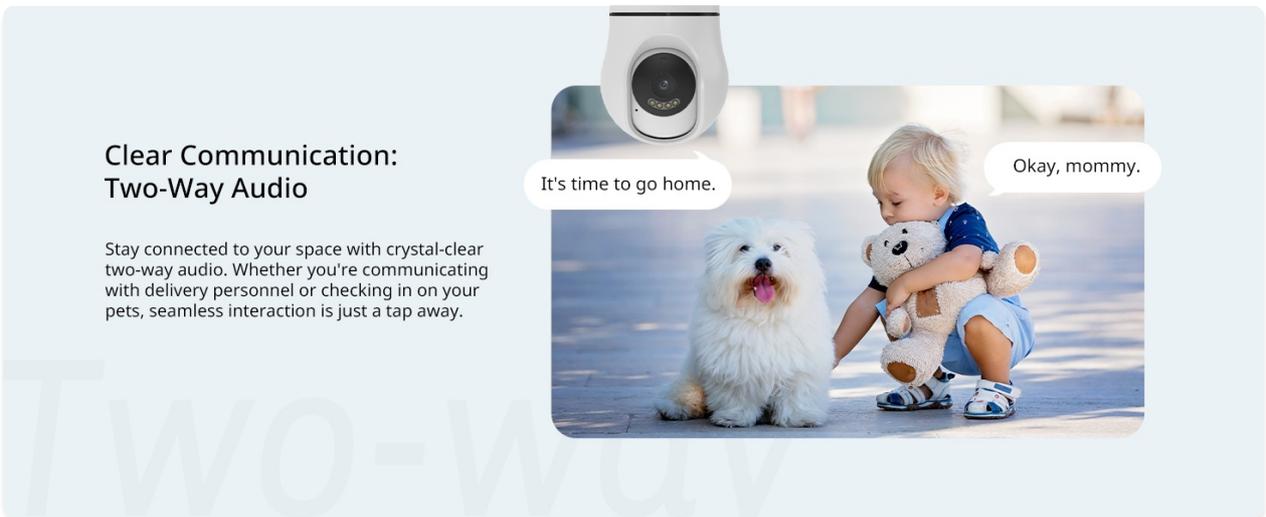

Image Description: An illustration showing the 360-degree pan and tilt capabilities of the camera, providing all-round coverage without blind spots.

2. Two-Way Audio

The camera features a built-in microphone and speaker, allowing for two-way communication. Tap the microphone icon in the app to speak through the camera, and listen to audio from the camera's surroundings.

Image Description: A visual representation of the two-way audio feature, showing a dog saying "Woof Woof!" and a person responding "Baby, miss you!" through the camera.

Image Description: This image highlights the clear communication of the two-way audio, showing a child and a dog interacting with a parent's voice message, "It's time to go home."

3. Motion Detection and Tracking

Enable motion detection in the app settings to receive real-time alerts on your smartphone when movement is detected. The camera can also automatically track detected motion.

Image Description: An image demonstrating the motion tracking feature, with a dog running in a yard and yellow boxes highlighting its movement as the camera follows.

4. Night Vision

The K11 camera offers both clear night vision (black and white) and color night vision, ensuring visibility even in low-light conditions. The light can be activated manually via the app.

Color Night Vision: Vibrant Nighttime Views

Experience night surveillance in full color. Our Color Night Vision feature brings night scenes to life with vivid and accurate hues.

Image Description: A scene of an outdoor patio at night, illuminated by string lights, showcasing the camera's color night vision capability.

Clear Night Vision: Nighttime Clarity

Feel secure around the clock with crystal-clear night vision. Enhanced visibility for full protection even in the dead of night.

Image Description: A black and white image of a dog looking at food on a table, demonstrating the camera's clear night vision in monochrome.

5. Recording and Storage

The camera supports local storage via a MicroSD card (not included) for continuous recording or event-triggered recordings. Cloud storage options are also available through a subscription service.

Image Description: This image illustrates the recording capabilities of the camera, showing options for cloud storage and memory card storage, with a filmstrip overlay of recorded moments.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid using harsh chemicals or abrasive cleaners.
- **Software Updates:** Regularly check the BoyKeep app for firmware updates to ensure your camera has the latest features and security enhancements.
- **Power Cycle:** If the camera experiences issues, try unplugging it from the power source for 10 seconds and then plugging it back in.

TROUBLESHOOTING

- **Camera not connecting to Wi-Fi:** Ensure your Wi-Fi network is 2.4G (the camera supports 5G, but some users report better stability on 2.4G). Verify the Wi-Fi password is correct. Try resetting the camera by holding the reset button for 30 seconds.
- **No live view:** Check your internet connection and ensure the camera is powered on. Restart the app.

- **Motion alerts not received:** Verify motion detection is enabled in the app settings and that app notifications are allowed on your phone.
- **Poor video quality:** Ensure your Wi-Fi signal is strong. Adjust video resolution settings in the app if necessary.
