Ohniyou GLX066

Ohniyou 58" Low Profile Ceiling Fan with Light Instruction Manual

Model: GLX066

1. Product Overview

The Ohniyou 58" Low Profile Ceiling Fan with Light (Model GLX066) is designed for both indoor and covered outdoor spaces, offering efficient air circulation and adjustable lighting. It features a reversible DC motor for all-season comfort, dimmable LED lights with adjustable color temperature, and multiple control methods including a remote and a mobile application.

Figure 1: Ohniyou 58" Low Profile Ceiling Fan with Light.

Key Features:

- **Efficient DC Motor:** Provides powerful airflow with quiet operation (less than 30dB noise level) and improved energy efficiency.
- **Reversible Function:** Allows for downward airflow in summer for cooling and upward airflow in winter for better air circulation.
- **Dimmable LED Light:** Integrated LED light with adjustable color temperature (3000K-6000K) and brightness (10%-100%). Features lighting memory.
- **Multiple Control Options:** Conveniently control the fan and light using the included remote control or a dedicated mobile application.
- **Durable Design:** Features matte black blades and a brushed gold finish, suitable for various modern room styles.

2. Safety Information

Please read and understand all instructions before beginning installation. Improper installation can lead to electric shock, fire, or personal injury. Always ensure the power is disconnected at the circuit breaker before working on the fan.

- Ensure all electrical connections comply with local codes and ordinances.
- Mount the fan only to an outlet box marked "Acceptable for Fan Support of 35 lbs (15.9 kg) or less."
- Do not bend the blade holders during installation or cleaning.
- Keep hands clear of fan blades when the fan is operating.
- This fan operates on 110 Volts (AC) and has a wattage of 63 watts.

3. Package Contents

Verify that all components are present and undamaged before proceeding with installation.

Video: Detailed Installation Guide for Ohniyou 58 Inch Ceiling Fan with Light. This video demonstrates each step of the assembly and mounting process.

Assembly Steps:

1. **Remove Motor Screws:** Remove all 7 screws from the top of the fan motor.
2. **Remove Hanging Plate:** Remove 2 screws from the bottom of the motor to detach the hanging plate.
3. **Secure Metal Cover:** Pass wires through the metal cover and secure it to the motor using the screws removed in Step 1.
4. **Attach Fan Blades:** Unscrew the screws underneath the motor and secure the 5 fan blades using these screws. Ensure blades are firmly attached.
5. **Install Metal Plate for Light:** Remove one screw from the light attachment area and loosen the other two. Insert the metal plate for the light and tighten the screws back.

6. **Wire LED Light Plate:** Connect the wires for the LED light plate and attach it magnetically to the metal plate.
7. **Connect Remote Receiver:** Connect the remote receiver to the fan's internal wiring.

Mounting Steps:

8. **Attach Hanging Plate to Ceiling:** Secure the hanging plate to the ceiling using the included tapping screws (for wood ceiling) or expansion screws (for concrete ceiling).
9. **Hang Fan and Connect Wiring:** Temporarily hang the fan on the hanging plate using the included S-hooks. Connect the remote receiver to your home's electrical circuit according to the wire labels (Live, Neutral, Ground).
10. **Secure Fan to Ceiling:** After wiring, snap the fan onto the screws of the hanging plate and tighten the 4 screws to secure the fan in place.
11. **Attach Light Cover:** Attach the light cover by rotating it clockwise until it locks securely. (Gloves can be removed for this step for better grip).

5. Operating Instructions

Your Ohniyou ceiling fan can be controlled via the included remote or a mobile application.

Remote Control Functions:

Figure 2: Remote Control Layout and Functions.

- **Power On/Off:** Use the dedicated buttons to turn the fan and light on or off.
- **Fan Speed:** Select from 6 fan speeds (1-6) for desired airflow.
- **Reversible Motor:** Switch between forward (summer) and reverse (winter) modes.
- **Light Brightness:** Adjust light brightness from 10% to 100%.
- **Color Temperature:** Change light color from warm (3000K) to neutral (4500K) to cold (6000K).
- **Natural Wind Mode:** Activates a fluctuating fan speed to simulate natural breeze.
- **Timer:** Set a timer for the fan to automatically turn off (e.g., 1H, 2H, 4H).
- **Night Light:** Activates a low-brightness setting suitable for nighttime.
- **Button Sound Switch:** Toggle remote button sounds on/off.

Mobile Application Control:

The fan can also be controlled via a dedicated mobile application. Scan the QR code or visit the provided URL to download the "FanLamp Pro" app.

Video: How to Download and Connect to the FanLamp Pro App. This video guides you through the app setup and pairing process.

Follow the in-app instructions to pair your fan. The app allows for comprehensive control over fan speeds, light settings, and other features.

6. Maintenance and Care

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Clean the fan blades and motor housing regularly with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Blade Balance:** If the fan wobbles, check that all blade screws are tightened. Ensure blades are not bent or damaged.
- **Light Cover:** Periodically check that the light cover is securely twisted into place.

7. Troubleshooting

If you encounter issues with your fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not operate.	No power to the fan; loose wire connections; remote battery low.	Check circuit breaker; ensure all wires are securely connected; replace remote batteries.
Fan wobbles.	Loose blade screws; unbalanced blades; improper mounting.	Tighten all blade screws; ensure blades are not bent; verify secure mounting to ceiling.
Light does not work.	Loose light wire connection; light cover not properly installed; LED plate issue.	Check light wire connections; ensure light cover is securely twisted; re-attach LED plate.
Remote not responding.	Low remote battery; remote not paired; interference.	Replace remote batteries (AAA 1.5V); re-pair remote with fan (refer to manual); reduce interference.

8. Specifications

Detailed technical specifications for the Ohniyou 58" Low Profile Ceiling Fan.

Feature	Specification
Brand	Ohniyou
Model Name	GLX066
Color	Black
Electric Fan Design	Ceiling Fan
Power Source	DC Powered
Product Dimensions	58"D x 58"W x 13"H
Number of Blades	5
Blade Material	Plastic
Light Type	LED
Wattage	63 watts
Voltage	110 Volts (AC)
Noise Level	30 dB
Control Method	Remote
Indoor/Outdoor Usage	Indoor (Covered Outdoor Areas)
