Tonfarb 55393

Tonfarb Inflatable Camping Mat with Foot Pump

Model: 55393

INTRODUCTION

Thank you for choosing the Tonfarb Inflatable Camping Mat. This manual provides essential information for the safe and efficient use of your new camping mat. Designed for comfort and portability, this mat features a built-in foot pump, 12cm thickness, and a durable, waterproof construction, making it ideal for various outdoor activities.

SAFETY INFORMATION

- Use this air mattress with caution to avoid the risk of suffocation.
- Observe the maximum weight capacity of 500 kg (1100 lbs).
- Carefully follow all inflation and deflation instructions to prevent damage or injury.
- Keep away from sharp objects and open flames.
- Do not overinflate the mat.

WHAT'S IN THE BOX

- 1 x Tonfarb Inflatable Camping Mat with Integrated Foot Pump
- 1 x Carrying Bag

SETUP: INFLATION INSTRUCTIONS

Your Tonfarb camping mat features a convenient built-in foot pump for quick inflation.

1. **Prepare the Mat:** Unroll the camping mat on a flat, clear surface. Ensure the mat is fully extended.
2. **Close Air Release Valve:** Locate the air release valve (usually near the pillow section) and ensure it is securely closed before beginning inflation. This prevents air from escaping during pumping.
3. **Open Foot Pump Valve:** Locate the foot pump valve at the opposite end of the mat. Open this valve.
4. **Inflate with Foot Pump:** Place your foot over the open foot pump valve and press down repeatedly. The mat will begin to inflate. Continue pumping until the mat reaches your desired firmness. This typically takes about 60 seconds.
5. **Close Foot Pump Valve:** Once inflated, securely close the foot pump valve to prevent air leakage.

COME GONFIARE

Chiudere la valvola dell'aria accanto al cuscino prima di gonfiarlo.

Aprire la valvola di gonfiaggio all'estremità e premere continuamente con il piede.

Chiudere ermeticamente la valvola di gonfiaggio dopo che è stata completamente gonfiata.

COME CONSERVARE

Aprire la valvola di scarico accanto al cuscino.

Premere l'aria dalla pompa a pedale verso il cuscino.

Arrotolare il materassino. Metterlo nella borsa per riporre.

OPERATING THE MAT

The Tonfarb camping mat is designed for optimal comfort and versatility in various outdoor settings.

Comfort and Support

With its 12cm thickness and integrated pillow, the mat provides excellent ergonomic support, keeping you elevated from the ground for a restful sleep. The firmness can be adjusted by slightly opening the foot pump valve to release a small amount of air until your preferred comfort level is reached.

Connecting Multiple Mats

For a larger sleeping area, two Tonfarb camping mats can be easily connected using the integrated snap buttons along the sides. Simply align the mats and press the snaps together to form a double bed.

MAINTENANCE

To ensure the longevity of your Tonfarb camping mat, follow these simple maintenance guidelines:

- **Cleaning:** Clean the mat with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners.
- **Drying:** Allow the mat to air dry completely before storing to prevent mold or mildew. Do not expose to direct sunlight for extended periods.
- **Inspection:** Regularly inspect the mat for any signs of wear, punctures, or damage. Address small punctures promptly with a repair kit (not included) to prevent them from worsening.

STORAGE: DEFLATION AND PACKING

Proper deflation and storage will keep your mat in excellent condition and ready for your next adventure.

1. **Open Air Release Valve:** Locate and open the large air release valve, typically near the pillow section, to allow air to escape quickly.
2. **Expel Air:** Begin rolling the mat tightly from the end opposite the open valve. As you roll, press down to force out any remaining air. You can also press on the mat with your hands or knees to help expel air.
3. **Securely Roll:** Continue rolling until all air is expelled and the mat is compact.
4. **Store in Bag:** Place the rolled mat into the provided carrying bag.

The mat folds into a compact size of approximately 11 x 15 x 31 cm (4.3 x 5.9 x 12.2 inches) and weighs only 1.1 kg (2.4 lbs), making it easy to store and transport.

COME GONFIARE

1

Chiudere la valvola dell'aria accanto al cuscino prima di gonfiarlo.

2

Aprire la valvola di gonfiaggio all'estremità e premere continuamente con il piede.

3

Chiudere ermeticamente la valvola di gonfiaggio dopo che è stata completamente gonfiata.

COME CONSERVARE

1

Aprire la valvola di scarico accanto al cuscino.

2

Premere l'aria dalla pompa a pedale verso il cuscino.

3

Arrotolare il materassino.

4

Metterlo nella borsa per riporre.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mat does not inflate or inflates slowly.	Air release valve is open; Foot pump valve is not fully open; Obstruction in pump mechanism.	Ensure the air release valve is securely closed. Fully open the foot pump valve. Check for any debris blocking the pump intake.
Mat loses air quickly.	Valves not securely closed; Puncture or leak in the mat.	Ensure both the air release and foot pump valves are tightly sealed. Inspect the mat for punctures. Use soapy water to locate leaks and repair with a patch kit.
Difficulty rolling up the mat.	Air not fully expelled.	Ensure the air release valve is fully open. Roll tightly from the end opposite the valve, pressing firmly to expel all air.
