GKUTW HX100P7

GKUTW 200W GaN III 8-Port USB C/A Fast Charging Station Instruction Manual

Brand: GKUTW | **Model:** HX100P7

INTRODUCTION

Thank you for choosing the GKUTW 200W GaN III 8-Port Fast Charging Station. This device is designed to provide efficient and simultaneous charging for multiple electronic devices, including laptops, smartphones, and tablets. Featuring advanced GaN III technology, it offers high power output in a compact form factor, ensuring faster charging with enhanced safety and heat dissipation.

This manual provides essential information for the safe and optimal use of your charging station. Please read it thoroughly before operation and retain it for future reference.

WHAT'S IN THE BOX

- USB C Fast Charging Station (8 Ports)
- Power Cord (1.5M / 5F)
- User Manual

PRODUCT OVERVIEW

The GKUTW 200W GaN III 8-Port Fast Charging Station is a versatile power hub designed to streamline your charging needs. It features a total of eight ports, including four USB-C and four USB-A ports, allowing for simultaneous charging of various devices.

8 in 1 Fast Charging Station

200W

GaN3 Total Power

Image 1: Front view of the GKUTW 200W GaN III 8-Port Fast Charging Station, highlighting the four USB-C ports (PD 65W, 20W, 20W, 20W) and four USB-A ports (QC 15W, 15W, 15W, 15W), along with the detachable power cord. The total power output is 200W.

1.5M / 5FT

Small size

Super Fast USB Charging Smaller
But more Powerful

Image 4: The charging station actively charging a laptop and a smartphone, illustrating its high power output and multiple ports in a practical setting. Key features like 200W Charger Station, PD 3.0 & QC 3.0 Fast Charger, Intelligent IC control chip, and 8-Ports Output are highlighted.

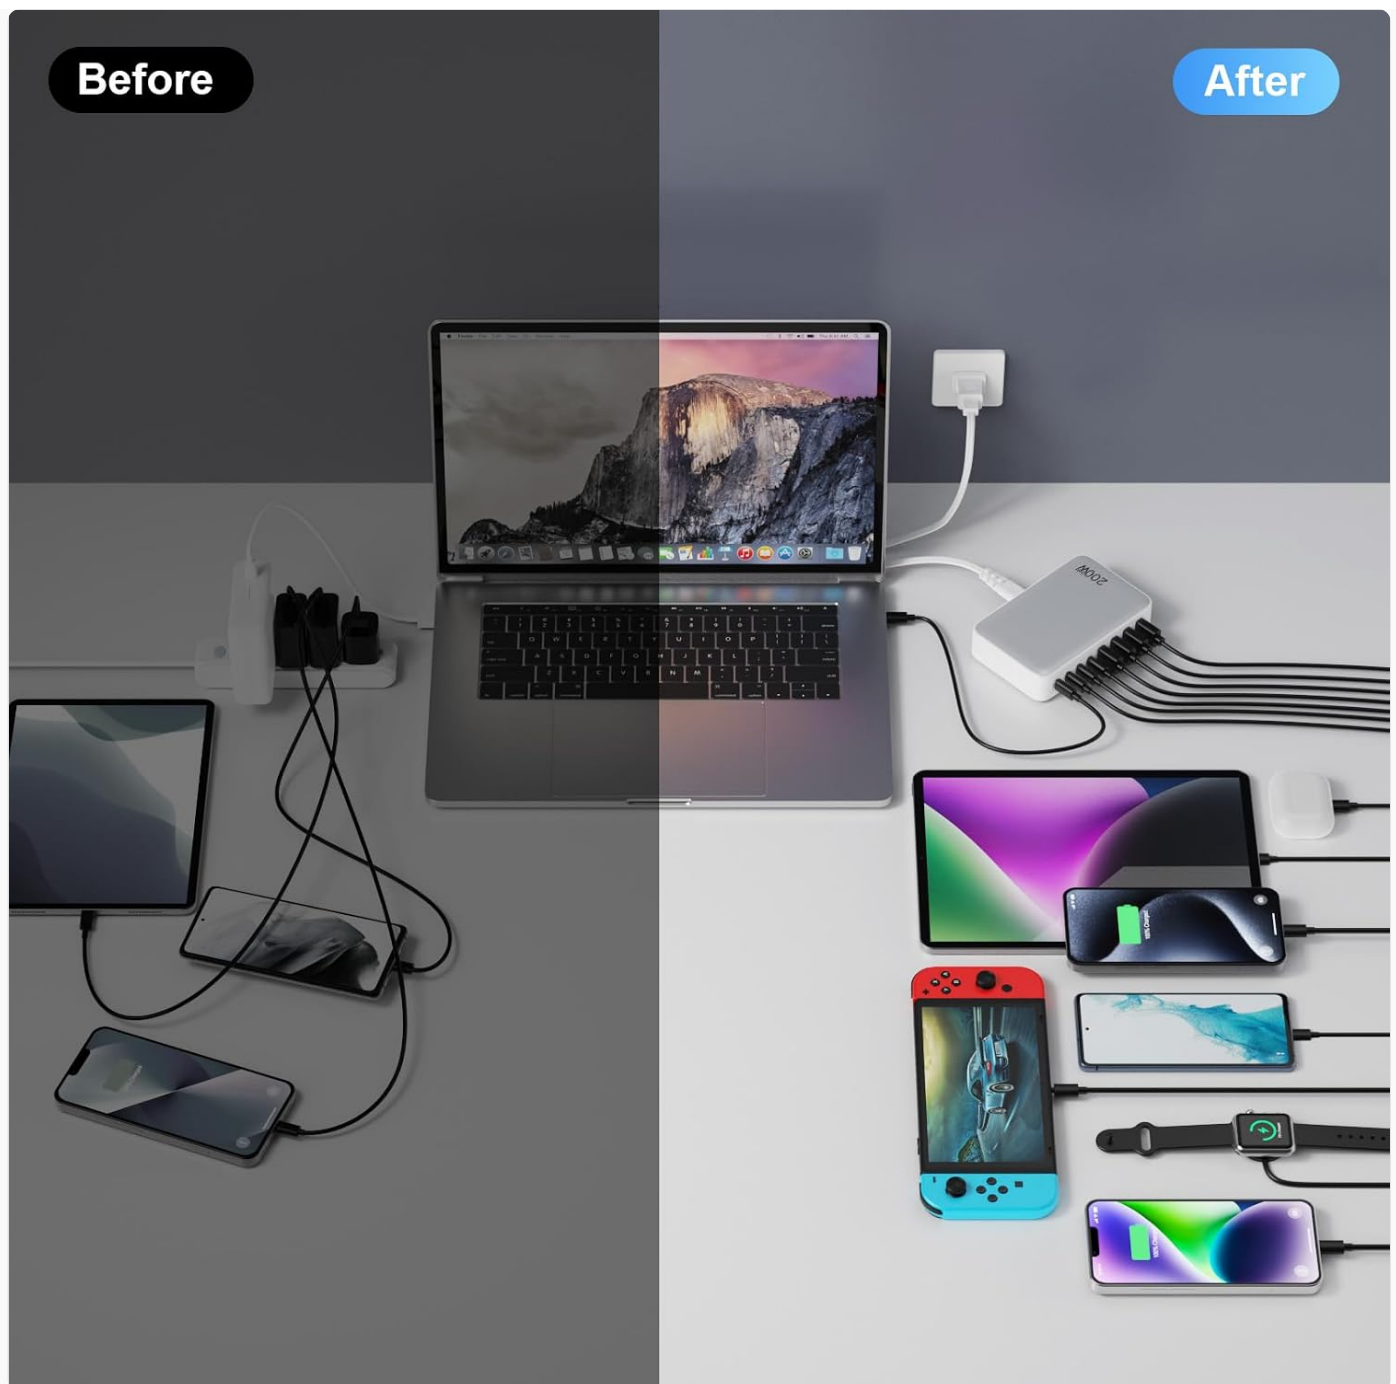

Image 5: A close-up of the charging station's LED indicator light, which illuminates when devices are powered on. The image also demonstrates its compact size, showing it is significantly smaller than carrying multiple individual wall chargers, making it ideal for travel and space-saving.

Image 6: A visual comparison illustrating the benefit of the charging station: a "Before" image shows a cluttered desk with multiple individual chargers, while an "After" image displays a neat setup with the single GKUTW 200W GaN III 8-Port Fast Charging Station powering several devices.

SETUP INSTRUCTIONS

1. **Unpack the Charging Station:** Carefully remove the GKUTW 200W GaN III 8-Port Fast Charging Station, power cord, and user manual from the packaging.
2. **Connect the Power Cord:** Insert the included 1.5M (5ft) power cord into the power input port on the back of the charging station.
3. **Plug into a Power Outlet:** Connect the other end of the power cord to a standard AC 100-240V, 50-60Hz wall outlet. Ensure the outlet is easily accessible.
4. **Verify Power:** A blue LED indicator light on the charging station will illuminate, confirming that the unit is powered on and ready for use.
5. **Placement:** Place the charging station on a stable, flat surface, away from direct sunlight, heat sources, and liquids.

The non-slip backing helps keep it secure.

OPERATING INSTRUCTIONS

The GKUTW 200W GaN III 8-Port Fast Charging Station features intelligent power distribution across its eight ports. It is designed to charge multiple devices simultaneously at their optimal speeds without power sharing or disconnection issues.

Port Configuration:

- **4 x USB-C Ports (PD):** These ports support Power Delivery (PD) for fast charging compatible devices.
 - One USB-C port delivers up to **65W**, ideal for charging laptops like MacBook Pro/Air, Dell XPS, and Microsoft Surface.
 - The remaining three USB-C ports deliver up to **20W each**, suitable for fast charging smartphones (e.g., iPhone 15/14 series, Samsung Galaxy S23/S22 series) and tablets (e.g., iPad Pro/Air).
- **4 x USB-A Ports (QC):** These ports support Quick Charge (QC) for compatible devices.
 - One USB-A port delivers up to **30W**.
 - The remaining three USB-A ports deliver up to **15W each**, suitable for charging a wide range of USB-A powered devices, including older smartphones, smartwatches, headphones, and other accessories.

Charging Your Devices:

1. Identify the correct cable type (USB-C or USB-A) for your device.
2. Connect one end of the charging cable to your device and the other end to the appropriate port on the charging station.
3. The charging station will automatically detect your device and deliver the optimal charging speed.
4. You can charge up to eight devices simultaneously. The intelligent GaN III chip ensures stable and efficient power distribution across all active ports.

SPECIFICATIONS

Feature	Detail
Brand	GKUTW
Model Number	HX100P7
Total USB Ports	8 (4x USB-C, 4x USB-A)
Total Wattage	200W
USB-C Output (PD)	1x 65W, 3x 20W
USB-A Output (QC)	1x 30W, 3x 15W
Technology	GaN III Chip Technology

Feature	Detail
Input Voltage	AC 100-240V, 50-60Hz
Dimensions	5.59 x 5.59 x 1.61 inches
Item Weight	0.176 ounces
Color	A-White
Special Features	Fast Charging, Charging Indicator, Short Circuit Protection, Over Voltage Protection, Over Current Protection, Over Discharge Protection

Safety Information

- Do not expose the charging station to liquids, moisture, or extreme temperatures.
- Avoid dropping or subjecting the device to strong impacts.
- Do not disassemble, modify, or attempt to repair the unit yourself. This will void the warranty and may cause electric shock or fire.
- Use only the provided power cord or a certified replacement.
- Ensure proper ventilation around the charging station during use. Do not cover it with cloths or other materials.
- Keep out of reach of children.
- Unplug the charging station from the wall outlet when not in use for extended periods or during electrical storms.

Maintenance

- To clean the charging station, unplug it from the power outlet and use a soft, dry cloth. Do not use liquid cleaners or aerosols.
- Regularly check the power cord and charging cables for any signs of damage. Replace damaged cables immediately.
- Store the device in a cool, dry place when not in use.

Troubleshooting

- **Device not charging:**
 - Ensure the charging station is properly plugged into a live wall outlet and the LED indicator is on.
 - Check if the charging cable is securely connected to both the device and the charging station.
 - Try a different charging cable or port to rule out a faulty cable or port.
 - Verify that your device is compatible with the charging station's output specifications.
- **Slow charging:**
 - Ensure you are using a fast-charging compatible cable.
 - For optimal speed, use the higher wattage USB-C (65W) or USB-A (30W) ports for power-intensive devices like laptops.
 - Some devices may limit charging speed if they are too hot or too cold.
- **Charging station feels warm:**

- It is normal for the charging station to become warm during operation, especially when charging multiple devices or high-power devices.
- If it becomes excessively hot, disconnect all devices and unplug the unit. Ensure it is placed in a well-ventilated area.

WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the contact details provided in your product packaging or visit the official GKUTW website. Keep your purchase receipt as proof of purchase for warranty claims.
