Ymimi 304087001

Ymimi Replacement Filter Instruction Manual

For Hoover Wind Tunnel XL Pet Bagless Upright Vacuums

1. Product Overview

This manual provides instructions for the Ymimi Replacement Filter, designed for use with Hoover Wind Tunnel XL Pet Bagless Upright Vacuum Cleaners. These filters are crucial for maintaining optimal vacuum performance and air quality. The package includes two replacement filters, part number 304087001.

2. Compatibility

The Ymimi Replacement Filter is compatible with the following Hoover Wind Tunnel XL Pet Bagless Upright Vacuum models:

- UH71107
- UH71105
- UH71105DI
- UH71100
- UH71120
- UH72625
- UH71250
- UH72630
- UH72615
- UH71012
- UH70605
- UH71214
- UH70800 Series

This filter replaces Hoover Part 304087001.

3. Installation Instructions

Follow these steps to replace the filter in your Hoover Wind Tunnel XL Pet Bagless Upright Vacuum:

1. **Power Off and Unplug:** Before beginning, ensure your vacuum cleaner is turned off and unplugged from the power outlet to prevent accidental operation.
2. **Locate Filter Compartment:** Refer to your vacuum cleaner's original manual to locate the filter compartment. This is typically found near the dust cup.
3. **Remove Old Filter:** Open the filter compartment and carefully remove the old, dirty filter. Dispose of the old filter responsibly.
4. **Insert New Filter:** Place the new Ymimi replacement filter into the compartment. Ensure it is seated correctly and securely. The filter has a diameter of approximately 5.59 inches and a height of 0.74 inches.
5. **Close Compartment:** Close the filter compartment securely.
6. **Test Vacuum:** Plug in your vacuum cleaner and turn it on to ensure proper operation.

4. Maintenance

Regular maintenance of your filter ensures optimal vacuum performance and extends the life of your appliance.

- **Cleaning:** The Ymimi replacement filters are washable and reusable. To clean, gently rinse the filter under running water until the water runs clear.
- **Drying:** Allow the filter to air dry completely for at least 24 hours before reinserting it into the vacuum cleaner. Do not use a dryer or heat source, as this can damage the filter material.
- **Replacement Frequency:** For optimal performance, it is recommended to replace the vacuum filter every 3 to 6 months, depending on usage.

5. Troubleshooting

If you experience issues after replacing your filter, consider the following:

- **Reduced Suction:** Ensure the filter is completely dry before reinstallation. A damp filter can restrict airflow. Also, check that the filter is seated correctly and the compartment is sealed.
- **Unusual Noises:** Verify that the filter is installed properly and not obstructing any moving parts within the vacuum.
- **Filter Does Not Fit:** Double-check the compatibility list in Section 2 to ensure your vacuum model is supported. The filter dimensions are approximately 5.59 inches in diameter and 0.74 inches in height.

6. Specifications

Feature	Detail

Feature	Detail
Brand	Ymimi
Material	Foam
Compatible Devices	Hoover Wind Tunnel XL Pet Bagless Upright Vacuum
Product Dimensions (L x W x H)	5.59" x 5.59" x 0.74"
