

TOSY Flying Ring 12 LEDs Super Bright

TOSY Flying Ring LED Instruction Manual

Model: Flying Ring 12 LEDs Super Bright

1. INTRODUCTION

Thank you for choosing the TOSY Flying Ring LED. This innovative flying ring is designed for fun and engaging play, day or night, indoors or outdoors. Featuring super bright LEDs, a soft rim for comfortable handling, and a waterproof design, it offers a unique experience for users aged 5 and above. Please read this manual carefully to ensure proper use and maintenance of your product.

2. PRODUCT OVERVIEW

The TOSY Flying Ring LED is equipped with 12 super bright LEDs that illuminate automatically when thrown. Its lightweight and balanced design ensures straight flights up to 100 feet. The soft rim provides a comfortable grip and safe play. The ring is also waterproof and floatable, making it suitable for various environments.

3. SAFETY INFORMATION

- Always ensure a clear throwing and catching area to avoid injury to people or damage to property.
- Do not aim the flying ring at faces or eyes.
- Keep away from open flames or extreme heat sources.
- Not suitable for children under 5 years old due to small parts (battery compartment).
- Playing with dogs is not recommended as it may damage the product.
- Dispose of used batteries responsibly according to local regulations.

4. SETUP

The TOSY Flying Ring LED comes with an included battery. Before first use, ensure the battery is properly seated in its compartment. The ring is ready for use out of the box.

5. OPERATING INSTRUCTIONS

5.1 Activating the LEDs

The flying ring features an automatic light-up function. The LEDs will turn on when the ring is thrown and turn off when it is stationary to conserve battery life. There are also control buttons on the back of the ring to manually adjust light modes.

5.2 Changing Light Modes

Locate the control buttons on the back of the ring. Pressing the 'Color' button once will activate a single color mode (e.g., blue). Pressing it a second time will activate a color-changing mode. The lights also change colors as the ring is thrown, creating dynamic visual effects.

5.3 Throwing and Catching

Hold the ring with the soft rim facing outwards. For optimal flight, throw the ring with a smooth, level motion. The lightweight and balanced design allows for straight and long-distance throws. The soft rim makes catching comfortable for all ages.

5.4 Lost Mode

The glow-in-the-dark rim and bright LEDs assist in locating the ring in low-light conditions if it lands out of sight.

6. MAINTENANCE

6.1 Cleaning

To clean your TOSY Flying Ring LED, wipe it with a damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the battery compartment is securely closed before cleaning, especially if submerging in water.

6.2 Battery Replacement

The included battery is designed to last up to 4000 throws. When the lights dim or stop working, the battery may need replacement. Follow the instructions provided on the product or packaging for easy battery replacement. Ensure to use the correct battery type as specified by the manufacturer.

7. TROUBLESHOOTING

- **Lights not turning on:** Check if the battery is correctly installed. If the battery is old, replace it with a new one. Ensure the control buttons are pressed correctly.
- **Poor flight performance:** Ensure the ring is thrown with a smooth, level motion. Check for any damage or deformities on the rim that might affect aerodynamics.
- **Water leakage:** While the product is waterproof, ensure the battery compartment is always securely sealed before exposure to water. If water enters, open the compartment, dry thoroughly, and replace the battery if necessary.

8. SPECIFICATIONS

- **LEDs:** 12 Super Bright LEDs
- **Flight Distance:** Up to 100 feet
- **Material:** Soft, durable rim
- **Features:** Auto Light-Up, Lost Mode, Waterproof, Floatable
- **Battery Life:** Approximately 4000 throws (replaceable)
- **Recommended Age:** 5+ years
