

VRURC T1173

VRURC Portable Charger with Built-in Cables (Model T1173)

User Instruction Manual

1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation of your VRURC Portable Charger. This 10000mAh power bank features built-in cables and 20W fast charging capabilities, designed for convenient power on the go.

2. KEY FEATURES

- **Integrated Cables:** Equipped with 3 output cables (USB-C, iPhone/Lightning, Micro USB) and 1 fast-charging input cable (USB-C), supporting a wide range of devices.
- **Fast Charging:** Delivers QC22.5W/PD20W output, capable of charging compatible phones to 60% in approximately 30 minutes. Supports simultaneous charging of up to 4 devices.
- **Quick Recharge:** The power bank can be fully recharged in approximately 2.5 hours via the built-in USB Type C cable (18W QC/PD 3.0 input) or in 6 hours using the built-in USB Type A cable (10W input).
- **Airline-Approved:** Designed to meet aviation safety standards, making it suitable for air travel.
- **Compact and Lightweight:** Measures 3.6 x 3.23 x 0.7 inches and weighs only 6.87 oz (195g) for easy portability.
- **LED Digital Display:** Provides an accurate power level indicator, showing battery percentage from 1% to 100%.
- **Safety Protections:** Includes intelligent safeguards against overcharge, overvoltage, overcurrent, short-circuits, and overtemperature.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- VRURC Portable Charger (Model T1173)
- USB-A to USB-C Charging Cable (for recharging the power bank)

- User Manual

4. SETUP AND INITIAL CHARGE

4.1 Initial Power Bank Charge

1. Before first use, fully charge your VRURC Portable Charger.
2. Locate the built-in USB Type C input cable on the power bank.
3. Connect the USB Type C cable to a compatible USB wall adapter (not included) or a USB-C port on a computer.
4. The LED Digital Display will show the charging progress. A full charge typically takes approximately 2.5 hours with an 18W QC/PD 3.0 adapter.
5. Alternatively, use the built-in USB Type A cable to recharge the power bank. This method takes approximately 6 hours.

4.2 Understanding the LED Digital Display

The integrated LED screen displays the remaining battery percentage of the power bank, from 1% to 100%. This allows you to monitor the charge level accurately.

LED Display

Accurately shows the power, even 1%

5. OPERATING INSTRUCTIONS

5.1 Charging Your Devices

The VRURC Portable Charger features multiple built-in cables and additional ports to charge various devices.

- **Using Built-in Cables:**

- Identify the correct built-in cable for your device (USB-C, iPhone/Lightning, or Micro USB).
- Gently pull out the desired cable from its storage slot on the power bank.
- Connect the cable to your device's charging port. The power bank will automatically begin charging.

- **Using External Cables (USB-A and USB-C Output Ports):**

- If your device requires a different cable or you prefer to use your own, connect your device's charging cable to the available USB-A or USB-C output port on the power bank.
- The power bank will automatically detect the device and begin charging.

The power bank supports charging up to 4 devices simultaneously using a combination of built-in cables and external ports.

5.2 Recharging the Power Bank

To recharge the power bank, use either the built-in USB Type C input cable or the built-in USB Type A cable.

- **Using Built-in USB Type C Input Cable:** Connect the USB Type C cable to a compatible wall adapter.
- **Using Built-in USB Type A Input Cable:** Connect the USB Type A cable to a compatible wall adapter or USB port.

The LED display will show the charging status. Disconnect once 100% is displayed.

6. SAFETY INFORMATION

To ensure safe operation and prolong the lifespan of your VRURC Portable Charger, please adhere to the following guidelines:

- Do not expose the power bank to extreme temperatures (hot or cold), direct sunlight, or high humidity.
- Avoid dropping, hitting, or disassembling the device.
- Keep away from water and other liquids.
- Do not use if the device is damaged or shows signs of swelling.
- Use only compatible charging cables and adapters.
- Keep out of reach of children.
- Dispose of the power bank responsibly according to local regulations.

7. TROUBLESHOOTING

Problem	Possible Solution
Power bank not charging device.	• Ensure the power bank has sufficient charge (check LED display). • Verify the charging cable is securely connected to both the power bank and the device. • Try a different built-in cable or an external cable. • Ensure your device is compatible with the power bank's output.
Power bank not recharging.	• Check if the charging cable is properly connected to a power source. • Ensure the wall adapter is functioning correctly. • Try a different wall adapter or USB port.
Slow charging.	• Ensure you are using a fast-charging compatible cable and wall adapter for optimal speed. • Charging multiple devices simultaneously may reduce individual charging speeds.

8. SPECIFICATIONS

Feature	Detail
Model Number	T1173
Battery Capacity	10000mAh
Product Dimensions	3.6 x 3.23 x 0.7 inches
Item Weight	6.87 oz (195g)
Input (USB-C)	18W (QC/PD 3.0)
Output (Built-in USB-C)	PD20W

Feature	Detail
Output (Built-in iPhone/Lightning)	PD20W
Output (Built-in Micro USB)	QC22.5W
Output (USB-A Port)	QC22.5W
