

## Connexx Charging Station B

# Connexx Charging Station B User Manual

Model: Charging Station B

## INTRODUCTION

This manual provides essential information for the safe and efficient use of your Connexx Charging Station B. Please read these instructions carefully before use and retain them for future reference.

The Connexx Charging Station B is designed to provide a stable and convenient charging solution for compatible hearing aids. It features a robust design, fast charging capabilities, and automatic on/off functionality.

## WHAT'S IN THE BOX

- Connexx Charging Station B
- 1 x Magnet
- Power Cable

## SETUP

1. Unpack all components from the box.
2. Place the charging station on a stable, flat surface near a power outlet.
3. Connect the power cable to the Mini USB port on the charging station.
4. Plug the power adapter into a standard AC power outlet.
5. The charging station is now ready for use.

## OPERATING INSTRUCTIONS

The Connexx Charging Station B is designed for ease of use with automatic features.

### Charging Your Hearing Aids

1. Ensure the charging station is connected to a power source.
2. Gently insert your compatible hearing aids into the designated slots on the charging station. The built-in magnet will help hold them in place.
3. The charging process will begin automatically. The device features an automatic on/off function.
4. A full charge typically takes approximately 4 hours. A 30-minute fast charge option is available for quick power boosts.

- Once fully charged, remove the hearing aids from the charging station.

## Automatic On/Off Feature

The charging station automatically detects when hearing aids are inserted and removed, initiating or stopping the charging process accordingly.

*Note: Always ensure your hearing aids are clean and dry before placing them in the charging station.*

## MAINTENANCE

To ensure the longevity and optimal performance of your Connexx Charging Station B, follow these simple maintenance guidelines:

- Cleaning:** Wipe the charging station regularly with a soft, dry cloth. Do not use abrasive cleaners, solvents, or immerse the unit in water.
- Storage:** When not in use, store the charging station in a cool, dry place, away from direct sunlight and extreme temperatures.
- Handling:** Handle the unit with care. Avoid dropping it or subjecting it to strong impacts.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device not charging	Power cable not connected properly; Power outlet not active; Hearing aids not seated correctly.	Ensure power cable is securely plugged into the station and outlet. Test the outlet with another device. Re-insert hearing aids, ensuring they are properly aligned with the charging contacts.
Charging takes longer than expected	Environmental factors (temperature); Hearing aid battery condition.	Ensure charging is done at room temperature. If issues persist, consult your hearing aid professional.
Hearing aids do not turn on/off automatically	Improper seating of hearing aids.	Ensure hearing aids are fully inserted and make proper contact with the charging pins.
