Smart Light Sound Machine User Manual

Model: B0CQZJS12Q

INTRODUCTION

The Smart Light Sound Machine is a versatile device designed to enhance your living space with its multi-functional capabilities. It combines an atmosphere lamp, 15W fast wireless charger, Bluetooth speaker, music player, alarm clock, natural sleep aid light, and sunrise simulation wake-up light. This manual provides detailed instructions for setup, operation, and maintenance to help you fully utilize all features of your new device.

For optimal performance and to access all functions, it is recommended to use the dedicated mobile application, HappyLighting.

PRODUCT OVERVIEW

The Smart Light Sound Machine features a distinctive G-shaped design, integrating various components for its multi-functional operation.

Figure 1: Front view of the Smart Light Sound Machine, showcasing its G-shaped light ring, central display, and wireless charging area.

Key Features:

- **Atmosphere Lamp:** Offers 16 million colors and 256 lighting modes to create various moods.
- **15W Fast Wireless Charger:** Conveniently charge compatible smartphones.
- **Bluetooth Speaker:** Connect wirelessly to play audio.
- **Time Display & Alarm Clock:** Integrated digital clock with alarm functionality.
- **Natural Sleep Aid Light & Sound Machine:** Helps relax before bedtime with customizable light and sound.
- **Sunrise Simulation Wake-Up Light:** Gradually brightens to simulate natural sunrise for a gentle wake-up.
- **App Control:** Full control over functions via the HappyLighting application.
- **Phone Answering Function:** Connect wirelessly to receive and make calls.

Figure 2: Visual representation of the device's core functionalities, highlighting its role as a health and smart life assistant.

- 1. Power Connection:** Connect the provided AC adapter to the device's power input port and plug it into a standard wall outlet. The device requires continuous power for operation.

Figure 3: The device in operation, demonstrating wireless charging and its need for a power connection.

- 2. Initial Power On:** Once connected to power, the device will automatically power on and the time display will activate.
- 3. Download App:** For full functionality, download the "HappyLighting" application from your smartphone's app store (iOS App Store or Google Play Store).
- 4. Pairing with App:**
 - Open the HappyLighting app.
 - Ensure Bluetooth is enabled on your smartphone.
 - The app should automatically detect the device. Follow the on-screen prompts to complete the pairing process.
- 5. Bluetooth Speaker Pairing:**
 - On your smartphone, go to Bluetooth settings.
 - Search for "NH-69" in the list of available devices and select it to pair.
 - A confirmation sound will indicate successful pairing.

OPERATING INSTRUCTIONS

1. Time Display & Alarm Clock

- **Setting Time:** Use the "M" button on the device or the HappyLighting app to adjust the time.
- **Setting Alarm:** Press the alarm icon button on the device or use the app to set alarm times. You can customize alarm sounds and light effects.
- **Snooze Function:** When the alarm sounds, press any button (except power) to snooze for 9 minutes.
- **Disabling Alarm:** Press and hold the alarm icon button or disable via the app.

2. Atmosphere Lamp & Lighting Modes

- **Power On/Off Light:** Use the light bulb icon button on the device or the app to turn the light on or off.
- **Changing Colors/Modes:** Access 16 million colors and 256 lighting patterns through the HappyLighting app. The app allows for precise control over brightness, color temperature, and dynamic lighting effects.
- **Sunrise Simulation Wake-Up Light:** Set a wake-up time in the app. The light will gradually brighten before your alarm time, mimicking a natural sunrise.

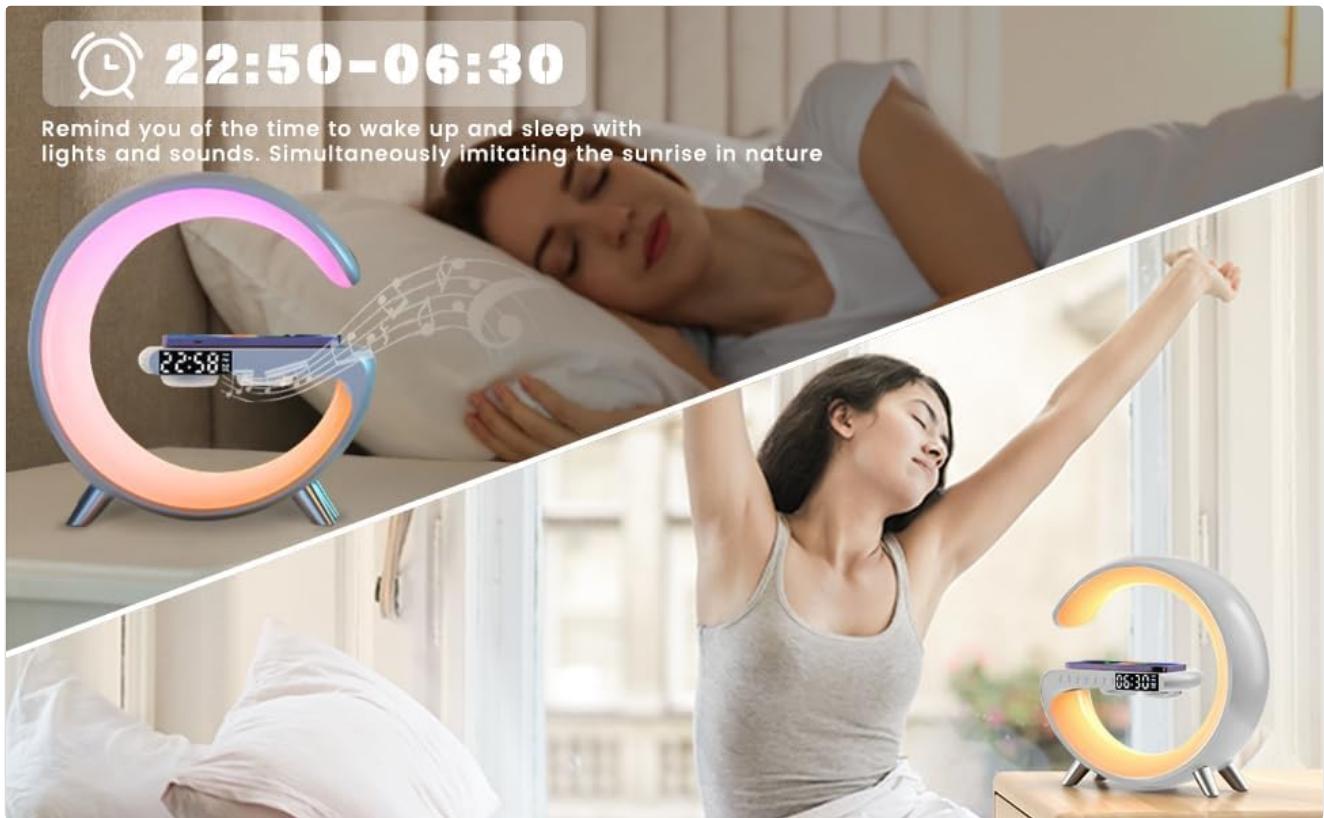

Figure 5: The device's role in facilitating sleep and wake-up cycles through light and sound.

3. Wireless Charging

- Place your Qi-compatible smartphone on the designated wireless charging pad located on the device.
- Ensure the phone is centered on the pad for optimal charging. The device supports 15W fast wireless charging.
- A charging indicator (usually on your phone screen) will confirm charging has begun.

Figure 6: Demonstrating the 15W fast wireless charging and phone answering capabilities.

4. Bluetooth Speaker & Phone Answering

- **Music Playback:** Once paired (see Setup section), play audio from your smartphone or other Bluetooth-enabled device.
- **Volume Control:** Adjust volume using your connected device or the volume buttons on the Smart Light Sound Machine.
- **Phone Calls:** When a call comes in, you can answer it directly through the device. Press the phone icon button to answer/end calls.

5. Natural Sleep Aid Sound Machine

- Utilize the HappyLighting app to select from various white noise options or other soothing sounds.
- Combine with customizable light settings to create a personalized sleep environment.
- Set a sleep timer for the light and sound to gradually fade out.

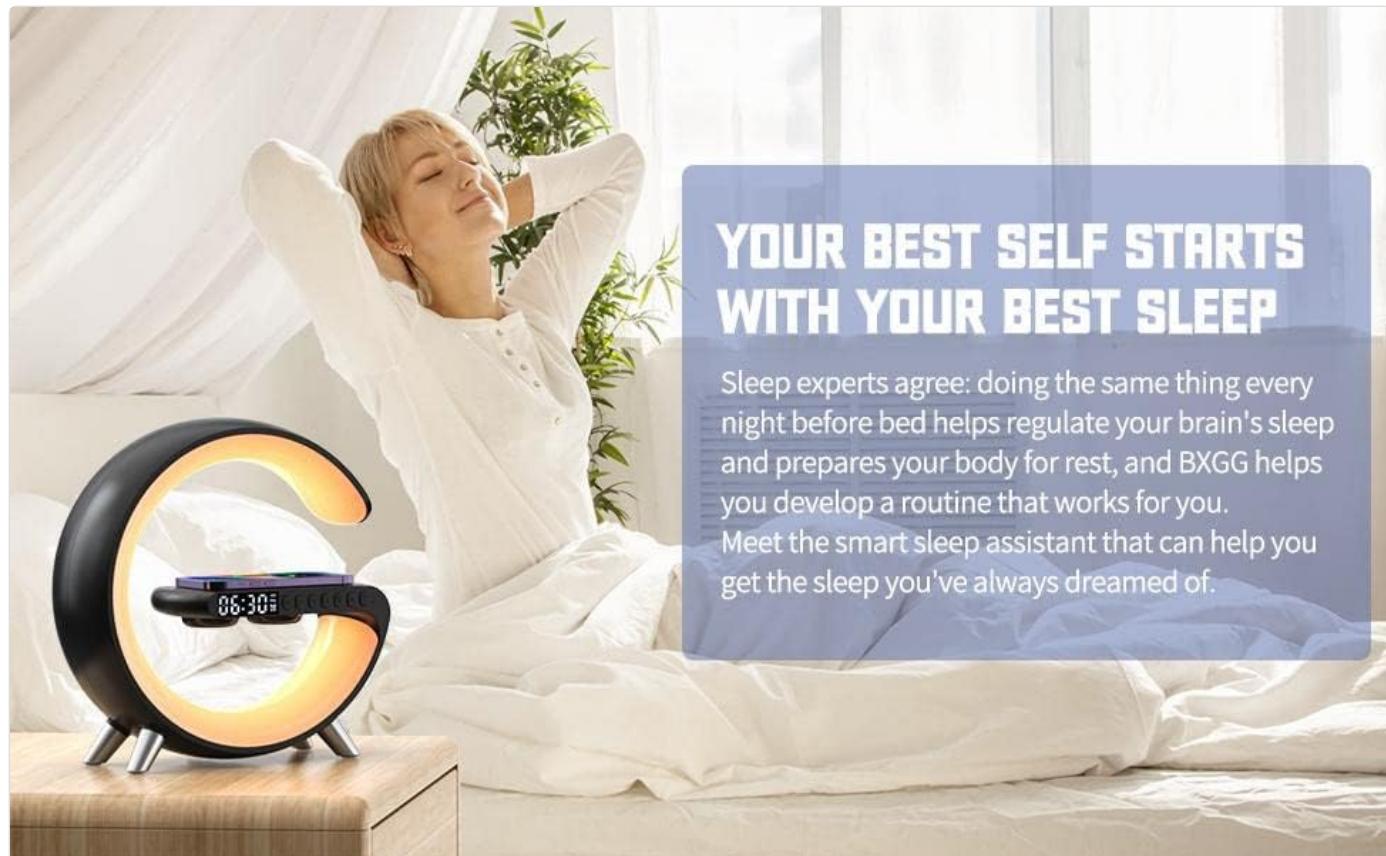

Figure 7: The device contributing to a healthy sleep routine.

MAINTENANCE

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners, solvents, or harsh chemicals.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Water Exposure:** This device is not waterproof. Avoid exposure to water or high humidity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device does not power on.	Not properly connected to power; power outlet issue.	Ensure the AC adapter is securely plugged into the device and a working wall outlet. Try a different outlet.
Alarm sounds but no audio.	Alarm volume too low; specific alarm sound not set; app issue.	Check alarm volume settings in the HappyLighting app. Ensure a specific alarm sound is selected. Restart the app and device.
App cannot find the device.	Bluetooth off; device not in pairing mode; app glitch.	Ensure Bluetooth is enabled on your phone. Restart the HappyLighting app and the device. Try unpairing and re-pairing the device in your phone's Bluetooth settings.
Wireless charging is slow or not working.	Phone not centered; phone case too thick; non-Qi compatible phone.	Reposition your phone on the charging pad. Remove thick phone cases. Ensure your phone supports Qi wireless charging.
Bluetooth speaker not connecting.	Not in pairing mode; already connected to another device; incorrect device selected.	Ensure the device is discoverable. Disconnect from any other paired devices. Select "NH-69" from your phone's Bluetooth list.
