RoyalCraft ZSC009

RoyalCraft Nightstand with LED Light Strips - Instruction Manual

Model: ZSC009 | Brand: RoyalCraft

INTRODUCTION

The RoyalCraft Nightstand with LED Light Strips is a versatile and modern bedside table designed to enhance your bedroom or home office. It features a unique robot-inspired design with a 360° rotating top drawer and a glass door storage compartment, complemented by integrated LED lighting. This manual provides comprehensive instructions for assembly, operation, and maintenance to ensure optimal use and longevity of your product.

SETUP AND ASSEMBLY

Before You Begin

Ensure you have ample space for assembly. Lay out all components on a soft, clean surface to prevent damage. Refer to the included physical Assembly Guide for detailed diagrams and step-by-step instructions specific to your product.

Assembly Steps

- 1. Unpack and Identify Components:** Carefully remove all parts from the packaging. Cross-reference each item with the parts list in your physical manual to ensure nothing is missing.
- 2. Assemble the Main Body:** Follow the instructions in your physical manual to connect the side panels, back panel, and base of the nightstand using the provided screws and dowels. Ensure all connections are secure.
- 3. Install the 360° Rotating Turntable:**

Attach the lower metal sheet of the turntable to the top surface of the main body, aligning the pre-drilled holes. Secure it firmly with the provided screws. The turntable allows the top drawer to rotate freely.

Video 1: Installation of the 360-degree rotating turntable.

4. Attach the Robot Head (Top Drawer Unit):

Carefully place the top drawer unit onto the installed turntable, aligning the central hole. Insert the long head screw through the large hole in the bottom of the top drawer and into the turntable. Rotate the head as needed to access and install the remaining screws into their respective holes, securing the head to the turntable.

Video 2: Attaching and securing the robot head (top drawer) to the turntable.

5. Install the Glass Door and Side Arms:

Attach the reinforced glass door to the lower compartment using the provided hinges. Ensure the door opens and closes smoothly. Then, secure the decorative side swinging arms to the main body as indicated in the manual.

P2 Grade MDF & Green Painted Surface

-  Sturdy Construction
-  Warp-Resistant
-  Water-Resistant

Reinforced Glass

-  High Strength
-  Haze Effect
-  Durable

OPERATING INSTRUCTIONS

360° Rotating Drawer

The top drawer unit is designed to rotate a full 360 degrees, providing easy access to its contents from any side of the nightstand. Simply apply gentle, even pressure to the top unit to rotate it to your desired position.

Video 3: Demonstration of the 360-degree rotating top drawer.

LED Light Strips

The integrated LED light strip illuminates the lower storage compartment, creating a cozy and inviting atmosphere. Use the provided remote control to power the lights on/off and adjust the brightness levels to suit your preference. The light strip is rechargeable via USB and can be easily removed for charging.

MAINTENANCE AND CARE

- **Cleaning:** Wipe all surfaces with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the painted finish.
- **Glass Care:** Clean the glass door with a standard glass cleaner and a soft, lint-free cloth. Exercise caution to prevent scratches or breakage.
- **LED Strip:** Keep the LED strip dry. If it needs cleaning, gently wipe with a dry cloth.
- **General:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

TROUBLESHOOTING

Drawer not rotating smoothly:

Check for any obstructions around the turntable mechanism. Ensure all screws securing the turntable are tightened appropriately, but not overtightened, which could impede movement.

LED light not working:

Ensure the LED strip is fully charged. Check the remote control battery and replace if necessary. Verify the strip is properly connected or adhered if it's removable.

Glass door not closing properly:

Check hinges for proper alignment and tightness. Ensure no items inside the compartment are obstructing the door's closure. Adjust hinges if they appear misaligned.

WARRANTY AND SUPPORT

The RoyalCraft Nightstand with LED Light Strips comes with a reliable one-year limited warranty from the date of purchase. This warranty covers manufacturing defects and material flaws under normal use.

For any questions, assistance with assembly, troubleshooting, or warranty claims, please do not hesitate to contact our dedicated after-sales support team. We are committed to providing you with the best possible experience.
