Yaheetech Full Bed Frame User Manual

Model: B0CR2VCFB6

1. INTRODUCTION

Thank you for choosing the Yaheetech Full Bed Frame. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Information

- Ensure all parts are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Assembly should be performed by adults. It is recommended to have two people for assembly.
- Place the bed frame on a flat, stable surface during assembly.
- Do not exceed the maximum weight recommendation of **816 pounds**.
- Keep small parts away from children during assembly to prevent choking hazards.
- Periodically check all connections and fasteners to ensure they remain tight.
- Dry clean only for the upholstered fabric.

2. PACKAGE CONTENTS

Your Yaheetech Full Bed Frame is shipped in two separate packages. Please ensure you have received both packages and all components listed below before starting assembly.

Components List:

- Upholstered Headboard
- Bed Frame Side Rails
- Bed Frame Footboard
- Wooden Slats
- Center Support Beam(s)
- Support Legs
- 4 Storage Drawers (2 large, 2 small)
- Hardware Pack (screws, bolts, washers, Allen wrench)
- Installation Manual (this document)

3. SETUP AND ASSEMBLY

Follow these steps carefully to assemble your Yaheetech Full Bed Frame. It is recommended to have two people for assembly.

- 1. Unpack and Identify Parts:** Carefully unpack all components from both packages. Lay them out on a clean, soft surface to prevent scratches. Refer to the parts list to ensure all items are present.
- 2. Assemble the Headboard:** Attach the headboard legs to the upholstered headboard panel using the provided hardware. Ensure the adjustable height mechanism is correctly aligned.
- 3. Connect Side Rails and Footboard:** Attach the side rails to the headboard and footboard using the appropriate bolts and nuts. Do not fully tighten all fasteners until the entire frame is assembled.
- 4. Install Center Support:** Place the center support beam(s) and attach any necessary support legs.

5. Install Wooden Slats:

- Attach the plastic parts to the outer ends of the wooden slats.
- Fix the slats onto the side rails of the bed frame.
- Fit and fix the two middle slats with their plastic parts into the center support.

6. **Assemble Storage Drawers:** Assemble the four storage drawers according to the instructions provided in the hardware pack. Ensure the rollers are securely attached to the bottom of each drawer.
7. **Insert Drawers:** Slide the assembled drawers under the bed frame. The built-in fixtures will help hold them in place and prevent accidental sliding.

8. **Final Tightening:** Once all components are in place and aligned, securely tighten all bolts and screws. Do not overtighten.

4. OPERATING INSTRUCTIONS

Adjusting the Headboard Height

The headboard offers three adjustable height settings to accommodate various mattress thicknesses and personal preferences. To adjust:

1. Carefully lift the mattress off the bed frame.
2. Locate the pre-drilled holes on the headboard legs.
3. Loosen the bolts securing the headboard to the frame.
4. Adjust the headboard to your desired height (39", 41", or 43.5") by aligning the bolts with the corresponding holes.
5. Securely tighten the bolts.

Using the Storage Drawers

The bed frame includes four smooth-gliding storage drawers (two large, two small) for convenient under-bed storage.

- To open, gently pull the drawer outwards. The rollers at the bottom facilitate easy movement.
- To close, push the drawer back into place. The internal fixtures are designed to hold the drawers securely under the bed, preventing them from sliding out unintentionally.
- These drawers are ideal for storing seasonal bedding, linens, clothing, or other personal items.

5. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your bed frame.

- **Fabric Care:** The upholstered velvet fabric should be **dry cleaned only**. Do not use liquid cleaners or harsh chemicals, as this may damage the material.
- **General Cleaning:** For routine cleaning, gently vacuum the fabric surfaces with an upholstery attachment to remove dust and debris.
- **Spills:** In case of spills, blot immediately with a clean, dry cloth. Do not rub. Consult a professional upholstery cleaner for stubborn stains.
- **Frame Care:** Wipe down non-fabric parts of the frame with a soft, damp cloth. Avoid abrasive cleaners.
- **Fastener Check:** Periodically (e.g., every 3-6 months) check all bolts and screws to ensure they are tight. Retighten if necessary to maintain stability.

6. TROUBLESHOOTING

If you encounter any issues with your bed frame, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed frame feels wobbly or unstable.	Loose fasteners (bolts/screws). Uneven floor surface.	Ensure all bolts and screws are securely tightened. Check if the bed is on an even surface; use shims if necessary.

Problem	Possible Cause	Solution
Drawers do not slide smoothly or get stuck.	Obstruction in the drawer path. Rollers are dirty or damaged. Drawer not assembled correctly.	Check for any items blocking the drawer's path. Clean rollers if dirty. Inspect drawer assembly and reassemble if needed.
Missing parts upon arrival.	Packaging error or damage during transit.	Verify all packages have arrived. Contact Yaheetech customer service with your order details and a list of missing parts.
Headboard height adjustment is difficult.	Bolts are too tight or misaligned.	Loosen the bolts sufficiently before attempting to adjust. Ensure proper alignment of holes before re-tightening.
