VEVOR YC-DJL-22*12*8ft

VEVOR Baseball Batting Cage

Model: YC-DJL-22*12*8ft

1. INTRODUCTION

This VEVOR Baseball Batting Cage is designed to provide a professional training solution for baseball and softball players. It is suitable for practicing hitting and pitching skills in various environments, both indoors and outdoors. The fully enclosed design ensures that balls remain within the training area, making it an ideal choice for athletes and coaches.

Key features include a large training area, durable heat-resistant fiberglass poles, a double-layer net for enhanced impact resistance, and user-friendly design elements such as a removable cage door and a pitching machine opening.

FIBRE DE VERRE DURCIE À HAUTE TEMPÉRATURE **VEVOR**[®]

TOUGH TOOLS, HALF PRICE

Un manchon conique, renforçant la solidité et moins sujet à la casse

Résistant à la chaleur et
à la corrosion

Mât en fibre de verre
Φ11mm/0.43in

Manchon tubulaire conique en fer galvanisé
70mmx0.85mm/2.8"x0.03"

An overview of the VEVOR Baseball Batting Cage, demonstrating its large, enclosed structure suitable for outdoor use.

2. SAFETY INSTRUCTIONS

- Always ensure the batting cage is properly assembled and securely anchored before use. Failure to do so may result in instability and potential injury.
- Regularly inspect all components, including poles, net, stakes, and ropes, for any signs of wear, damage, or fatigue. Do not use the cage if any part is compromised.
- Avoid prolonged outdoor exposure to extreme weather conditions (strong winds, heavy rain, intense sunlight) to prevent material degradation. Store the cage indoors or in a protected area when not in use to extend its lifespan.
- Children should only use the batting cage under direct adult supervision.
- Ensure adequate clear space around the cage during use to prevent accidental impact with surrounding objects or people.
- Wear appropriate protective gear, such as helmets and batting gloves, when using the cage for batting practice.

3. PACKAGE CONTENTS

Please verify that all the following components are included in your package:

- 1 x Baseball Batting Cage Net
- 8 x Anti-tilt Stakes
- 8 x Tension Ropes
- 6 x Ground Stakes
- 1 x 600D Storage Bag
- Fiberglass Poles (for 3 arches)

A comprehensive view of all included components: the batting cage net, fiberglass poles, ground stakes, tension ropes, anti-tilt stakes, and the 600D storage bag. This helps in verifying package contents.

4. SETUP INSTRUCTIONS

Follow these steps to assemble your VEVOR Baseball Batting Cage. It is recommended that at least two people assist with the setup for ease and safety.

1. **Unpack Components:** Lay out all components on a clear, flat surface. Refer to the 'Package Contents' section to ensure all parts are present.
2. **Assemble Fiberglass Poles:** Connect the fiberglass pole sections to form the three arched frames. Ensure each connection is secure and fully inserted into the reinforced conical sleeves.

VEVOR[®]
TOUGH TOOLS, HALF PRICE

Numéro de modèle : YC-DJL-22*12*8ft
Poids du produit : 15.24kg / 33.60lbs
Dimensions du produit (LxIxH) :
6705mmx3657mmx2438mm / 22x12x8 ft
Nombre d'arches : 3

This image highlights the heat-treated fiberglass poles and reinforced conical sleeves, which provide stability and durability to the batting cage structure. It shows a cross-section of the fiberglass pole (11mm/0.43in) and a galvanized iron conical tubular sleeve (70mm x 0.85mm / 2.8" x 0.03").

3. **Attach Net to Poles:** Carefully drape the batting cage net over the assembled pole arches. Secure the net to the poles according to the design, ensuring an even distribution and tension.
4. **Erect the Cage:** With assistance, carefully lift and position the assembled cage structure in your desired training location.
5. **Secure the Cage:** Use the provided ground stakes, anti-tilt stakes, and tension ropes to firmly anchor the cage to the ground. Ensure all ropes are taut and stakes are driven deep enough to provide maximum stability. This is crucial for preventing collapse, especially in windy conditions or during heavy use.

ÉQUIPEMENT D'ENTRAÎNEMENT COMPLET, FACILE À INSTALLER

Stable et résiste facilement aux impacts violents du baseball

This image displays the essential components for securing the batting cage, including anti-wind ropes, ground stakes, and fixing stakes, ensuring stability against impacts and weather conditions.

6. **Install Removable Door and Pitching Opening:** If desired, install the removable cage door for easy access. The cage also features an opening designed to accommodate a pitching machine.

HUMANIZED DESIGN, MORE CONVENIENT FOR TRAINING

Newly added baseball machine opening and
removable batting cage door

One end is removable,
allowing for easy entry and exit

Enhance your
batting accuracy

This image illustrates the user-friendly design features, including a removable cage door for easy entry and exit, and an opening designed to accommodate a pitching machine, enhancing training accuracy.

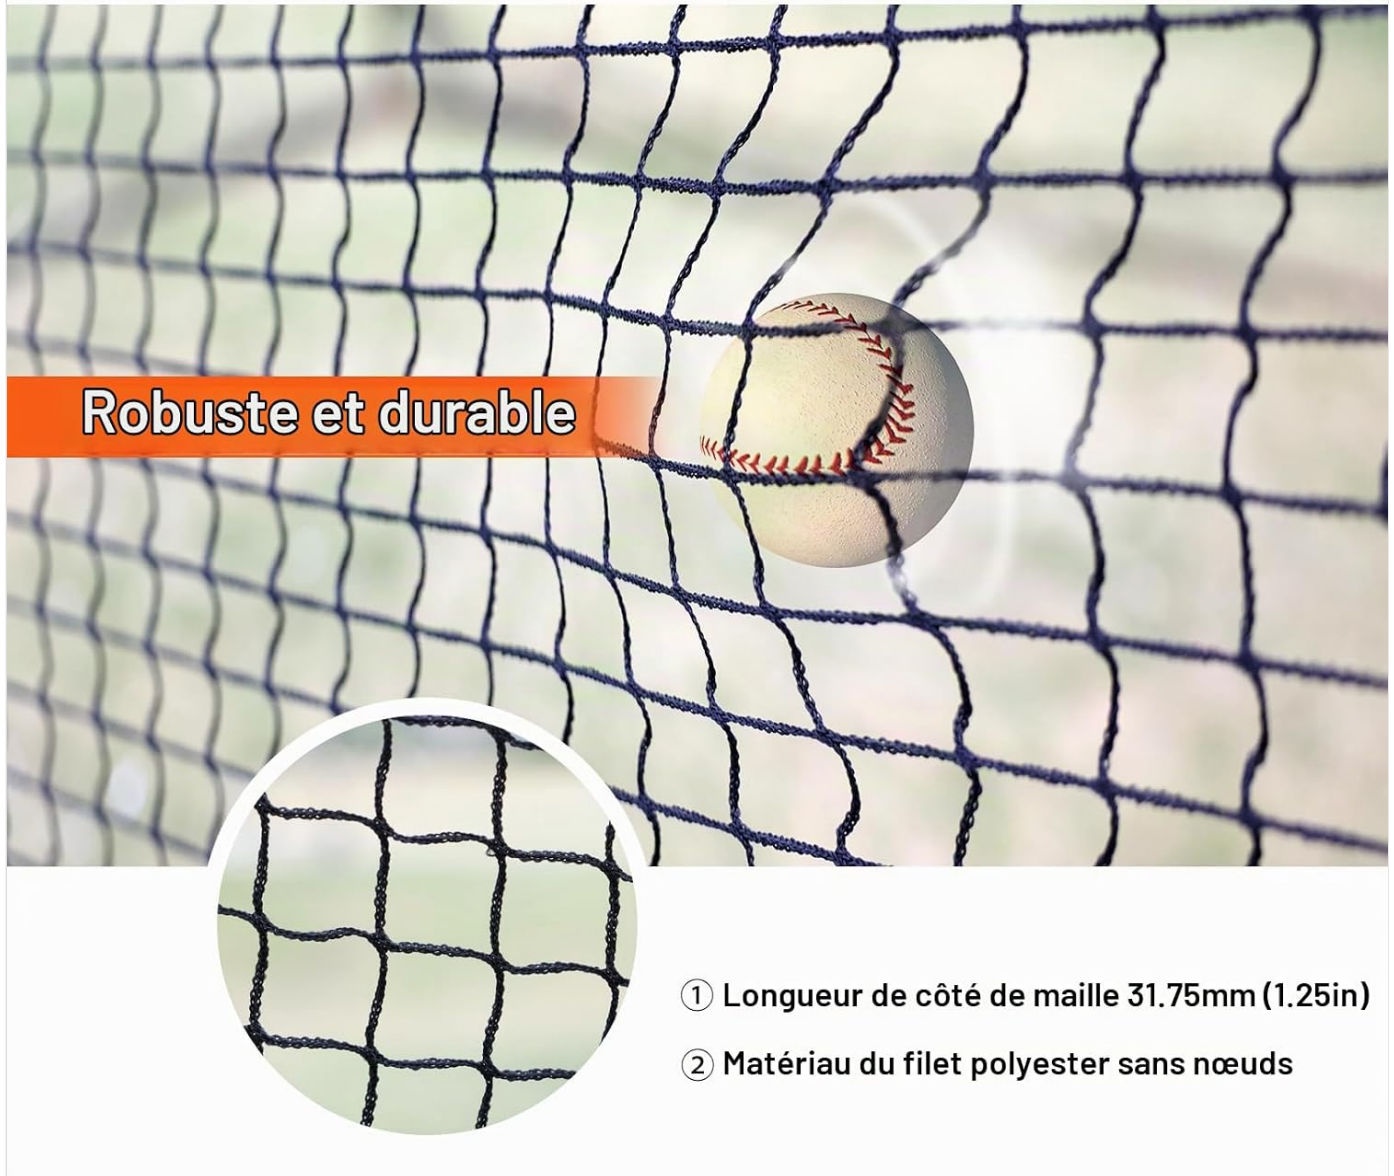

5. OPERATING INSTRUCTIONS

Once the batting cage is fully assembled and secured, it is ready for use:

- **Entry and Exit:** Use the removable cage door for convenient entry and exit from the training area.
- **Batting Practice:** Position yourself inside the cage for batting practice. The enclosed design ensures that hit balls are contained, providing a safe and focused environment.
- **Pitching Practice:** The cage can be used for pitching practice. If using a pitching machine, position it at the designated opening. Ensure the machine is stable and aimed correctly.
- **Check Stability:** Before each use, quickly check the stability of the cage, ensuring all stakes are firm and ropes are taut.

FILET DOUBLE COUCHE À L'EXTRÉMITÉ DE LANCEMENT DE LA BALLE

Filet épais, difficile à déchirer, résiste à l'impact des balles de baseball

Robuste et durable

- ① Longueur de côté de maille 31.75mm (1.25in)
- ② Matériau du filet polyester sans nœuds

A detailed view of the batting cage's double-layer polyester net, designed to be thick and tear-resistant. It shows a baseball hitting the net, illustrating its impact resistance. The mesh side length is 31.75mm (1.25in).

6. MAINTENANCE

Proper maintenance will extend the life of your VEVOR Baseball Batting Cage:

- **Cleaning:** Clean the net and poles periodically with a damp cloth and mild soap. Avoid harsh chemicals that could damage the materials.
- **Inspection:** Regularly inspect the net for tears or fraying, especially at high-impact areas. Check poles for cracks or bends, and ensure all connections remain secure.
- **Storage:** When not in use, especially during adverse weather or for extended periods, disassemble the cage and store it in the provided 600D storage bag in a dry, protected area. This prevents damage from UV exposure, moisture, and wind.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cage is unstable or collapses easily.	Improper anchoring; loose pole connections; strong winds.	Ensure all ground stakes and anti-tilt stakes are fully inserted. Tighten all tension ropes. Verify pole connections are secure. Disassemble and store in very strong winds.
Net shows signs of tearing or excessive wear.	High impact from balls; prolonged exposure to elements; manufacturing defect.	Inspect the net regularly. For minor tears, consider repair kits. For significant damage, replacement of the net may be necessary. Ensure proper storage when not in use.
Difficulty assembling poles.	Misalignment; debris in connectors.	Ensure pole sections are aligned correctly. Clear any debris from the conical sleeves. Apply gentle, even pressure. Do not force connections.

8. SPECIFICATIONS

- Model Number:** YC-DJL-22*12*8ft
- Product Weight:** 15.24 kg (33.60 lbs)
- Dimensions (L x W x H):** 670 x 360 x 240 cm (22 x 12 x 8 ft)
- Number of Arches:** 3
- Net Material:** Polyester
- Pole Material:** Heat-treated Fiberglass
- Color:** Black
