› BINBOK VR T3 Plus Battery Head Strap for Meta Quest 3/3S Instruction Manual

BINBOK VR 39-1

BINBOK VR T3 Plus Battery Head Strap

MODEL: 39-1 FOR META QUEST 3/3S

Introduction

This manual provides instructions for the proper setup, operation, and maintenance of your BINBOK VR T3 Plus Battery Head Strap. This accessory is designed to enhance your virtual reality experience with the Meta Quest 3 and Quest 3S headsets by providing extended battery life and improved comfort. Please read this manual thoroughly before use to ensure optimal performance and safety.

Package Contents

Verify that all items listed below are included in your package:

- Head Strap (1)
- Magnetic Battery Pack (2)
- Twin Charging Dock (1)
- Charging Cable (1)
- Rear Brace (TPU) (1)
- Sponge Strap (Cushioned Top Strap, PU Leather) (1)
- User Manual (1)

Setup

1. Attaching the Head Strap to your Meta Quest 3/3S

Carefully remove the original head strap from your Meta Quest 3 or Quest 3S headset. Align the BINBOK VR T3 Plus Head Strap with the attachment points on your headset and firmly press until it clicks securely into place. Ensure both sides are properly attached.

Figure 2: Attaching the Head Strap

2. Installing the Cushioned Top Strap

The included sponge strap (cushioned top strap) is designed for enhanced comfort. Attach it to the top of the head strap using the Velcro fasteners. This helps distribute weight and reduce pressure on your head.

3. Charging the Battery Packs

Place the two 8000mAh magnetic battery packs into the twin charging dock. Connect the charging cable to the dock and a suitable USB power source. The indicator lights on the batteries and dock will show the charging status. A full charge typically takes approximately 3 hours.

Operation

1. Adjusting the Head Strap

The head strap features a rear knob for adjusting the fit. Turn the knob to tighten or loosen the strap for a comfortable and secure fit. The side arms are also adjustable by 180 degrees, allowing for optimal positioning for various head sizes, including adults, children, and users wearing glasses.

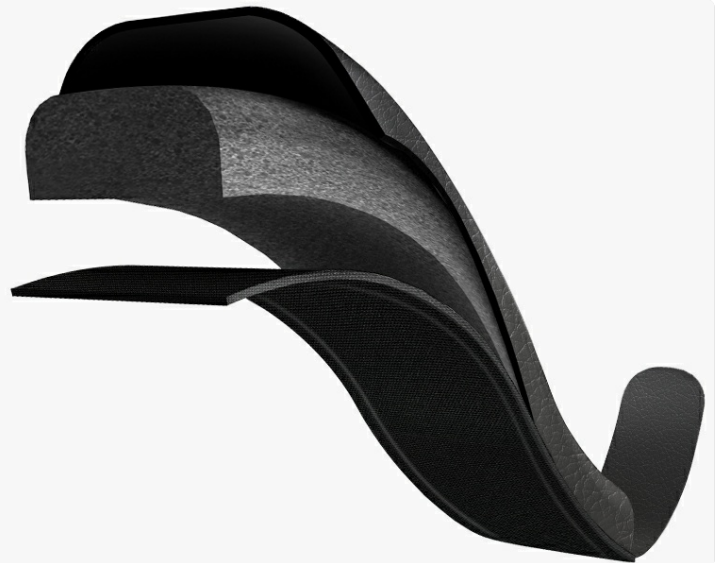

Figure 6: Head Strap Adjustment and Magnetic Battery

2. Using the Magnetic Battery Packs

The T3 Plus includes two 8000mAh hot-swap battery packs. To attach a battery, simply align it with the magnetic connection points on the back of the head strap. It will snap into place. When one battery is depleted, you can easily swap it with a fully charged one from the charging dock without interrupting your VR experience. This provides over 4 extra hours of gameplay per battery.

Figure 7: Twin Replaceable Batteries

3. Lightweight Mode

For a lighter experience, the battery packs can be detached. The head strap can be used independently without the added weight of the batteries. This is ideal for shorter sessions or when maximum mobility is desired.

Video 1: Demonstrates the lightweight mode of the head strap without the battery packs, showing a user playing VR.

4. Charging Mode (while in use)

When a battery pack is attached to the head strap and the headset is in use, the battery pack will automatically begin charging the Meta Quest 3/3S. This ensures your headset remains powered for extended periods.

Video 2: Illustrates the charging mode where the attached battery pack powers the Meta Quest 3/3S headset during gameplay.

Maintenance

1. Cleaning

To clean the head strap and battery packs, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no moisture enters the electronic components. Do not use abrasive cleaners or solvents.

2. Storage

Store the head strap and battery packs in a cool, dry place away from direct sunlight and extreme temperatures. Ensure battery packs are partially charged (around 50%) before long-term storage to preserve battery health.

Troubleshooting

1. Battery Packs Not Charging

- Ensure the charging cable is securely connected to both the charging dock and the power source.
- Verify that the battery packs are correctly seated in the charging dock, with their contacts aligned.
- Check if the power source is functional.

2. Head Strap Feels Uncomfortable

- Adjust the rear knob to find the optimal tightness.
- Ensure the cushioned top strap is properly positioned to distribute weight evenly.
- Adjust the 180-degree side arms to fit your head shape.

3. Battery Pack Not Attaching Securely

- Ensure the magnetic contacts on both the battery pack and the head strap are clean and free from debris.
- Verify that the battery pack is aligned correctly before attempting to attach it.

Specifications

Feature	Detail
Model Number	39-1
ASIN	B0CR68B2RV
Product Dimensions	3.94 x 2.36 x 1.18 inches
Item Weight	2.2 Pounds
Batteries	2 Lithium Polymer batteries (8000mAh each, included)
Manufacturer	BINBOK VR
