Heybly HCT091W

Heybly Cat Tree HCT091W Instruction Manual

Floor-to-Ceiling Cat Condo with Hammock and Scratching Posts

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Heybly Cat Tree HCT091W. Please read this manual thoroughly before assembly and use to ensure proper function and safety for your cat.

Safety Information

- Ensure all parts are securely fastened before allowing your cat to use the tree.
- Place the cat tree on a flat, stable surface.
- Regularly check for loose parts or wear and tear. Tighten or replace as necessary.
- Keep children away from the cat tree during assembly.
- This product is designed for indoor use only.

Package Contents

Verify that all components are present before beginning assembly. Refer to the parts list provided in the packaging.

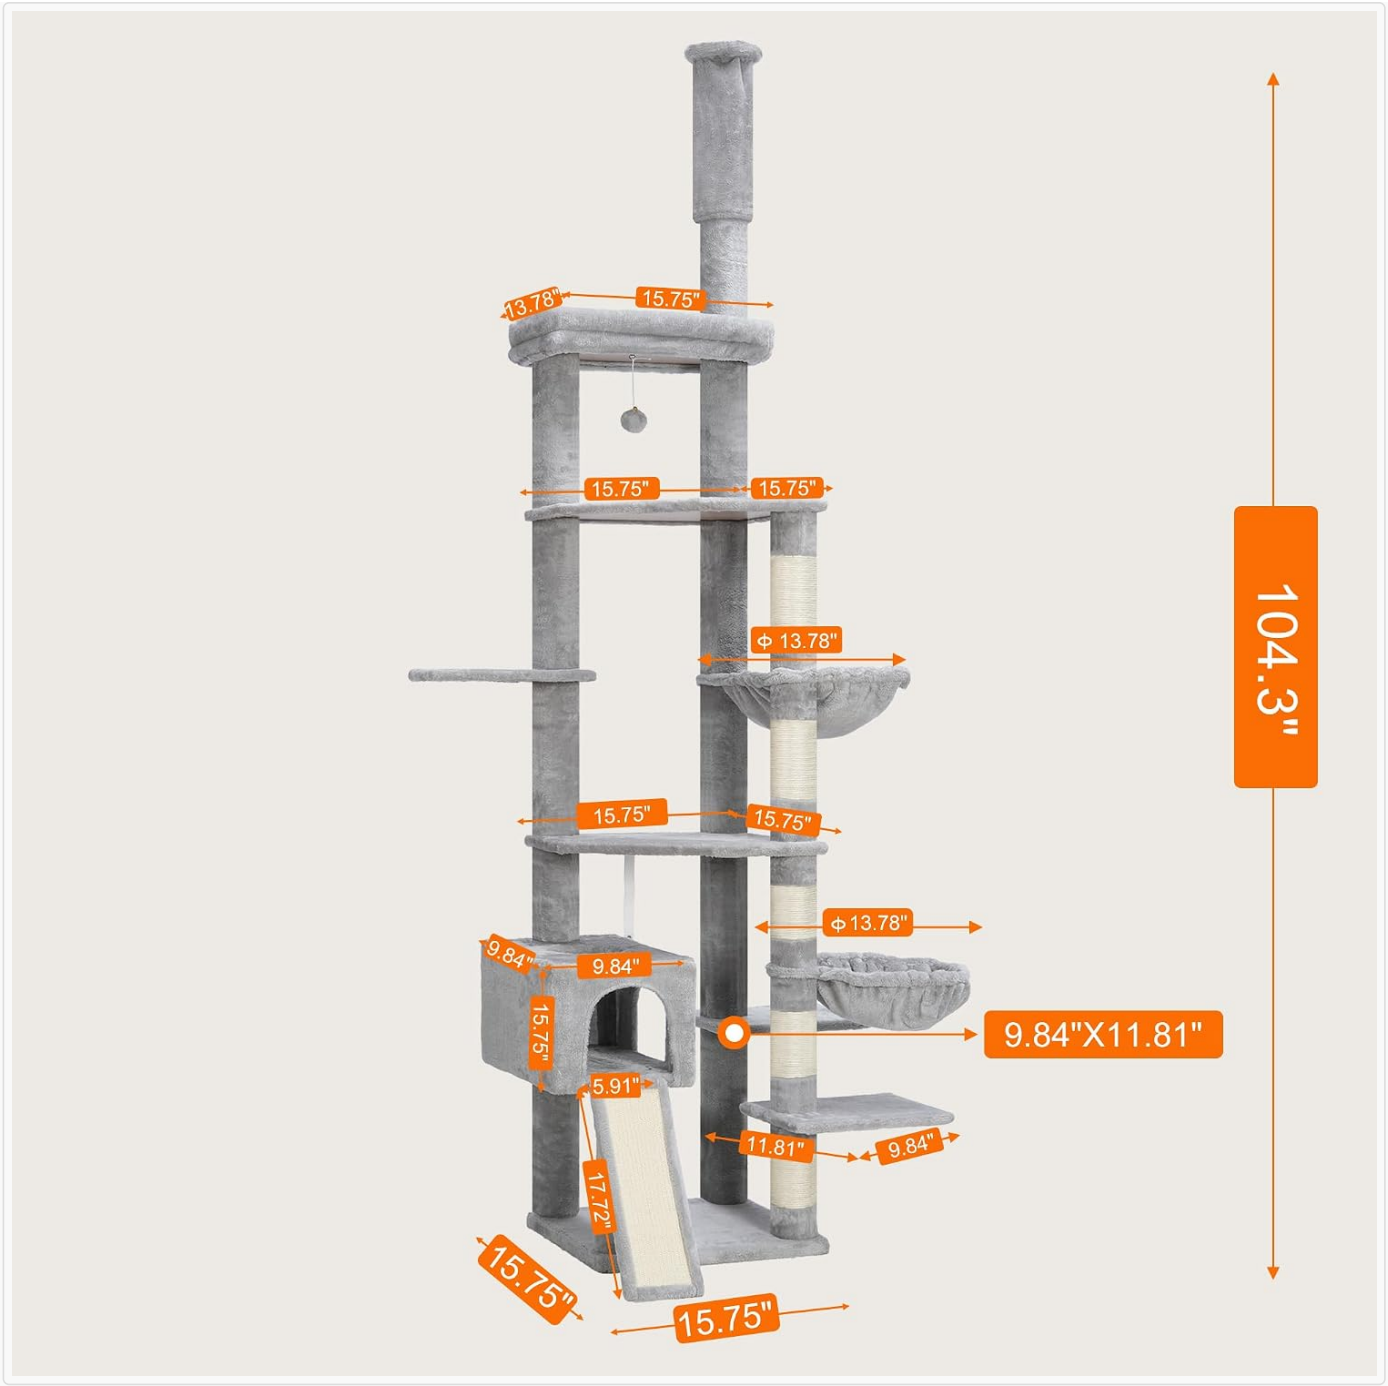

Image Description: A detailed diagram illustrating the various components and overall dimensions of the Heybly Cat Tree HCT091W. Key measurements such as height (104.3 inches), platform widths, and condo dimensions are clearly labeled. This image helps users identify all parts and understand the scale of the assembled product.

Setup and Assembly

Follow these steps carefully for proper assembly. It is recommended to have a second person assist with the final ceiling tensioning step.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out. Compare with the parts list to ensure everything is present.
2. **Base Assembly:** Attach the lowest scratching posts and the cat condo to the base plate. Ensure screws are tightened securely.
3. **Platform Installation:** Systematically attach the various platforms and hammocks, working your way upwards. Pay attention to the orientation of each platform as indicated in the assembly guide.

4. **Scratching Post Integration:** Ensure all sisal-wrapped scratching posts are firmly screwed into place.
5. **Adjustable Top Pole:** Once the main structure is assembled, attach the adjustable telescopic pole to the top platform.
6. **Ceiling Tensioning:** Position the cat tree in its desired location. Extend the telescopic pole until it firmly presses against the ceiling, providing stability. The top part of the pole is covered with plush fabric for an integrated look.

Image Description: A close-up view of the adjustable telescopic pole, highlighting its plush fabric covering. This design ensures the pole blends seamlessly with the cat tree's aesthetic and provides a soft contact point with the ceiling.

For enhanced stability, the cat tree can be mounted against a wall using the provided wall anchor kit (if included). This prevents wobbling during active play.

Operating Instructions

The Heybly Cat Tree HCT091W is designed to provide multiple activity zones for your cat.

- **Climbing and Exploration:** The multi-level platforms allow cats to climb, jump, and explore different heights.
- **Scratching:** Utilize the sisal-wrapped posts and the scratching board at the base to satisfy natural scratching instincts, helping to protect your furniture.
- **Resting and Sleeping:** The comfortable top platform, cozy hammocks, and enclosed cat condo offer various spots for resting, napping, and observing surroundings.
- **Play:** The integrated hanging toys encourage playful interaction.

Image Description: Two cats are shown comfortably sleeping on the spacious top platform of the cat tree, demonstrating its capacity and comfort for multiple felines.

Image Description: This image features a cat curled up in one of the soft, suspended baskets and another cat peeking out from the two-hole cat condo, illustrating the diverse resting and hiding spots available.

Maintenance

Regular maintenance will extend the life of your cat tree and ensure your cat's safety.

- **Cleaning:** Use a lint roller or vacuum cleaner to remove loose fur and dust from the plush surfaces. Spot clean any soiled areas with a damp cloth and mild pet-safe cleaner. Avoid harsh chemicals.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Wear and Tear:** Inspect scratching posts for significant wear. While sisal is durable, it will fray over time. Consider replacing heavily worn posts to maintain scratching appeal.
- **Stability Check:** Regularly verify the tension of the ceiling pole to ensure the tree remains stable.

Troubleshooting

Problem	Possible Cause	Solution
Cat tree wobbles or is unstable.	Loose connections; insufficient ceiling tension; uneven floor.	Tighten all screws. Adjust the telescopic pole to increase ceiling tension. Ensure the tree is on a flat surface; use shims if necessary. Consider wall anchoring.
Cat is not using scratching posts.	Prefers other surfaces; posts are too worn; cat needs encouragement.	Apply catnip to the sisal posts. Gently guide your cat's paws to the posts. Ensure other scratching options are less appealing.
Parts are missing or damaged upon arrival.	Manufacturing defect or shipping damage.	Contact Heybly customer support with your purchase details for assistance.

Specifications

Model: HCT091W

Brand: Heybly

Dimensions (L x W x H): 15.8" x 15.8" x 92.5-104.3" (Adjustable Height)

Materials: Cardboard, Faux Fur, Sisal

Item Weight: 37.4 pounds (17 Kilograms)

Color: Light Gray

Target Audience: Cats (All Life Stages, All Breed Sizes)

Specific Uses: Climbing, Jumping, Scratching, Resting

Care Instructions: Keep Indoors
