Model: GD9215AD04

1. Important Safety Instructions

Please read all instructions carefully before using this appliance and retain for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- **Electrical Safety:** Ensure the heater is plugged directly into a 120V AC, 60Hz wall outlet. Do not use extension cords, power strips, or surge protectors.
- **Placement:** Always place the heater on a firm, level surface. Keep combustible materials such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9 meters) from the front, top, and sides of the heater.
- **Overheat Protection:** The heater is equipped with an automatic overheat protection system. If the heater overheats, it will automatically shut off. Unplug the heater, allow it to cool for 30 minutes, then plug it back in.
- **Tip-Over Protection:** This heater features a safety tip-over switch that automatically shuts off the unit if it is accidentally tipped over. If this occurs, place the heater upright on a stable surface to resume operation.
- **Water and Moisture:** Do not use the heater in bathrooms, laundry areas, or similar indoor locations where water is present. Never immerse the heater in water.
- **Children and Pets:** Close supervision is necessary when any appliance is used by or near children or individuals with reduced physical, sensory, or mental capabilities.
- **Airflow:** Do not block air intakes or exhaust openings. Ensure proper ventilation.
- **Materials:** Constructed with V0 flame-retardant materials for enhanced safety.

5. Maintenance

Regular maintenance ensures optimal performance and longevity of your heater.

- **Cleaning:** Always unplug the heater before cleaning. Use a soft, damp cloth to wipe the exterior surfaces. Do not use abrasive cleaners or solvents. Ensure the heater is completely dry before plugging it back in.
- **Air Vents:** Periodically clean the air inlet and outlet vents with a vacuum cleaner attachment to remove dust and lint.
- **Humidifier Tank:** If using the humidifier, regularly clean the water tank to prevent mineral buildup and mold. Use a mild detergent and rinse thoroughly. Refill with clean, distilled water.
- **Storage:** When not in use, store the heater in a cool, dry place, preferably in its original packaging, away from direct sunlight and moisture.

6. Troubleshooting

If you experience issues with your heater, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Heater does not turn on.	No power, tip-over switch activated, overheat protection activated.	Check power outlet. Ensure heater is upright. Unplug, wait 30 mins, then replug.
No heat output.	Incorrect mode selected, thermostat set too low.	Select H1 or H2 mode. Increase target temperature above room temperature.
Humidifier not producing mist.	Water tank empty, humidifier function off.	Refill water tank. Press the Humidifier button to activate.
Heater shuts off unexpectedly.	Overheat protection, tip-over protection, timer activated.	Check for obstructions. Ensure heater is upright. Check timer settings.
