Hotel Collection Luxury Home Diffuser

Hotel Collection Double Presidential Scent Diffuser

Model: Luxury Home Diffuser

Introduction

The Hotel Collection Double Presidential Scent Diffuser is designed to provide a luxurious whole-home fragrance experience. Utilizing advanced cold-air diffusion technology, this system efficiently scents large spaces up to 6000 square feet by connecting directly to your HVAC system. It transforms fragrance oil into a dry nano-mist, ensuring the scent remains suspended longer for superior coverage without altering the oil's therapeutic properties, as it uses no heat or water. The integrated smart timer allows for precise control over scenting periods, making it a safe and effective solution for any home environment.

Safety Information

Please read and understand all safety precautions before operating the diffuser.

- Avoid direct skin contact with undiluted essential oils.
- Keep the device and fragrance oils out of reach of children and pets.
- Ensure proper ventilation in the area where the diffuser is installed and during use.
- Do not block the air vents on the diffuser.
- Use only Hotel Collection fragrance oils with this diffuser to ensure optimal performance and safety.

Product Overview

Components and Features

- **Dual Digital Control Panels:** Independent controls for each scent bottle, allowing for precise programming.
- **HVAC System Connection:** Designed for seamless integration with your home's heating, ventilation, and air conditioning system for whole-house scenting.
- **Cold-Air Diffusion Technology:** Converts fragrance oil into a fine, dry nano-mist without heat or water, preserving oil integrity and ensuring wide coverage.
- **Programmable Weekly Timer:** Features 4 unique operating periods for customized scenting schedules.
- **Built-in Fan:** Ensures consistent scent distribution across large areas.
- **Oil Bottle Capacity:** Compatible with 500 mL fragrance oil bottles.
- **Coverage:** Effectively scents spaces up to 6000 square feet.
- **Material:** Constructed from 100% recycled aluminum for durability and sustainability.
- **Dimensions:** Approximately 10.25" (L) x 6.5" (W) x 7.5" (H).

Setup

Follow these steps to set up your Double Presidential Scent Diffuser:

1. **Placement:** Position the diffuser in a stable, upright location near your HVAC system's return air duct. Ensure there is adequate space for ventilation.
2. **HVAC Connection:** Connect the diffuser's output to your HVAC system using the provided tubing and connectors. Consult a professional if you are unsure about HVAC integration.
3. **Install Fragrance Oil:** Unscrew the cap from your desired Hotel Collection fragrance oil bottle (500 mL). Carefully screw the oil bottle into the designated port on the diffuser. Ensure it is securely tightened to prevent leaks.
4. **Power Connection:** Plug the power adapter into the diffuser and then into a standard electrical outlet.
5. **Initial Power On:** Flip the main power switch to the 'ON' position. The digital display panels should illuminate.

Operating Instructions

The Double Presidential Scent Diffuser features two independent digital control panels, allowing you to manage scenting for each bottle separately. Each panel controls one scent bottle.

Setting the Timer and Scent Intensity

Each control panel has 'MODE', 'SET', 'UP', and 'DOWN' buttons.

1. **Accessing Settings:** Press the 'SET' button to cycle through various settings: current time, day of the week, and up to 4 programmable operating periods.
2. **Setting Current Time/Day:** When the time or day flashes, use 'UP' and 'DOWN' buttons to adjust. Press 'SET' to confirm and move to the next setting.
3. **Programming Operating Periods:**
    - For each period (P1, P2, P3, P4), set the start time (ON) and end time (OFF) using 'UP'/'DOWN' and 'SET'.
    - Set the operating days for each period (e.g., Mon-Fri, Sat-Sun, or all days).
    - Adjust the scent intensity (working time and pause time) for each period. The display will show 'Work' (seconds the diffuser runs) and 'Pause' (seconds it pauses). Use 'UP'/'DOWN' to set these values. A higher 'Work' time and lower 'Pause' time will result in stronger scenting.
4. **Saving Settings:** After setting all desired parameters, press 'MODE' to exit the programming menu. The diffuser will now operate according to your schedule.

The cold-air diffusion technology ensures that the scent is evenly distributed throughout your space, providing consistent coverage.

Maintenance

Regular maintenance ensures optimal performance and longevity of your Hotel Collection diffuser. It is recommended to clean the diffuser every 1-2 months, or whenever you switch fragrance scents.

Cleaning Procedure:

1. **Prepare Cleaning Solution:** Fill an empty Hotel Collection fragrance oil bottle (or the one that came with your diffuser) with rubbing alcohol (isopropyl alcohol) up to the second line from the bottom.
2. **Install Cleaning Bottle:** Carefully screw the alcohol-filled bottle into the diffuser's oil port, ensuring it is secure.
3. **Run Cleaning Cycle:** Turn on the diffuser and let it run for approximately 15 minutes. This allows the rubbing alcohol to circulate through the internal components, dissolving any oil residue.
4. **Power Off and Store:** After the cleaning cycle, unplug the device from the wall outlet. Keep the diffuser in an upright position to prevent any alcohol or oil from leaking.
5. **External Cleaning:** Wipe the exterior of the device with a soft, damp cloth to remove any oil stains or fingerprints. Avoid using harsh or abrasive cleaning products, as these can damage the finish.

Troubleshooting

If you encounter issues with your Double Presidential Scent Diffuser, please refer to the following common solutions:

Problem	Possible Cause	Solution
No scent output or weak scent.	Oil bottle empty or not properly installed. Diffuser nozzle clogged. Scent intensity set too low. Diffuser not running during programmed times.	Check oil level and ensure bottle is screwed in tightly. Perform a cleaning cycle with rubbing alcohol. Increase 'Work' time and/or decrease 'Pause' time in the settings. Verify programmed operating periods and current time/day settings.
Diffuser not turning on.	Power cord not connected. Power outlet not working. Main power switch is off.	Ensure power cord is securely plugged into the diffuser and outlet. Test the outlet with another device. Flip the main power switch to 'ON'.
Unusual noise from the diffuser.	Diffuser not on a level surface. Internal component issue.	Place the diffuser on a flat, stable surface. If noise persists, contact customer support.

Specifications

Brand	Hotel Collection
Model Name	Double Presidential Scent Diffuser
Item Model Number	Luxury Home Diffuser
Color	Black
Material	100% Recycled Aluminum (Metal)
Product Dimensions (L x W x H)	10.25" x 6.5" x 7.5"
Oil Capacity	500 Milliliters
Coverage Area	Up to 6000 sq ft
Technology	Cold-Air Diffusion (Heatless, Waterless)
Power Source	Corded Electric
UPC	810118942358
ASIN	B0CRBKP57M
